This gers, as thus far all others have been allowed to pass. Both State Health Officer Fulton and Quarantine Officer Hastings have received official notification of the existence of the plague at the bay city, and, while the latter has received no instructions from the department to establish an inter-state quarantine he deems strict precautions necessary to guard against the possible introduction of the disease here, and, together with the state health officer, will inspect all incoming vessels from that port and isolate all the Chinsese passengers.

The first vessel affected by the new regulations was the O. R. & N. steamer Columbia, which arrived here this morning. She was detained in the quarantine grounds until a thorough inspection was made and then allowed to come to the dock. Two Chinese passengers were, however, taken to the government quarantine station, where their baggage will be fumigated, and they will be held for about 10 days.

By a Word Being Omitted in a Gov-

ernment Treaty With France. New York, May 21.-A decision just rendered by Judge Townsend, who court the appeals from the decision of the board of general appraisers, under the customs administration act, lessens the duties on French brandies and liquors 50 cents a gallon, and in the the customs administration act, lessens particular suit which was brought by George S. Nicholas, an importer, takes \$45,000 out of the treasury of the gov-

ernment. Nicholas, on June 10, 1898, received from France 80,000 gallons of the cordial known as "Chartreuse." Collector Bidwell assessed the duty on this importation at \$2.25 per gallon. The importer appealed to the board of general appraisers, and they affirmed the collector's action. Then the matter was brought into the circuit court and, when the hearing came up, counsel for Nicholas insisted that under the new treaty with France, made in 1898, a year later than the passage of the tariff under which the appraisement had been made, the duty should have been only \$1.75 per gallon. Copies of the treaties made between France and the United States were produced as evidence, and in the French copy the word "liquers" appears, while from the American copy the word "liquors" is missing. This decision is in favor of the importers, and if it holds, means a loss of many million dollars to the government annually.

Panama Canal Plot. Washington, May 21.—Soon after the senate convened today, Morgan (Dem. Ala.), chairman of the committee on inter-oceanic canals, offered a resolution directing the committee to make an investigation, sweeping in its character, of the dealings of individuals or corporations with a view to monopolizing a ship canal at Panama or in Nicaragua, and whether the individuals or corporations propose to obstruct the United States in the construction of an isthmian caval. Morgan stated that the object of the inquiry proposed is to enable the president of the United States to check and destroy a conspiracy founded on fraud, corruption and arthe Wild Goose Railway Company, privileges of the people and government of the United States.

Washington, May 23,-A pyrotechnic discussion of the status of the Boer commissioners now in Washington was precipitated in the senate today by a resolution offered by Allen extending to the commissioners the privileges of the floor of the senate during their sojourn in the national capital. The resolution was defeated by a vote of 36 to 21, but not until after a sharp controversy between its author and Davis, chairman of the committee on foreign relations. Nome Business Eclipses the Kloudike Stampede of 1898.

Seattle, May 21 .- In point of number of passengers and tons of freight Seattle's Nome business eclipses the memorable Klondike stampede of 1898. Such scenes as were witnessed on the water front for the entire week, are a revelation even to those who were in Seattle at the time of the Klondike stampede. Then an occasional steamer departed for the north; now the daily sailings number from one to five.

The Post-Intelligencer recently published what was believed to be a conservative estimate of the number of people that would go north on Seattle's various steamers. Transportation men are now a unit in saying that the estimate was too conservative; that at least 3,000 more than was shown by the Post-Intelligencer's figures will join in the rush, for the reason that many steamships have been engaged for that run that were not scheduled at the time the figures were compiled.
