# THE VOTE OF OREGON

Election.

Republican Candidates for State Offices and Congressmen Elected-Legislature Will Be Republican.

Portland, June 5 .- Returns received up to 3 o'clock this morning give very little definite information. They in dicate, however, that the state is safely Republican. The vote polled fell considerable short of the registration, and for the most part the election was very quiet. Wolverton is re-elected judge of the supreme court, and hailey is reelected dairy and food commissioner. Moody is safe for congressman in the Second district and probably Tongue in the first, with slightly reduced plurality. The legislature will be Republican, but probably less heavily so than the last one. Fusionists were successful in electing part of the county officers in several counties.

### MINES AND MINING.

New Gold Camp Springs Up at Ketchi-

Seattle, June 4 .- Reports from Ketchikan, Alaska, brought here by Portland men, tell of a new gold camp that has sprung up near Ketchikan, at a place called Port Johnson, but bereafter to be known as Dolomite, where a postoffice has been established by the United States. The place takes its name from the dolomite formation that abounds and some rich veins of free milling quartz have been discovered.

Discovered by Portland Men. The first discoveries at Dolomite are claimed by Portland men, and the first mine ready to ship ore is owned by Portlanders, J. B. Capp, A. B. Eardley, W. F. Schedd and others, who are proud of their Valparaiso group. From tide water to the mine, about one mile, a road is being built. The ledge of this property is about seven feet wide, runs east and west and some assays show upwards of 133 ounces of gold and 58 ounces of silver to the ton. Ore shipments will beign in about one month.

Other Good Properties. Another mine near Dolomite is the Golden Fieece, and the 100-foot tunnel run into the ledge has produced good results. Dunn & Company, owners of this mine, are building a tramway from the town out to the mine, and will also run another tunnel 300

feet below the first, cutting the ledge. On the beauty group a 40-loot shaft has been sunk on the vein. The owners, J. A. Preston and O. C. Clemens, have brought some hoisting and pumping machinery from Seattle for this mine and will sink another shaft and cross-cut the ledge.

Bonded Three Claius. Three claims in the Dolomite camp,

not far from the Golden Fleece, have been bonded by Judge Munley, of Portland, for \$30,000, and development work will be pushed at once by R. L. Dunn. Judge Munley's personal representative on the ground is Major Freeman, of Portland.

This new mining settlement, now known as Dolomite, is situated on the east shore of Prince of Wales island, 28 miles south of Ketchikan, Alaska, and is thought to be in a rich mineral

Will Build a Stamp Milt. James Bowden, superintendent of the Crackerjack mine, near Ketchikan, was at Portland last week arranging for machinery for a stamp mill on the property, as the mine is worth it, with a three-foot vein of rich ore along the surafce for a distance equal to three claims, between walls of slate and porphery, and recent assays demonstrate the mineral to be worth around \$400 to the ton. The mine is located withnearly all precincts indicate that the in three miles of a good harbor and Indians have been employed to carry out ore at \$2.50 per day. They work all right uniti a few dollars have been

earned, then quit and spend their money. Ketchtkan Is a Trading Center. Trade for a distance of 50 miles in all directions seeks Ketchikan and the town is able to provide for the ordinary needs of the people. The town is grow-ing and seems to be satisfied with the prospects for the future. The Nome rush has not affected this camp and as mining goes on the year round, there is reasonable permanency to the business interests. Numerous canneries are operated in the neighborhood every cummer, having a fair ron of fish for

the two months of the busy season,

July and August. GALICE CREEK DISTRICT .-Reeves & Williams, who own the Cold Spring copper mine, in the Galice Creek district, are pushing development work on their property. A large amount of ore is on the dump which assays well, both in gold and copper, says the Medford, Ore., Mail. The ledge is clear cut, well defined, has perfect walls, and there is indication that it will prove to be a permanent an valuable property.

BURNT RIVER MINES .- The Burnt River Gold Mining and Dredging Company contemplates building a \$75, 000 electric plant on its property, with 600-horse power capacity, for operating the mills, hoists and lighting the tunnels and shafts of the mines. This Benton-Five precincts complete out is one of the large properties of East-
