THE STRIKE SITUATION

President Mitchell Tells the Strikers' Side.

NOT TREATED CONSIDERATELY

Men Do Not Want the Powder Concession Counted as Part of the 10 Per Cent Advance.

Hazleton, Pa., Oct. 23.—When President Mitchell, of the United Mine Workers, was asked what he had to say in regard to a settlement of the miners' strike, he said:

"As there appears to be some disposition on the part of the public to place the responsibility of the prolongation of the strike on the shoulders of the mineowners, speaking for them I want to say that when the Scranton convention accepted the 10 per cent increase in wages providing the operators abolished the sliding scale and guaranteed the payment of the advance in wages until April 1, the miners had met the operators more than half way. They had shown a conciliatory spirit, and I know of no good reason why the proposition should not have been accepted by the operators. As a consequence, the responsibility for the continuance of the strike rests solely upon the failure of the operators to treat the proposition of their employes considerately. The public should understand that unsatisfactory as is the proposition of the operators, who make the reduction in the price of powder apart of the advance of 10 per cent, that even this proposition has not been offered by a very large number of the coal-producing companies in the anthracite region, and until all companies guarantee the payment of the 10 per cent advance above the rate of wages paid in September until April 1, according to a decision of the Scranton convention, the miners are powerless to act."

"I want to repeat again that there can be no partial sectional settlement of this strike. The large companies in the Lehigh region that have refused to move at all since the Scranton convention was held are Cox, Bros. & Co., the largest coal producers in the Lehigh region; G. B. Markle & Co., the Lehigh Coal and Navigation Company and a large number of smaller companies. There is also a considerable number of coal companies in the Lackawanna and Wyoming regions that have not guaranteed the payment of the 10 per cent advance until April 1. The only district that has accepted the terms of the Scranton convention in full is No. 9, better known as the Schuylkill district."

"Companies which produce about 65 per cent of a total production of the anthracite coal fields have guaranteed the payment of the 10 per cent advance and have abolished the sliding scale."

When Mr. Mitchell was asked what he would do if all the companies were to post notices, he said:

"When all the companies have posted notices then I will have something to say."

When it was suggested to him that there might be a break in the ranks of the strikers if the contest was to continue much longer, he said that not one man would go back to the mine until they are officially notified to return.

Two Hundred Indians Starving.

Vancouver, B. C., Oct. 23.—A special from Agassiz, B. C., tonight says that 200 Indians are starving at Pemberton Meadows, 150 miles north of Agassiz. An Indian rider brought news today that 50 Indian families are dying and that it is doubtful if supplies can be sent to them quickly enough to save their lives. They have caught no salmon this season, their potato crop has failed and their stock has been drowned by floods. Recent heavy rains have caused the Harrison river to overflow its banks and the whole country is said to be flooded. Conditions are said to be worse now than during the disastrous floods of 1894, when the district was under six feet of water. Supplies are being rushed from Vancouver to the starving Indians.

French Immigrants Held.

New York, Oct. 23.—The entire list of storage passengers of the French liner La Bretagne, 716 in number, were held up on the registry floor of the large office today because it was claimed that a majority of the names were improperly manifested. No such hold-up of immigrants has occurred in years, if ever before. The emigrants would have been sent back to the ship had not the agent of the French line appeared in the afternoon and supplied a bond of \$5,000 as a guarantee that the fines for all emigrants improperly manifested will be paid.

Mexican Town Swept Away.

El Paso, Texas, Oct. 22.—The town of Gaudalope, Mexico, in the Rio Grande basin, 40 miles below El Paso, was swept away by a cloudburst Wednesday night. The 400 villagers lost everything they possessed. An old man and two children, besides many goats, cattle, horses and fowls were lost.

Opera House Burned.

Paduach, Ky., Oct. 23.—A fire broke out in Morton's opera house this morning at 1:20 o'clock and gained such headway before it was discovered that the building was doomed before the fire company could reach the scene. The largest dry goods store in the city, owned by L. B. Ogilvie & Company, occupying the ground floor of the building, was destroyed, as well as many offices and smaller stores. The aggregate loss is estimated at \$300,000.

POPULATION OF ARIZONA.

Census Figures Show Increase of 104 Per Cent in Ten Years.

Washington, Oct. 22.—The census bureau today made public the returns of the population for the territory of Arizona. The population of the territory in 1900 is 122,212, as compared with 59,620 in 1890. This shows an increase during the decade of 62,592 or 104.9 per cent. This large increase is due in part to the fact that there were 25,450 Indians and 154 other persons, or a total of 25,604 persons on Indian reservations, etc., in Arizona, who were enumerated in 1890 under the provisions of the census act, but who were not included in the general population of the territory in that census. The population of the territory in 1870 was 9,658, and during the 10 years from 1870 to 1880 it increased 80,782 or 318.7 per cent, giving a population in 1880 of 40,440. The population in 1890, as stated in the report for that census, was 59,620, representing an increase during the decade of 19,180, or 49.4 per cent.

The population of Arizona in 1900 is more than 12 times as large as the population given for 1870 in the first census taken after its organization as a territory in 1863.

The total land surface of Arizona is approximately 112,920 square miles, the average number of persons to the square mile at the census of 1890 and 1900 being as follows: 1890, .60; 1900, 1.

PHILIPPINE NAVAL STATION.

Subig Bay Is Not Considered a Suitable Place.

Washington, Oct. 22.—Reports which have reached the navy department are to the effect that Subig bay, in the Philippines, is not a suitable place for locating an extensive naval station, coaling station or navy yard, owing to the limited depth of the water. Naval opinion has been divided for some time as to the relative merits of Manila bay and Subig bay. The Spanish government spent large sums on Subig bay and it was thought to offer facilities superior to those of Manila bay. An inquiry as to the relative merits of this and several other bays was instituted some time ago and the reports forwarded through the commandant of the Asiatic station are not favorable to Subig bay, holding that it has disadvantages similar to those urged against Manila bay. Several other points are suggested as offering good sites for stations or yards, including Ilo Ilo and Olongapo. Naval Commander Hobson has taken a different view, however, and has presented a plan for an extensive naval establishment on Subig bay. In view of the differences of opinion it is probable that a naval board will be named to pass upon the several points and select the one most available for a station.

POLITICAL UPHEAVAL.

Caused by the Necessity for a Strong Foreign Policy.

Yokohama, Oct. 22.—The resignation of the Japanese cabinet and the probable coming into power of Marquis Ito is the theme of the hour. The change came as a surprise, although it was deemed inevitable in the not distant future. It was, doubtless, unwelcome to Marquis Ito himself, who has by no means yet got his new party in proper trim for harmonious and successful work. Although the latter is well organized, it is made up of many incongruous and warring elements, and early trouble is predicted for it, especially in view of a distribution of the offices before it is brought under any sort of discipline.

The ostensible cause of the sudden upheaval in politics here is doubtless the necessity which has arisen for a more decided and strenuous foreign policy in view of the situation in China. It is generally felt that Japan has thus far kept herself too much in the background in the negotiations progressing on the neighboring continent and that the time has come for her to assert herself, her geographical position, her eminent services in the recent rescue of the legations, and, above all, her superior knowledge of what can and ought to be done in China, all entitling her word and counsel to be held to be of greater weight than that of any other nation. Marquis Ito is the only man to whom the country can turn in this emergency, as has been the case for many years past whenever an important crisis had arisen. A significant feature of the present case is to be found in the fact that the Marquis is now credited with strong pro-Russian tendencies.

Verdict for Heavy Damages.

New York, Oct. 22.—Mrs. Elizabeth Rhoades has obtained a verdict in the supreme court for \$37,000, in the suit by her as administratrix of her husband, George B. Rhoades, against the Metropolitan Street Railway Company. This is the largest verdict rendered against a surface railroad in this city for many years. Mrs. Rhoades claimed \$50,000 damages. Her husband was, on July 10, 1899, run down by a car belonging to the defendant company, and died a few hours later. It is in connection with the death of Captain Rhoades that Police Commissioner Thomas E. O'Brien was sent to Sing Sing prison. He was convicted of stealing the captain's watch which had been taken from the injured man.

An Indiana Tragedy.

Columbus, Ind., Oct. 22.—At Waymansville, Ind., 15 miles south of here, Dr. Conda Beck, late this afternoon shot and killed William Barton, because Barton objected to Beck keeping company with his daughter. Two years ago Beck killed Miss Grace Cobbe, because she refused to marry him. Beck was acquitted of the crime. The tragedy caused a tremendous sensation. Beck at latest accounts was still at large.

VIEWED WITH FAVOR

Anglo-German Compact Satisfactory to United States.

NOTE OF APPROVAL WILL BE SENT

American Reply Will Accept the Principles of the Agreement—No Acknowledgment to the Alliance.

Washington, Oct. 24.—It was authoritatively stated tonight that the United States government views with distinct favor the principles of the Anglo-German agreement relating to China and that a formal response to that effect will be made at an early day to the invitation extended this government to accept the principles of the agreement. The German charge d'affaires, Count de Quadt, had a conference with Secretary Hay this afternoon, presenting officially the text of the Anglo-German agreement, including the invitation to the United States to accept the principles therein recorded. Mr. Hay expressed his satisfaction at what had been done, saying he felt it to be in complete harmony with the policy this government has pursued, both as to the maintenance of unobstructed commerce in China and the territorial integrity of the empire, and adding that a formal reply would be given in a day or two. Count de Quadt was gratified at these assurances and left with the belief that there was such a harmonious understanding on the general principles involved that the concurrence of the powers was near at hand.

Mr. Hay has been fully advised of the agreement and had gone over it with great care with the president yesterday and today. This was the more necessary owing to the president's departure for Canton tonight. The result of these deliberations is summed up in the statement that the government views the Anglo-German agreement with favor. It is also probable that some attention has been given to the draft of the American reply. It is likely to be more in the form of a note of approval rather than any formal adherence to the alliance, but this is said to be merely a matter of detail.

About the only serious question which has arisen as to the American reply is in clause three of the Anglo-German agreement. This states that in case of another power making use of the complications in China in order to obtain territorial advantages, Germany and Great Britain reserve the right to reach a preliminary understanding of the eventual step to be taken for the protection of their interests. This is open to the construction of being a threat. It is probable that the American reply will not go beyond accepting the principle that Germany and Great Britain have a right to agree between themselves as to their eventual course. But there is not likely to be anything which will commit this government to accept this eventual agreement. In short, the third clause is interpreted to apply only to Germany and Great Britain, there being no invitation extended to other powers to join them in a preliminary understanding regarding the eventual steps to be taken.

JOHN SHERMAN DEAD.

Passed Away at His Washington Home Yesterday.

Washington, Oct. 24.—
