

Wood River Glacier

FRIDAY, NOVEMBER 16, 1900.

The National Irrigation Congress which will meet at Chicago, Ill., Nov. 21, 22, 23 and 24 is creating wide interest and promises to be an unusual success. The national irrigation movement has become a broad popular movement and Eastern commercial interests have readily taken hold of the idea of reclaiming and populating the arid West and thus creating a great home market for their goods. The best authorities on irrigation and forestry have been secured to speak and give illustrated lectures, and men of national fame and renown as orators and statesmen, will address the congress at the great auditorium theatre on subjects of national interest to the West. Under the constitution of the congress the mayor of each city of 25,000 or less population is entitled to appoint two delegates. Each agricultural college, organized irrigation, agricultural and horticultural society, each society of engineers, irrigation company and each board of trade and chamber of commerce is also entitled to two delegates.

Portland is moving for a big exposition in 1902. Immigration is needed in Oregon and the whole Northwest, and nothing would advertise our resources to better advantage than a trans-Pacific exposition, conducted in a manner to bring visitors from all parts of the world. Portland, the chief city of the Northwest, is the place to hold such an exposition. If the citizens of Portland and of Oregon take hold of the matter in the right spirit, the state legislature and congress may be expected to do the rest towards raising the money to make a big exposition a success.

A good many voters at the late election marked their ballots on the right hand side with two X marks, one opposite the name of William McKinley, the other opposite Theodore Roosevelt, or the same mark was made before the names of William J. Bryan and Adlai Stevenson. These ballots were generally counted when the election board could readily see the choice of the voter, but they were counted for only two of the presidential electors, the two names on a line with the X. This may account for much of the discrepancy in the vote for presidential electors on the same ticket.

Farmers are making a success of growing peanuts in Yakima valley. It is claimed that with irrigation they can raise 80 bushels to the acre.

A Test of Strawberries.
At the Davidson Fruit Co's office, during the first of the week, was opened a can of the Oregon Ideal strawberries, sent from Salem by E. Hofer, editor of the Salem Journal. There were present Hon. E. L. Smith, Mayor C. C. Brosius, H. F. Davidson, A. F. Bostelman and the editor of the Glacier. A can of Clark strawberries put up by the Davidson Fruit Co. last spring was opened for comparison. It was found that the Oregon Ideal had a shade more color and seemed to be more solid than the Clark, but in flavor it was wanting. A test showed that the same amount of sugar had been used in putting up both cans, but the Oregon Ideal was much the sweeter. The can of Ideal was from a picked lot of which only twenty cans were put up. The can of Clark's opened was a random from a lot of three carloads canned last season for shipment to market. A can of Clark's of the crop of 1899 was then opened, the color of which was found to be nearer that of the Ideal than the first can opened. The Oregon Ideal is shaped something like the Wilson and grows about the same in size, we should judge from the samples shown, but is a solid berry and no doubt good for shipping and canning. It was the unanimous opinion of those present that the Clark, grown at Hood River, is still in the lead, but that the Oregon Ideal, if grown in our Hood River climate, might prove to be our good.

Mount Hood Notes.
The McKinley club and the Bryan club met on the field last Tuesday at S. M. Baldwin's to settle national disputes, and the Mrs. W. E. P. Bostelman and the H. F. Davidson, A. F. Bostelman and the editor of the Glacier. A can of Clark strawberries put up by the Davidson Fruit Co. last spring was opened for comparison. It was found that the Oregon Ideal had a shade more color and seemed to be more solid than the Clark, but in flavor it was wanting. A test showed that the same amount of sugar had been used in putting up both cans, but the Oregon Ideal was much the sweeter. The can of Ideal was from a picked lot of which only twenty cans were put up. The can of Clark's opened was a random from a lot of three carloads canned last season for shipment to market. A can of Clark's of the crop of 1899 was then opened, the color of which was found to be nearer that of the Ideal than the first can opened. The Oregon Ideal is shaped something like the Wilson and grows about the same in size, we should judge from the samples shown, but is a solid berry and no doubt good for shipping and canning. It was the unanimous opinion of those present that the Clark, grown at Hood River, is still in the lead, but that the Oregon Ideal, if grown in our Hood River climate, might prove to be our good.

Official Vote of Wasco County.
The president's proclamation designates Thursday, November 29th, as Thanksgiving day.
Experience is the best teacher. Use Ackerman's English Remedy in any case of colds, coughs or croup. Should it fail to give immediate relief, money refunded. 25c and 50c. Williams & Brosius.
Rev. Chris Nickelsen preached sermon in the M. E. church at the Dalles during the revival services last week. The Chronicle says: "Mr. Nickelsen's theme was the 'Curse of Merod,' and it was a remarkably able effort, commanding the earnest attention of his congregation from start to finish. Mr. Nickelsen is a rising young man who is justly esteemed one of the ablest preachers in the Dalles district."

Two old women from Missouri drove up to the toll gate of one of the bridges across the Missouri at Leavenworth and asked the man in charge how much the toll was. "Twenty-five cents for a man and horse," said the gate keeper. "Well, then get out of the way; we're two old women and a mare. Get up, Sadie!" And the man stood in open-mouthed wonder.

Scientific American.
A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$3 a year in advance. Single copies, 10c. Sent by mail. MUNN & CO., 361 Broadway, New York.

Poultry Notes.

Hood River, Ore., Nov. 13, 1900.—Editor Glacier: It is funny how some people look at things. Let some fake peddler start through the country with a pack of cheap jewelry, shoddy clothing, notions, etc., and he will sell at almost every farm house from one to two dollars worth of his stuff, sometimes more, any of which might be purchased of our stores in town for less money. The same amount of money invested in a clutch of pure bred eggs, instead of being a swindle as in the case of the peddler, would be the beginning of what would ultimately be one of the most profitable branches of the farm's production; yet I have been trying for the past two or three weeks to induce a few of our good ranchmen to agree to buy themselves to this extent for their own good. I have no ax to grind. There is nothing in it for me, except the satisfaction of seeing a high class poultry replace the poor, scaly legged, mealy, scrub, dung-hill fowls which are now too prevalent in the valley. I have recaptured the promise of some half dozen to go into and bring me a few of their best, and I am sure that will better the condition of our poultry status. Some few of our people are doing something already, having pure bred flocks, and these take the greater interest in the matter; but many or none at all. These are the ones that "poultry doesn't pay; the feed costs more than the poultry and eggs bring in." A man cannot expect to take a lot of half starved scrubs and for a house full of old rickety boards and a few chickens to make a business of it. The clouds banked above the horizon, and the birds like warblers sailing by. Friday, ninth, ten o'clock in the morning. My stander from Hartness Shoemaker. A small party of Hood River ladies, fourteen in number, no more.
Well filled baskets, with work and luncheon. Were stored away in the back. For an outing of profit and pleasure. Not a thing seemed to lack.
"What's up?" asked a gentleman passing; "The answer would have made him smile. "Only women, you know, are curious." The answer caused his retreat.
The U. B. aid, with some friends invited, were bound for the Woodworth farm. There is aught to the heart more enchanting than fields which e'er lends a charm.
As we wound up the hill to the southward. The spruce and fir have made their smiles; With a relief we lessened its bounty, "How beautiful and white gleams the mountain." "Just listen to that sweet bird."
"The Columbia looks like a mirror, Reflecting bright autumn tints;" "There's the boat, see the ripple its stirring, Alas! with the suns warm glints."
Arrived too soon at our destination, All received a welcome kiss and a friendly greeting. Our tongues were not idle, mind.
Creations of texture and gay fabric. Vests modeled into fashions. Either beautiful, useful or pretty, Dainty, substantial and warm.
At one o'clock came the call to dinner. The spruce and fir have made their smiles; With a relief we lessened its bounty, "Laughter and chatting the while."
Some said that if thirteen were the number. It table would not have made their smiles; While others declared it a "lucky" Number, for they had proven it.
The remainder of the day passed quickly; What our fingers fashioned and finished. Without a contest or jar.
And not a word of gossip or slander, Mites of evil, have made their smiles; But he scoffed and hoisted in statement, "And said, 'In the blood it ran.'"
Each one voted a thanks to the hostess. For the pleasure of the day.
We returned as the shadows of evening. Were creeping o'er hills away.
Those present, Mrs. Watt, Carns and Stewart, Henry, Baldwin, Nickelsen, Shaffer, Cook, Hartness, Willis and Erwin, Hanna, Childers and Newton.
ONE OF THE PARTY.

School Report.

Following is the report of school district No. 7 for the month ending Nov. 9, 1900:
Number of days taught, 20; number of days attendance, 933; number of pupils enrolled, 57.
The following pupils were neither tardy nor absent:
Lizzie Mohr, Rufus Ordway, Raymond Ordway, Carl Mohr, Leonard Mickelson, Julia Mickelson, Hugo Faesch, Roy Van Allen, Lena Van Allen, Alphonse Mohr, Heester Harbison, Gertrude Crosby, Marie Mohr, Nellie Wishart, George Winchell, Ruth Harbison, Edith Spratt, Ross Wishart, Daniel Frutkin, Edward Ward, Annie Mohr, Carrie Bostelman, Elmer Bostelman, Warren Wells, T. B. M. CHASTAIS, teacher.

Belgian Hares.

Belgian hares, habits and history, was the chief subject of discussion before the board of supervisors this morning, and the marvelous fecundity of the rabbits and their destructive qualities where gardens and orchards are concerned. The Belgian hare had struck southern California about a year ago. Los Angeles, as usual, being the chief storm center. Six months ago the furor was at its height, fancy imported hares being bought and sold in Los Angeles and Pasadena for as high as \$1,500 each. Soon word came that the hares were for sale at prices ranging from \$10 up. Then it dawned upon the rabbit fanciers that Belgian hares were great multipliers and that the market for rabbit meat was not unlimited.
Then came the crash of a bursted boom, and the whole business fell to the ground with a dull sickening thud. Now you can buy Belgian hares in Los Angeles for any old price, and if you don't want to pay anything you can have the hares for nothing. It is the same here in San Diego. Already many breeders are preparing to turn their rabbits loose on the country, and they cannot sell them at any price and the fear has become general that if this is done the country will be literally overrun within five years. It appears that the favorite food of the Belgian hare is the tender bark of young fruit trees, and if the hares are not exterminated the fruit trees will be—San Diego Sun.

A Republican Party.

Editor Glacier: A republican party and an oyster was given at the residence of Mr. and Mrs. Charles Chandler in honor of William McKinley and Teddy. The rooms were decorated with flags, bunting and pictures of McKinley and Roosevelt. Supper was served at 8 o'clock, and as the guests marched to the dining room all passed under the Liberty bell. The table was decorated with flags, and each gave the flag salute. The table was also decorated with yellow chrysanthemums, which meant the gold dollar. All had something to say about the election. Those present were Mr. and Mrs. Chandler, Mr. and Mrs. Ward and daughters, Mr. Sherwood, Mr. and Mrs. J. H. Shoemaker, Mrs. B. F. Shoemaker, Mr. and Mrs. H. H. Bailey, Ruby Chandler, Vernon Shoemaker, Glen Shoemaker, Fred Chandler, Mr. Chandler called on H. H. Bailey for a toast, and here it is:
"Mrs. Chandler from Old Kentucky; You bet she's all right. You ought to have her laugh and hook Who run all over the country shooting off his top gun, But McKinley beat him sixteen to one."
J. H. Shoemaker says, after a reign of ten years more of prosperity, he will furnish the oysters for all the republicans in the valley. Hurrah for J. H. Shoemaker!
Mrs. B.
