About this time of year in Hood River valley it is well to have a well filled wood shed, plenty of feed in the barn for stock and the stock all at home. New comers should be told that we sometimes have hard winters in Hood River. In 1884, after a long spell of fine weather like we have had during the past week, snowflakes commenced flying Saturday evening, Dec. 13th. They descended very gently at first and no one expected much of a storm. Next morning a regular blizzard was raging, and the cold was intense. It snowed for days and the beautiful laid five feet deep all over the valley. The storm was so fierce that farmers could not go out to break roads nor round up their stock. Feed had to be carried to the stock when found, and it being impossible to drive the stock home through five feet of snow, many horses and cattle perished. All supplies from the stores had to be carried home on snow shoes. A railway train below Viento was hemmed in by the snow for three weeks. Men were paid \$10 a day to carry provisions on snow shoes to the passengers. We may never see another such storm in Hood River, but it is always well to be prepared for winter in Hood River valley.

J. H. Middleton, owner of the lot on which the Glacier Pharmacy is located, is having the building erected over on the west line of the lot. The building will be greatly enlarged. Charles N. In 1884 he married Mary B. Mills, formerly of Olympia, who survives him. In the year 1886 he came to The Dalles and accepted the position of deputy county clerk under Geo. H. Supervisor Road District 35.
Mt. Hood, Nov. 7, 1900.—Editor Glacier: When Louis Burkhard left here he did not resign as supervisor nor notify the county judge of his intended absence, therefore the county judge appointed A. B. The first fatal case of scarlet fever, during the present epidemic, occurred at 3 o'clock this (Saturday) morning when Geneva Fritz, the 8 year old daughter of Mr. and Mrs. Louis Fritz, succumbed to it after an illness of about two weeks. She is said to have contracted the disease from a schoolmate who was allowed to attend school during the scaling off period. A younger child in the family is reported ill with the same disease.—Dalles Chronicle.

Obituary.

Tillie May Turner was born in Tillamook county, Oregon, June 27, 1882. In 1895 she moved with her parents to Washington county, near Forest Grove, where in February last she was taken with a severe attack of la grippe, which settled on her lungs, and medical aid seeming to fail, her physician advised a change of climate. Oct. 17th the family moved to Belmont, in Hood River valley, hoping the change would do her good, but disease had gotten too firm a hold upon her, and on Sunday morning, Nov. 4, 1900, at 2:30 o'clock, her spirit took its flight to the God who gave it.

When about 10 years of age she became a member of the Methodist church. She lived a consistent Christian life, and bore testimony to her faith in God. The night of her death, when asked if the Lord had accepted her, she answered unhesitatingly that he had.

The general services will be held from the Belmont M. E. church, Monday, at 2 p. m., conducted by the writer preaching from Job 16:22, after which the remains were laid away in the K. of P. cemetery, the grave being beautifully decorated with flowers brought by many kind friends.
