John Cradlebaugh was in town last Saturday, the same jolly, good-natured John Cradlebaugh who guided the destinies of the Glacier for the first five years of its existence. W. J. Baker shipped 50 boxes of Winter Hill pears to Dillon & Co., Seattle, in October. Last Saturday he received a statement and a check for \$1.20. They could not have exerted themselves much to wards selling the fruit when they failed to sell the 50 boxes of pears in two months.

The question is often asked, How much return in cash can be expected from an acre of strawberries in Hood River valley? P. D. Hinrichs, who is well known to be painstaking in everything he undertakes on the farm, tells us that his strawberry crop of about four acres returned him last season \$1,017. His cash expense for picking, packing and crates, was \$340. The work was all done by his own family except the picking and part of the packing. His total crop amounted to 577 crates. This gave him about \$150 an acre to pay for his own work and that of his children and team.

The school entertainment last Friday night was well attended and something over \$16 was received from sale of tickets. Principal Thompson stated that there are 224 children in the school library and since the beginning of the school year, 363 books have been taken out to be read by the students. The pupils taking part in the entertainment acquitted themselves well. Prof. Thompson drilled the five girls in "Turkies Turk," and Miss Snell drilled the "Ten Little Indian Boys." The affair was so successfully carried out that those who patronized it would be glad to have it repeated.

Workmen engaged in blasting off rock for straightening the railroad east of town and making fills, have unearthed a bed of stone coal on the land of C. Wells, one mile east of town. The big hill at mile post 67 shows outcroppings of coal in several places. If the deposit of coal proves to be extensive it will be a rich strike for the owner, Mr. Wells. Hood River's pioneer shoemaker, its accessibility will make it valuable. Railroads are often built to coal mines, but this mine, if it proves to be such, is located where the cars of a transcontinental railroad will pass its very door.

Mr. and Mrs. W. Haynes gave a progressive crokinole party to invited guests last Saturday evening. Those present were: Mr. and Mrs. Haynes, Mr. and Mrs. C. D. Thompson, Mr. and Mrs. F. B. Saari of Astoria, and the Misses Blowers and Sturgis. Refreshments were served, after which Chas. N. Clarke and J. R. Nickelson favored the party with several vocal selections.

The cake walk to be given Friday evening, Dec. 21st, at the armory, promises to be something enjoyable. The Tennessee Specialty Company will arrive from Portland today, Thursday. Mr. and Mrs. Trice, our colored population, who are conducting a restaurant, are giving the entertainment, and they promise that everything will go off in good shape and that they will give a show that will be in every way respectable and a credit to the company.

For the benefit of members who were absent from our last meeting and any one who wishes to become a member of our club we wish to say, our regular meetings will be held on the second Saturday in each month at 2 o'clock p. m. Place of meeting has not been arranged for, is in the hands of the executive committee and will be published in the Glacier as soon as decided upon.

D. N. RYKLES, Sec'y.

An Appeal to the Citizens of Hood River.

The Brotherhood of Andrew and Philip now numbers about thirty-five members. In business session they took action in regard to the erection of a two-story frame building 40 x 60 feet. In fifteen minutes the young men pledged enough work to put up the building if the material is secured from those who are interested in the welfare of young men. The building will be used for a reading room and gymnasium, with equipment; and while under the management of the Brotherhood of Andrew and Philip, it will not be sectarian, but open to all. The young women will organize this week and at certain hours the gymnasium will be open to them. The young people now appeal to those who are able, to assist in raising \$1500 for the above purpose. The plan will not be undertaken unless at least \$1000 is secured. Large subscriptions have already been given and the gymnasium has been reading room seems to be an assured success.
