of apples for his neighbors during the \$600.
past fall and winter. When be came to The past fall and winter. When he came to the valley he knew scarcely anything about apples, didn't know but two vario'clock. All the members are requested ties of apples, and today he is an expert packer of apples.

G. R. Castner this winter sold from his six-acre orchard, set in the spring of 1894, \$250 worth of apples. The trees commenced hearing in 1898. The varieties are: 350 Yellow Newtown, 50 Ben Davis, and 50 Spitzenburg. Research were exclusive of hores. ceipts were exclusive of boxes.

the council will have to hunt other quarters in which to hold meetings. Mr. Prather has given notice that A prospector from the Washington side of the Columbia was in town Wednesday with specimens of side. Prather has allowed the council meetings in his office for the reason that there was no other place to meet, but he needed the room himself and now feels that his good nature has been imposed upon long enough and will ask that other quarters be provided.

Ernest Jensen has rented Capt Fergu-son's house next door to the Hood River Pharmacy and will open a confectionery store. Mr Jensen is an old fireman, and recognizing the want of fire protection for Hood River, is trying to organ-ize a fire company. He thinks fire plugs put in the present two luch mains with Jimmie put in the present two inch mains with regulation fire hose, would give good fire protection to the business part of town.

Jimmie Debord is back again in Heod River and has accepted a situation in the tonsorial parlors of Grant Evans. We need fire protection more than any

up the valley Sunday. Found the roads in a frightful condition from the state road nearly all the way to Harbison's mill via Tucker. Above Harbison's the roads were in the state road roads were in the state road roads were in the state roads were in the state road roads were in the state roads were reads w roads were in a fairly good condition perhaps from a lack of travel during the juicy weather we have experienced lately.

A. O. U. W. hall Saturday evening. The grain fields look fine, are bright bills. and green, the chipmunks and spring seem to be here to stay. The one thing that most surprised the Glacier's County commissione. satanic representative was the number of yearling calves in the different fields along the way. About 40 were counted between Harbison's and Tucker's and yet others this side. In some fields as many as 12 and 15 were counted. This means money for our ranchers

in a year or two. It looks now as if Hood River will be month to commence laying 6-inch mains from their big spring to supply the town with water for family use and irrigation and to give better protection against fire, but since another company has organized and asked the privilege of laying mains, the principal owners in the Springwater Co. feel disposed to wait and see what the other company will dobefore they expend what will be necessary to make the additions to their plant that will be required to give the town the water needed. It is estimated that to lay the 6-inch mains and make the improvements contemplated will require an outlay of about \$5,000. The members of the company feel that they can not afford to make this outlay without some assurance that they will receives the company feel that they can not afford to make this outlay without some assurance that they will receives the company feel that they will receive the company feel that they can not afford to make this outlay without some assurance that they will receives the company feel that they will receive the company feel that they can not afford to make this outlay without some assurance that they will receive the company feel that they can be companied and interesting paper companied and interesting the mountaint the feel incubator and brooder with the h some assurance that they will receive patronage enough to at west pay interest on the investment of the additional exp-ital. With the plant just as it is the old company can furnish water through-out the year for family use, but not enough for irrigation and fire protection. System is overloaded with impurities of the care office.
