### INTERVIEW WITH KRUGER.

Opinion of Transvaal ex-President on the Situation. NEW YORK, April 8.—A disputch to the Herald from Paris says:

An interview with Mr. Kruger appears in the Matin. The ex-president of the Transvaal was seen in a mod est little inn at Utrecht, where he is staying for the moment. His eyes DF INTEREST TO OUR MANY READERS have been very much improved by recent operations, and he can now dispense with spectacles. Sitting in front of a table with a Bible under his left hand, Mr. Kruger delivered himself of an important statement, to which further significance was given by the presence of the Orange Free State delegate, Herr Fischer. Mr. Kruger began by announcing that Saturday next he proposes retiring into the country for complete rest. The little village of Hilbersum, not far from Utrecht, has been selected for his abode. Nothing has yet been decided regarding his trip to

America. Mr. Kruger will undertake journey if his strength permits and if there is any hope of gaining advantage for the Boer cause. Pointing to Herr Fischer, the aged president declared that the two republics are indissolubly united. "Herr Fischer," he said, "is fighting for the same cause as my heroic

friend President Steyn. The two presidents and the two commanding generals, Botha and Dewet, will share the same fate." On being questioned regarding the reliance he placed on the Boer of-

parliament, Mr. Kruger, half rising from his arm chair, declared; "The British government, British telegraph and the British press always try to make this much"-and he measured his little finger-"look like

this much"-and he extended both enemies continue to dissimulate and travesty facts. As regards General Botha's negotiations, the public knows from the blue book and by reading General Botha's last dispatch that it was the British general who first made proposals. Never did the Boer general refuse to listen. We do not fight, except for peace. We are not conuerors, but, although General Botha on the subject of independence.
