Ladies, bring your boxes and try for a prize, and in that way help a good cause and at the same time have a pleasant evening. The Juniors are doing a good work this year. They have bought and presented to the Belmont church a handsome pulpit bible and have p id for having the church windows frosted. There is other work they have undertaken and hope to accomplish before the conference year is ended.

Hon. E. L. Smith last week received his spraying outfit ordered from Rockport, N. Y. It is the completest thing of the kind ever seen in Hood River, if not in Oregon. It is the Orchard Monarch; weight 1,400 pounds. Power to run the pump is generated by the turning of the wheels as the machine is driven along. A gauge shows when the reservoir of the force pump is full and the pressure can be thrown off. One man could operate it. All he has to do is to hold the nozzle and guide the spray and the machine does the rest. It is mounted on wheels, all running gear complete. It throws a fine spray, sufficient to cover a large apple tree. The price of the machine was $120, and the freight cost $11.80.

J. W. V. Claterbos of White Salmon was in town Saturday. Mr. Claterbos, while a student in college at Kampen, Holland, in the '80s, met Oom Paul. The president of the Dutch African republic visited Kampen, and the citizens gave him a big reception. Exercises with an extensive programme were held in a public hall, and there was a banquet at which wine flowed freely. Oom Paul refused to drink anything but water. Next day some one sent him a barrel of water. Mrs. Claterbos has cousins in the Boer army. Their families are within the British lines. They write that they have to live on very short rations.

Much complaint is being made by residents living in the neighborhood of the public school about children writing on the fences. There is nothing smart about this kind of work, but the guilty ones are taking chances of being punished by the law. There is a heavy fine for disfiguring property belonging to others.

A lady resident of Hood River lost her pocket book containing a large sum of money. Of course she called at the Glacier office to advertise it. Upon her return home she found the purse right where it had been put, in a safe place. All of which shows that it pays to advertise in the Glacier.

Hood River Zouaves.

It is not generally known that Hood River has a company of young soldiers drilling one night a week in the armory. Maj. J. S. Booth has organized a company of young lady zouaves, and they drill Tuesday evenings. A Glacier reporter witnessed the sword exercise and evolutions in military tactics by the company Tuesday evening. About 20 healthy-looking Hood River girls were being instructed by their captain. Maj. Booth is an excellent drill master and exhibited much patience with his awkward squad. The company organized only about a month ago but already show their training in the sword exercise and in marching. They are armed with wooden swords. The girls will make a good showing in the parade in Portland that will take place when President McKinley visits that city, May 23d. They ought to be given the post of honor to act as the president's body guard.
