MINERAL OIL EXPORTS.

NO. 2.

New Oil Discoveries Will Keep It Ahead of Russia in Amount Produced.

Washington, May 29 .- The recent bil discoveries in Texas and on the Pacific coast lend especial interest tosome facts just presented by the treasary bureau of statistics regarding the exports of mineral oils from the United States. These show that the exportation of the fiscal year about to and will probably be the largest in the history of this remarkable industry, which has increased its exports from

friends, surgeons administering tem- Richland mine of the Dayton Coal 1900. In the quarter century from 1876 to 1900 the value of mineral oils about \$48,00,000 a year. During resulted in the death of 21 men, all cent years it has averaged about \$60,-The scene of the accident was at a white, and most of them marired 000,000 per annum or \$5,000,000 per

In the mere question of gallons of States, though it is probable that the unie of fine particles of coal dust, illuminating oil from a given quantity of crude as from the Russian oil. lated at the roof of the mine. This adds greatly to its value as a commer-

One especially interesting featone of the rooms for a blast, and the ure of the development of the oil inminers started for the mouth of the dustry is, that there has been a remine. The blast did not explode, as markable decrease in the price to the intended, but instead a long flame consumer during the period in which shot out of the blast hole and ignited the actual exportations and the net the accumulation of dust. Instantly value of the exports have been ina terrific explosion occurred, and a creasing. The average value of the secthing mass of flames shot to the illuminating oil exported in 1876 was mouth of the mine and extended 300 about 15 cents per gallon, and in feet into the air, scorching the leaves 1877, an exceptional year, 20 cents per gallon. By 1881 the price had fallen to about 10 cents per gallon, 000,000 gallons, valued at \$34,000,-000. By 1891 the average price was By 1898 coal and slate to cave in from the to 5 cents per gallon, the quantity roof of the mine, and many of the exported having been 824,000,000 gallons, and the value reported to the Word quickly reached Dayton and bureau of statistics by exporters rescue forces were at once organized through the customs collectors, \$42.
