## NORDSTROM WAS HANGED.

Condemned Man Completely Calm and Was Strapped to a Board.

Seattle, Aug. 24.—Charles W. Nordstrom was hanged yesterday morning at 9:49 o'clock for the murder, on November 27, 1891, of William Mason. From early morning the condemned man had seemed to fully realize his position, and while ministers and members of the Salvation Army prayed with him, he cried continually. Shortly after 9:30 Nordstrom was brought from the room in which he had been, just adjoining the execution room. It required the assistance of four men to keep him on his feet. When he was taken into the presence of the scaffold, he broke down completely. Crying in a childish voice and praying that his life be spared him, he collapsed entirely and fell to the floor. Efforts to raise him and keep him on his feet were fruitless, and at last Sheriff Cuddehe ordered that a board be brought. To this Nordstrom was tied. It required four men to hold him while this was being done. While being tied to the board, Nordstrom continued to cry in a loud voice. The six men who had held him raised his body on to the board, and with great effort, succeeded in getting him on the gallows and onto the fatal trap. Here he was stood upright, four of the men standing on the four sides of the trap and holding him. Within two seconds after the condemned man was in place the trap was sprung and Nordstrom had paid the penalty of his crime. The trap was sprung at 9:49, and Nordstrom was pronounced dead at 10:02.

The Florence salmon cannery will start up next week.  
Prunes are beginning to move in earnest at The Dalles.

The Jacksonville public schools will open September 2.  
A race meeting will probably be held in Pendleton this fall.

The Klamath county wheat crop will not be as large as it was last year.  
Hopgrowers at Woodburn complain of a scarcity of help to harvest the crop.

The wheat crop of Jackson county is turning out much better than expected.  
The Sherman county Horse Fair Association will hold a fair at Wasco some time this fall to encourage the breeding of good horses of all kinds.

The first crop of alfalfa in Klamath has been cut and cured for. The second crop, which will be cut next month, promises to be much larger than the first.

The following schools in Polk county are without teachers, and in each case a good one is wanted: Concord, Lincoln, Bridgeport, and the primary department at Falls City.

The apple crop of the Rogue River valley promises to be a great income-producer during the present year. Not only is the yield a full one, but the quality is finer than usual.

From several sources comes the report that Bartlett pears will be scarce this fall. In many orchards the trees did not bear at all, while in others the trees seem to be drying up.

Owing to the delay in the receipt of the new text books, it has been decided by the board of directors of the Ashland public schools to postpone the opening of the fall term one week, or until September 9.

It is expected that the Southern Oregon district will ship 275 car loads of apples during the present crop year, and the fruit will all be first class. The unusual demand for Oregon apples is created by the partial failure of the crop in the middle states and by the long season of drought in Missouri.

There is every prospect of a fair yield of hops in Polk county.  
The Ager-Klamath Falls stage was held up and robbed of the treasure box.

The postoffice at Ruby, Douglas county, will be discontinued on August 31.  
The log raft is still stuck at the entrance to the Westport slough, near Astoria.

Eugene has not had such a building boom in years as is at present being experienced.  
The Polk county grain crop this year will be the largest harvested in several years.

The committees in charge of the Baker City street carnival, to be held September 3-7, report excellent success.

## TO PREVENT SMUGGLING.

Chinese Bound for Other Countries Will Not Be Allowed to Land.

Washington, Aug. 24.—The determination of the treasury department to take advantage of the authority given by the Chinese exclusion act to regulate the transit through the United States of Chinese emigrants bound for other countries was today officially brought to the attention of the Chinese legation. The occasion presented itself when an attaché of the legation called upon Assistant Secretary Taylor to lay before him a message received from the Chinese consul at San Francisco, conveying the information that Chinese destined for Mexico had been refused the privilege of landing at that port.

Mr. Taylor told the attaché that the department had become convinced that most of the Chinese who had gone into Mexico in the past two or three years had smuggled themselves back across the border into the United States. He therefore announced that hereafter the department would refuse landing permission to Chinese bound for Mexico unless it could be absolutely satisfied of their good faith.

## Fast Train Wrecked.

Jacksonville, Ill., Aug. 22.—The fast Kansas City passenger train on the Alton road was wrecked at midnight at Prentice, a siding eight miles north of here, by running into a freight.

New Venezuelan Revolution.  
New York, Aug. 26.—The Willemstad, Curaçao, correspondent of the Herald says: There is excellent authority for the statement that a new Venezuelan revolution, lead by Liberals, is being arranged. The leader of this revolution is now in New York. The political situation in Venezuela is more than serious. No one is allowed to leave the country without special permission. At the Eimon river, where an American company employs 300 men, one morning only 15 were found on the premises.

The Gift of Chile.  
New York, Aug. 24.—The Chilean training ship *General Bageduino*, with a number of cadets recently graduated from the naval academy at Valparaiso, is expected to arrive in New York within a few days. The cadets will visit Annapolis. They are bringing with them a bronze tablet, the gift of Chile, to be placed on the Washington monument.

## FLOODS IN PENNSYLVANIA.

Four Fatalities and Great Loss of Property Reported.

Philadelphia, Aug. 27.—Reports received in this city tonight state that the heavy rains which have fallen during the past week throughout the state have resulted in the most disastrous floods experienced in many years.

At Mauch Chunk the storm was attended by four fatalities. The Mauch Chunk creek is 15 feet above its normal mark, and the towns in Carbon county along its course have suffered much damage. Bridges, culverts and arches are destroyed, and the loss to the borough and to the property holders will be many thousands of dollars. Business is at a standstill.

At Wilkesbarre a landslide occurred along the Lehigh Valley Railroad. A washout on the Sunbury branch of the Pennsylvania Railroad delayed traffic several hours. At Shamokin, Tamaqua, Pittston and several other mining towns, many houses have been flooded and work has been suspended.

At Tamaqua the rain fell in torrents from 3 o'clock this morning until 3 o'clock this afternoon. The lines of the Central Railroad of New Jersey, between Tamaqua and Mauch Chunk and the Pittsville branch of the Philadelphia & Reading road are tied up, owing to washouts. The Schuylkill river and Panther and Wabash creeks at this point are overflowing their banks, and many bridges have been washed away. All the collieries in the Panther creek valley are flooded. Crops in the Catawasa valley are practically ruined.

## Trade With the Philippines.

Washington, Aug. 27.—A continued increase in both the export and import trade of the Philippines is shown in a comparative statement compiled at the war department, giving the commerce of the islands for the seven months ending January 31, 1901, and 1900. The total value of merchandise imported during the seven months ended January 31, 1901, was \$17,999,167, as against \$12,674,705 for the same period in 1900, and the merchandise exported was \$12,617,359, as against \$8,305,530 for the 1900 period. This shows an increase of 42 per cent in the value of imports and 52 per cent in export values.

## Gold Ore From Chile.

Omaha, Aug. 27.—Notice has been received at the local office of the American Smelting and Refining Company of a shipment of gold ore from Chile. It is the first shipment of South American ore to this smelting company's plant, and is in the nature of an experiment. The ore is said to be very rich, and if its treatment proves successful, the shipment will be followed by others on a large scale.

There are 649 1-3 millions of men and 633 2-3 millions of women in this world, giving the men a majority of 15 1-3 millions.

For the first time during his pontificate of 23 years Pope Leo recently entertained eight guests at luncheon in the Vatican.

George W. Ranck, one of the best known literary men of Kentucky, was struck and killed by a Louisville & Nashville train at Lexington.

## BORDER SMUGGLING PLOT.

Gigantic Frauds Unearthed in Arizona—Many Customs Officers Arrested.

Washington, Aug. 27.—Probably the most important arrests ever made in connection with the smuggling of Chinese across the Mexican border into the United States were made yesterday in Arizona, when William A. Hoey, collector of customs at Nogales; B. F. Jossey, an immigrant inspector, and two Chinese were taken into custody by special agents of the treasury and secret service operatives. Other arrests are expected to follow within a day or two. It is said that with two or three exceptions, the whole customs and immigration administrations at Nogales are involved.

Some time ago an official of the treasury department, having Nogales as his headquarters, wrote to the department that he had reason to believe that the official force at that point was corrupt, and that Chinese, in large numbers, were being smuggled across the border for a consideration.

A secret service operative was sent there at once, and plans laid to secure evidence against the persons under suspicion.

Several Chinamen were furnished with money and sent on to buy their way through the official cordon. This was accomplished without difficulty, the price demanded being from \$50 to \$200. The secret service men also arranged with one or two employes, whose honesty had been tested, to go into the collector's office at a certain time and demand a share of the money being received from the Chinamen, and to be admitted into the combination so that they might get their share of the proceeds of future deals.

This was reluctantly agreed to, and considerable sums of money were handed over in the presence and full hearing of a secret service man who had previously secreted himself in a near by office closet.

The officials soon found that Chinamen who presented a certificate marked with the letter "a" were allowed to proceed without question, while those having certificates that did not bear this cabalistic mark were turned back without ceremony.

Later it was developed that the letter "a" on a certificate indicated that the amount demanded had been paid. Several Chinamen were sent through with the requisite "a" mark on their certificates made by one of the secret service men. The utmost care and secrecy was maintained from the first to secure positive proof against each man under suspicion.

The number of Chinamen who have bought their way into the United States through the alleged connivance of the Nogales officials is believed to have been large.

## Found Gold in Town.

Baker City, Or., Aug. 28.—Reports have been received here of a great strike in Whitney that has set that town agog. While excavating for the new city scales this morning the men struck a rich ledge of free gold ore that will run \$500 to the ton. The find aroused great excitement in the town, and people who own town lots are prospecting for ore. What will be done with the property on which the gold was found is not known, but it is reported that the owners proposed to do development work.

## Town Struck by a Tornado.

Centralia, Ill., Aug. 28.—A tornado and cloudburst did thousands of dollars' worth of damage in Centralia last night. The Negro Baptist church was wrecked and peach orchards destroyed. In the city the telephone and electric light systems were seriously damaged, and the streets were blocked by hundreds of falling trees. Many residences were damaged by falling trees. The rainfall was 1 1/2 inches.

## Decline in Indian Famine Relief List.

London, Aug. 28.—The Indian office has received the following dispatch from Lord Curzon, viceroy of India: "The rains are irregularly distributed. They are particularly deficient in the rice districts, while excessive rains have caused damage to crops in the northern and central provinces. Famines are generally falling. There is a slight decline in the number of persons on the famine relief list, the total now being 507,000."

## SUGAR BEET YIELD

### SOUTHEASTERN WASHINGTON IS EXPECTING BIG CROP.

Said to be More Profitable Than Wheat Raising—New Enterprise is Growing Rapidly—It Well Adapted to the Soil and Climate, and Avoids the Waste Incident to Summer Fallowing.

Waverly, Wash., Aug. 28.—Sugar beets in this district will have, from present indications, a crop nearly three times as large as that of last year. The harvest will probably yield about 16,000 tons of beets and about 2,400 tons of sugar. Last year's production amounted to about 6,000 tons. The land this year devoted to sugar beets aggregates about 1,800 acres, 600 acres more than it did last season. The crop per acre will be about 9 or 10 tons.

The beets are doing well, but are in need of rain. A light rainfall would be very welcome to farmers, for unless in excess, it would not interfere with grain harvest, would lay the heavy dust in the roads and would clarify and cool the atmosphere, besides aiding beets and other kinds of vegetation. Farmers in this district are accustomed to rely on an August rainfall, especially those who cultivate beets, but no rain has fallen this month, except perhaps a local shower here and there. A large acreage is given to cabbages, onions and fruits, which would be benefited by moisture.

This year's progress in the sugar beet industry shows that the enterprise is well adapted to this part of the state, and that it was wisely conceived. The present is the third season of work with sugar beets. In the first year little was accomplished, for the industry was such an innovation that it did not catch at once. In the succeeding year a good gain was made and the practicability of the work demonstrated. What has been achieved so far this year may be taken as a true criterion for the future of the industry when the enterprise shall be fully established.

Farmers have discovered that there is much to learn in the culture of sugar beets. It has been necessary to modify the methods pursued in Europe and California to Eastern Oregon conditions of soil and climate. The practice of growing beets on high ridges shows itself not to be a good one, because of scarcity of moisture. The fact that no artificial fertilizing is done, or comparatively little, has made it necessary to alter approved methods of planting. Elsewhere beets yield the highest percentage of sugar when set eight or 10 inches apart. When further than this the beets overgrow and lose the proportion of saccharine matter that is in the smaller size. But in this district, experiment has demonstrated that best results are attained when the plants are from 18 to 24 inches apart. They may thrive more vigorously when still further apart, but this is yet to be proved. When the increased space is between the plants it is much easier to cultivate them and weeds, which are the bane of successful beet growing, are more readily eradicated. Besides, the moisture of the soil is more economically husbanded.

## FACING STARVATION.

Terrible Situation in Zapata County, Texas—Range Water Has Failed.

San Antonio, Tex., Aug. 27.—Reports from Zapata county confirm the reports that the poorer class there are facing starvation. They must have immediate help in the way of food or the results will be terrible. Range water has failed, and cattle are too weak
