EVENTS OF THE DAY

FROM THE FOUR QUARTERS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week, Presented in a Condensed Form, Which is Most Likely to Prove of Interest to Our Many Readers.

The coronation festivities in London are in full swing.

Ten persons were hurt in a collision of two trolley cars in a suburb of Chicago.

The president has vetoed another bill removing the charge of desertion from the record of a soldier.

An attempt was made to hold a conference on the canal bill, but the senate conferees did not appear.

Lord Kitchener has completed his work in South Africa and has sailed from Cape Town for England.

The bill for the amendment of the bankruptcy law, which has been passed by the house, has been shelved by the senate.

Rear Admiral Clarke says he has no intention of retiring in the near future. He expects to command a squadron for some time.

Admiral Dewey will tell the senate just what transpired between him and the Filipino leaders at the outbreak of the Spanish-American war.

Our exports to Africa are greater than those to all South America.

After six weeks, the strike in the anthracite coal fields shows no signs of an early settlement.

President Mitchell, of the Mine-workers' Union, is preparing a statement for the public.

The Fresno, Cal., roundhouse of the Southern Pacific burned, together with 12 locomotives. The loss is estimated to be nearly \$200,000.

Three trains were killed and seven seriously injured in a freight wreck near Fairbury, Neb. Three of the train crew were slightly injured.

The strike situation in the Union Pacific machine shops is becoming peaceful and yet one-third of the enormous cost of war paid by all the nations has fallen on her.

The disbursements by the United States treasury on account of the Civil War from July 1, 1861, to June 30, 1870, amounted to \$6,187,248,385.

Thomas E. Wilson, in the Review of the Republic, estimates that the additional Civil War disbursements for debt, interest and pensions from July 1, 1861, to July 1, 1900, amounted to \$3,904,888,715, making a total Federal expenditure of \$10,092,137,100.

The disbursements of the Confederate government exceeded \$3,000,000,000 for the mere maintenance of armies in the field.

Mr. Wilson estimates that the governmental expenditures of both sides in the Civil War will, when the books are closed, amount to \$17,720,000,000, and that the individual losses during the war amounted to \$30,000,000,000.

Placing the cash expenditures of the United States in the Civil War at \$17,720,000,000 and in the Spanish war at \$500,000,000 and in the war of 1812, the Mexican war and the Indian wars at \$500,000,000, Mr. Wilson makes the total contribution of the United States treasury to the war fund for the century \$18,720,000,000.

It is estimated that Napoleon's war from 1793 to 1815 cost \$2,250,000,000; the war between Russia and Turkey in 1828, \$100,000,000; the war between Spain and Portugal, from 1830 to 1840, \$250,000,000; the war between France and Algeria, from 1830 to 1847, \$100,000,000; the Crimean war, \$1,125,000,000; the war in 1850 between France and Austria, \$225,000,000; the war of 1860, between Prussia and Austria, \$100,000,000; the war between Germany and France in 1870 and 1871, \$1,250,000,000; the war of 1877, between Russia and Turkey, \$500,000,000; the war between France and Mexico in 1857, \$750,000,000; between Brazil and Paraguay, in 1864 to 1870, \$250,000,000.

These figures are from the Mutual and include only direct government expenses. It is estimated that the minor wars of Great Britain in India, Egypt and Africa have cost \$2,000,000,000. The Boer war has already cost England \$500,000,000. France's minor wars have cost \$1,000,000,000, and Spain has spent in various wars \$3,000,000,000.

On these statements presented by Wilson and Mithall, manifestly incomplete and unfair, the United States Civil War cost more by \$7,000,000,000 than ten European wars, and the wars of the South American republics have cost more than all the Russian wars in Asia. The total expenditures of civilized nations for war in the century are put at \$49,008,000,000.

COMPLAIN OF YOUR WINDOW.
Concerning the fog that is told that a man who took but little interest in his wife's exploits with the clubs, was accused from the fog of his business by bearing her name continually coupled with a certain colonel. She was always playing with the colonel, who did not seem a very polite person, for he never allowed her to beat him. Still, the husband did not like this constant association. He began to be alarmed with the idea that the colonel's attractions might be an irresistible force in his play. He plunged into the fray, and taxed his wife with the colonel. She denied indignantly, with tears. They tumbled about in a web of angry words till at last light dawned on her, and she burst out laughing. Then she explained as well as she could to her amazed spouse—that golf readers have already divine that the colonel was "Colonel Bogey"; and that playing against "the colonel" means trying to equal the record!

ELECTRIC SHOCKING OF MEN AND HORSES.
A writer states that the difference in susceptibility to electric shock between horses and men is largely a question of shoes. The sole of a man's shoe has a very high resistance, but a horse, with his four iron shoes fastened on with iron nails, is apt to get the full benefit of the current.

ATTACKED BY BOLOMEN.

Moros of Mindanao Are Up to More Mischief—Two Soldiers Seriously Hurt.

Manila, June 26.—Five soldiers of the Twenty seventh Infantry, forming the advance guard which was escorting a cargo train half a mile from Camp Virata, Island of Mindanao, were attacked today by 10 bolomen. One soldier had an arm badly cut, and another was seriously wounded in the head. The Moros captured a rifle and escaped uninjured. The Badingian Moros say the attackers were Moros from the island of Mindanao, who were on the march for the purpose of killing the American soldiers. The first and second squad brigades have been consolidated.

Lieutenant Colonel Frank D. Baldwin, from the Island of Mindanao, reports that the Moros have held a big conference at Bacool. The Sultan urged a policy of friendship with the Americans, but two of the dattos said they would die first. Others declared that if it were two dattos caused war they would not assist them.

These towns in the western part of the island are inclined to be unfriendly. Colonel Baldwin hopes to win them over to peace.

WO. L. SELL PHILIPPINES.
General Burt Suggests Turning Them Over to the Japanese.

San Francisco, June 26.—General A. S. Burt, retired, who has recently returned from the Philippines, has a plan for the solution of the Philippine problem. He believes he has arrived at a conclusion that will ultimately be accepted by the administration and the public at large as the only solution.

"Turn them over to the Japanese," said the general. "Let them have them on the installment plan for the consideration of, say, \$150,000,000. Our government does not need the money in a lump sum, and by making a loan of that kind we can dictate as to coal mining stations and make such reserves as are thought to be best for trade interests. An arrangement of that kind can be effected that will give the United States as broad a road into the markets of the Orient as if we retained the islands; besides, we will be making a strong ally of two nations that will represent our interests on that side of the globe without the necessity of the presence of a large army at an enormous expense."

The Fresno, Cal., roundhouse of the Southern Pacific burned, together with 12 locomotives. The loss is estimated to be nearly \$200,000.

Three trains were killed and seven seriously injured in a freight wreck near Fairbury, Neb. Three of the train crew were slightly injured.

The strike situation in the Union Pacific machine shops is becoming peaceful and yet one-third of the enormous cost of war paid by all the nations has fallen on her.

The disbursements by the United States treasury on account of the Civil War from July 1, 1861, to June 30, 1870, amounted to \$6,187,248,385.
