## ANTHRACITE COMBINATION.

### PRESIDENT ROOSEVELT WANTS TO KNOW IF IT IS A TRUST.

New York, July 2.—President Roosevelt has requested Attorney General Knox to submit an opinion, says a Washington dispatch to the World, as to whether the combination controlling the anthracite coal output constitutes a trust within the meaning of the Sherman anti-trust act and the decision of the United States supreme court thereon or does not constitute a trust. His report recently prepared by Carroll D. Wright, commissioner of labor, after a careful investigation of the differences existing between the coal operators and the miners, the facts forwarded by President Mitchell, of the United Mine workers of America and all other data in his possession bearing on the subject.

It will be the duty of Attorney General Knox to formulate an opinion for the president, making a definite declaration that the anthracite combination does or does not constitute a trust. His present instructions did not require him to go further and express an opinion as to the probability of successful prosecution under the Sherman anti-trust act.

The president will, it is believed, determine on his subsequent line of action after Attorney General Knox has rendered his opinion.

## TREATY OF ALLIANCE.

### RENEWAL OF THE DREIBUND BY THE THREE POWERS IN ITS ORIGINAL FORM.

Berlin, July 2.—The treaty providing for the prolongation of the alliance between Germany, Austria-Hungary and Italy, the Dreibrund, has been signed in Berlin by the imperial chancellor, Count von Bulow; the Austrian ambassador, L. von Szogyeny-Marich, and the Italian ambassador, Count Lamsa di Busca. The alliance was renewed in its original form. Upon the request of the imperial chancellor, the text of the new Dreibrund treaty will be kept secret for the present, and it is not certain whether its publication will occur later.

The announcement of the signing of the Dreibrund did not cause surprise, as the renewal had been taken as a foregone conclusion since Count von Bulow was in conference with the Italian and Austrian ministers during the Easter holiday. German officials have never evinced the slightest concern as to the many reports emanating from Paris and other diplomatic centers regarding the prospects of a renewal of the Dreibrund to be gloomy, and they knew all along that Italy's flirtation with France was not intended to be disloyalty to her Teutonic allies.

## WAS NOT ACQUIRED.

### COURT MARTIAL FOUND GENERAL JACOB H. SMITH GUILTY OF VIOLATING RULES OF WAR.

Washington, July 2.—It is announced by the war department that the case of General Jacob H. Smith will not be acted upon before the end of the present week, at the earliest. Judge Advocate General Davis, has completed his review of the proceedings of the court martial and the papers are now in the hands of Secretary Root, who is so busy with other matters that he has not yet had time to give the case the attention it deserves.

It has been generally understood that General Smith was acquitted by the court, but it transpires that such was not the case, the court, it is alleged, having found General Smith guilty of violating the rules of war and sentencing him to be reprimanded by the reviewing authority, which, in this case, is President Roosevelt. Inasmuch as the case is considered strictly confidential until finally acted upon by the president, it is impossible to obtain any official information in regard to it.

## SOUTH AFRICAN TRADE.

### TWO NEW STEAMSHIP COMPANIES START A SERVICE FROM NEW YORK.

New York, July 2.—Actual and prospective trade with South Africa has assumed such proportions since the termination of the Anglo-Boer war that two steamship companies have inaugurated service between New York and South African ports. It is the intention of the agents to maintain a bi-weekly service. For the last few years the carrying trade between this port and South Africa has been in the hands of a combination consisting of three lines. The new service has already resulted in a reduction of rates.

"The demand," said an official of one of the new lines, "is mainly for lumber and building materials, for which cable orders are coming to this country every day, and also largely for supplies of grain and agricultural implements of all kinds is very large and is rapidly increasing."

## Trolley Car Overturns.

Denver, July 2.—At 11 o'clock last night an electric street car loaded with people returning from a suburban resort, jumped the track and overturned at West Thirty-eightth avenue and Homer boulevard, and 11 persons were seriously injured and four of them are likely to die. About 80 persons were on the car and all of them were more or less injured.

## Cholera in Philippines.

Manila, July 2.—According to official reports there have been in Manila up to date 1,740 cases of cholera and 1,385 deaths from the disease. The same reports for the provinces show 9,444 cases and 7,028 deaths. Lieutenant Colonel Louis M. Maus, the insular health commissioner, says that there probably have been 2,000 deaths from cholera in the provinces, of which it is impossible to get records.

## Mount Pelee Hot Bombs.

London, July 2.—A dispatch to the Daily Mail from Bombay says there is great alarm in Western India because of the continued absence of monsoon, the heavy rainfall which usually comes early in June. The non-appearance of the monsoon is traceable to the eruption of Mount Pelee on the island of Martinique. The meteorologists declare that the eruption of Mount Pelee deflected the monsoon 1,800 miles to the westward.

The corn crop is said to be beyond redemption, but cotton will be saved.

There was considerable alarm for the city of Galveston throughout the day, as a severe gale was reported raging there this morning, and telegraphic communication was entirely interrupted during the day. It was later learned, however, that no damage had been sustained and that the water was but slightly above normal. At Houston, a high wind prevailed, but no serious damage is reported.

## FEDERAL ARBITRATION BOARDS

### House Labor Committee Orders Favorable Report on the Bill.

Washington, July 1.—The labor committee of the house has perfected and ordered a favorable report on the bill empowering the president to appoint federal arbitration boards to investigate and adjust strikes, lockouts, etc., which are of such magnitude as to affect interstate commerce. The membership of the board was reduced to five members, two to be appointed by the president and one by each of the parties to the labor controversy. The duties of the board are to investigate and report the facts, the idea being that publicity of the actual facts will do much to promote an adjustment. Furthermore, provision is made that the contending parties may submit their cause to the board of arbitration for final decision, but this is not compulsory. The bill will be reported at once, but it is too late in the session to expect final action.

### Official Trial of Torpedo Boat Destroyer.

Baltimore, July 1.—The official trial of the torpedo boat destroyer Truxton has been held over the Barren Island measured course in Chesapeake bay. The vessel exceeded her contract speed and the mean endurance average for an hour by 1.9 knots and 1.066 knots respectively. Her maximum speed corrected for tidal allowances was 23.9 knots, while under forced draught she averaged 27.6 knots for one hour. The Truxton was built at Sparrows Point by the Maryland Steel Co.

## Bills Renominated.

Detroit, June 30.—The Republican state convention renominated Governor Bliss on the first ballot. A motion to make his nomination unanimous was defeated, however, by the objection of editor M. L. Cook, of Hastings, who had placed John Patton, Jr., ex-United States senator, of Grand Rapids, in nomination, and who waged a bitter fight against Governor Bliss throughout the campaign.

## Ninth Infantry Goes East.

San Francisco, July 1.—The 10 companies of the famous Ninth Infantry, which arrived on the transport Kilpatrick, left for the East today, Colonel C. F. Robe in command. The headquarters of the regiment and six companies will be stationed at Madison Barracks, N. Y., and the other companies at Fort Niagara.

## Absorbing Missouri Mines.

Kansas City, July 1.—The Star says: All the big coal mines in Missouri are to be absorbed by a syndicate controlled by J. P. Morgan. The Missouri coal fields have had no trouble with labor unions and with railroads that many good mines can be bought for reasonable prices. It is also asserted that the plan to consolidate Missouri mines by Eastern capitalists was only part of a plan to form a trust to control the coal output of the United States.

## Needy Americans in Cuba.

New York, July 1.—Hundreds of indigent Americans now in the island are petitioning the minister for aid, says a dispatch to the Herald from Havana. This prompted Minister Squiers to call a meeting of the Americans in the legation, when liberal subscriptions were made to send the needy Americans to the United States.

## Tier-Tain Situation.

London, July 2.—In a dispatch from Peking, the correspondent from the Times says a meeting of the foreign ministers in Peking was held to discuss the restoration of the administration of the native city of Tien Tsin to the Chinese, and that no decision was arrived at. "I am informed," says the correspondent, "that France will follow Russia's example in leaving Great Britain, Italy, Japan and Germany responsible for the Tien Tsin situation."

## INDIAN WAR PENSION BILL BECOMES A LAW.

### Pen With Which Roosevelt, Frye and Henderson Signed the Bill Are to Be Sent to the Old Soldiers—Will Be Rewarded With All Haste—All Concerned Are Well Pleas.

Washington, July 2.—The Indian War veteran pension bill is now a law. President Roosevelt has affixed his signature to the bill and the pen with which he signed it has been turned over to Representative Tongue. The bill, as soon as printed as an act, will be sent to the commissioner of pensions, with instructions to use all possible dispatch in putting the law into effect. He will be directed to issue the necessary blanks, which will be furnished to claimants upon application, and will be ready to receive and pass upon claims and evidence as submitted. In view of the urgency of claims under the act, Representative Tongue has urged that all Indian War pensions be made special. In order to avoid unnecessary delays, the department cautions claimants to fill out positive answers to all questions that are embodied in the blanks, and to have all evidence before them submitted to the commissioner. Omissions of this character necessitate the return of papers to the claimant, and often occasion considerable postponement. Representative Tongue will forward the pen used by the president, as well as the pen of the Henderson and President Frye, of the senate, in signing the pension bill, to the Indian War veterans of Oregon. He has had applications from the Oregon Historical Society for this pen, but holds it as rightfully belongs to the veterans, and they see fit to turn it over to the Historical Society, he has no objection.

## Breaks All Records.

Bloomington, Ill., July 2.—All weather records in Central Illinois are being broken this year. Rain has fallen steadily for 24 hours, approaching a cloudburst in extent at times. At intervals last night snow fell, while the temperature fell to 43 degrees. But for the rain there would have been frost. Excess of moisture this summer has given all classes of crops a serious backset.

## Another Indiana Tornado.

Evanville, Ind., July 2.—Three persons were killed and several badly injured in a tornado that passed near the city tonight. The fatalities occurred at St. Wendell, about 10 miles from this city. The path of the storm was about two miles wide and had a fearful velocity. Many buildings were demolished. The loss to property will amount to about \$100,000.

## Great Fire at Cape Town.

## Killing Fish by Dynamite.

## Last Cable of East River Bridge.

New York, July 2.—With an American flag fluttering from the reel, the last wire making up the four cables of the new East river bridge has been put in place. ## Tier-Tain Situation.

London, July 2.—In a dispatch from Peking, the correspondent from the Times says a meeting of the foreign ministers in Peking was held to discuss the restoration of the administration of the native city of Tien Tsin to the Chinese, and that no decision was arrived at. ## BELIEVED HE HAD SHOT TRACY.

### Whitcomb Officer Kills a Bad Man, but it Was Not the Oregon Convict.

Whitcomb, Wash., July 1.—Police-man Frank Alvord shot a man through the pit of the stomach, inflicting a wound which will prove fatal. The man gives the name of Godfrey B. Campbell, and his home is Black River Falls, Wash. Police-man Alvord, who shot Campbell, believed at the time that he was dealing with either Tracy or Merrill, but the authorities have received circulars containing an announcement of the reward offered for the men, and are positive that the man shot is not one of the escaped Oregon convicts.

Police-man Alvord observed a gun in the man's pocket while he was walking on the street, and as he was desperate looking, after consulting with Officer Jeseup, he determined upon his arrest. The man turned into a side street, followed by Alvord, who requested him to halt. The stranger replied, "Not by a right," whereupon the officer ordered him to throw up his hands, at the same time drawing his revolver. The man attempted to draw his revolver, at the same time grabbing hold of one hand the officer's gun. The officer fired, the ball striking the man in the pit of the stomach, passing clear through. He maintained a terrific fight with the officer. Officer Jeseup, who had come to his brother officer's assistance, and a large number of bystanders aid, were fully five minutes in subduing the man. A dozen blows from a policeman's club, succeeded in cracking the man's skull, but not in loosening his grip on Officer Alvord's gun. His hand was finally broken in order to loosen his grip. The authorities are confident that the man is a desperado of some character and wanted by officers.

## TEXAS DROUGHT BROKEN.

### Heavy Rains Are Reported from Dallas South to the Gulf of Mexico.

Dallas, Tex., July 1.—The long drought prevailing in Texas was quite generally relieved today. Heavy rains are reported from Dallas south to the Gulf, and many sections north, east and west have received portions of the downpour.
