TO END THE STRIKE.

President Will See What May be Done in the Conl Fields.

Washington, Oct. 2 .- The president yesterday took initiative steps to ascer tain what, if anything, could be done by the federal authority to settle the coal strike. The result was a general expression of opinion by the advisers of the president, who were present, to the effect that the federal laws and constitution do not afford means of federal interference to end the strike, but another conference will be held today, and the president will do all he can properly and legally to bring about a settlement, At the temporary White House a conference was held with the of \$25,000. three cabinet officers- Attorney Gene ral Knox, Secretary Moody and Postmaster General Payne. Governor

Crane, of Massachusetts, was also present. These gentlemen met with President Roosevelt, and after the subject had been considered for some time they adjourned to another room and law which provides for Cuban labor in conferred together for an hour. They all returned later in the day and held another conference with the president, and the strike situation was discussed further.

President Roosevelt is deeply concerned over the situation. The apmenting with flying machines on Long proach of winter, with a coal famine imminent, and the distress and sufferand sailed about two miles and the ing that must ensue unless coal becomes available, present a situation which, he thinks, should receive the attention of the administration if there lands and Porto Rico has finished its is anything that can be done by the work in the Hawaiian islands and has government. Many appeals have been made to him, and many suggestions have been received by him, and it was with a view to ascertain what power the federal authority could evoke that caused the conference to be held.

During the conference every phase of the situation did not present a case in ber of fairs and carnivals. which there could be federal interference by any warrant of law. There has been no interference with federal authority in the mining region, either by stoppage of the mails or resistance of the United States court process. It was pointed out that there was no occasion for the use of federal troops, as quired. Governor Stone, of Pennsylvania, had Columbia river will this year, for the not called on the government for assistance, nor had be even exhausted the resources of the state by calling out the

ROOT MAY RESIGN.

Secretary of War Desires to Return to Practice of Law.

Washington, Oct. 1 .- Secretary Root

is to resign, according to a statement published here. According to the rumor the resignation is not to take place until some time next spring, when Secretary Root hopes to have the many reforms he has originated as secretary of war certain of being carried to a successful consummation. Among these are the general staff bill, which is not likely to pass at the short session, and the bill to reorganize the militia, which may become a law. With the practical settlement of affairs in the Philippines, and Cuban reciprocity adopted by congress, which will probably result in keeping Cuba paci-fiel, and the reforms Secretary Root thoroughly established, the great work which he has selected to do will in a measure be accomplished. If he resigns it will only be when there is a straight course ahead for the war department, as President Roosevelt would not be very likely to part with him under any other circumstances. He is one of the strongest men in the cabinet, and probably the closest to the president.

Secretary Root entered the cabinet at a great personal loss. As a lawyer of ability, he had an enormous practice in New York. His old associates and employes are anxious for him to resume Marquam, had a large attendance and the main reason why he intends to re-

LONG PENSION LIST.

Report of Commissioner Shows Net Gale of 5,732 Pensioners Last Year.

Washington, Oct. 1 .- The annual report of the commissioner of pensions, exhibit, which took the first prize at Eugene E. Ware, shows that the num still under the 1,000,000 mark, despite a net gain of 5,732 pensioners since Sub-committees have been appointed 1898. The total enrollment July 1 last

> ceived by the bureau during the year was 50,128; but only 27,043 of them were pensioners. The report says that the death rate year will be about 40,000, and the pairs also have disappeared.

The number of death notices of old
