#### Hood River Glacier

FRIDAY, OCTOBER 10, 1902.

The Glacier is constantly receiving inquiries from parties in the East concerning the new pamphlets, and it strikes only for their size and flavor, but also for their keeping and shipping qualities. They are shipped as far as Winnipeg point some one of its members to attend to this part of the distribution, to whom to this part of the distribution, to whom to this part of the distribution, to whom the condition.

Owing to the fact that Hood River's horticultural fair has only fairly opened grop. when the Glacier goes to press, it is impossible to give a comprehensive account of the numerous and attractive exhibits, but next week's issue will contain as nearly a complete summary of exhibits as possible, together with list of awards, comments and impressions and other interesting descriptive matter relating are negative favorable to fruit raising. interesting descriptive matter relating are peculiarly favorable to fruit raising, to Hood River valley. In short it will the long season giving them the time to be the aim to make it a number that the fruit growers of the valley will want too hasty growth and render them firm to send to their friends in the East.

seed, with which to seed down the vast extent of country recently ravaged by fire, and thus make it valuable for grazing purposes. Orchard grass, timothy and white clover are the varieties desired, and it is estimated that 100,000 pounds will be required in Clarke county alone.

"It was purchased in 1892 for \$1,600. It consists of 152 acres. Two years ago an offer of \$250 an acre was refused for it,. The trees are in splendid condition by the agricultural department. Even sprayed twice during the winter. Hood River valley has several thousand acres on the eastern slope of Mount De-fiance which if seeded to grass would furnish a range for all the young stock in the valley during the summer months, and be worth hundreds of dollars to our Ben Davis yielded 1,414 boxes of apples

A Great Pruit District.

A representative of the East Oregonian spent several days here a couple of weeks ago and we clip the following extracts from what he has to say of Hood River valley;

"Hood River strawberries have achieved a well-deserved reputation not only for their size and flavor, but also

all inquiries for advertising matter from persons at a distance could be referred. strawberries, being divided into five, 10, and 20-acre farms. As high as \$300 per acre is realized from the strawberry

"The Eastern side of the valley has

The people of the burned districts in Washington have made application to the agricultural department for grass

Oregon should join in this movement, as and this year's crop will sell for not less a liberal distribution of grass seed of than \$6,000. There are at present some-the hardier varieties over the burned districts would be of far more general benefit than the usual seed distribution maturity of the fruit. They are also

"To give an idea of the yield, Mr.

people. The subject is worthy of attention.

Mt. Hood Notes.

Mt. Bird has completed his job of the subject is worthy of attention.

Ben Davis yielded 1,414 boxes of apples two years ago, when the trees were four and five years old. Last year the same two and three-quarter acres yielded 1,900 boxes of apples, for which he received from \$1 to \$1.25 a box. This year they are the are they a

The United States Geological Survey has recently published in its Water-Supply and Irrigation papers, the re-sults of a series of gaugings of the more important streams of Idaho, together with information programs. with information regarding river heights during different months of the year, and other data in connection with the streams, of importance to engineers, irrigators, and water users. Streams upon which measurements have been made are Bear river at Battlecreek, the Cub at Franklin, the Snake at Montgomery ferry, the Malade at Toponis and Bliss, the Braneau near Grandview, the Boise and neighboring irrigating canals, and the Weiser near Weiser. In addition to the investigation of the surface supply. the Geological Survey has for the last few years been studying the geologic formations of the state for the purpose of locating artisian basins. Several such basins were discovered recently in the southwatern portion by Professor I. C. Russell, one of the geolo-gists of the Survey, which give promise of a serviceable yield of water.

Fossil's Chesterfleidian Editor. They tell us James Stewart, editor of

the Fossil Journal, was in the city yes-terday, but we don't believe it. He would never be in The Dalles and overlook his newspaper friends.-The Dalles

On bended knees we plead guilty to ceming discourtesy and beg forgiveness. But there were extenuating circumstances. We had considerable business and only a few hours in The Dalles, and knew quite well that if we called on the Chroniele's charming editor the tempta-tion to lose our train would be very great

Mt. Hood Notes.

Mt. F. Bird has completed his job of building a barn for Edward Miller, and will go home on Monday.

The last band of sheep has pulled out of the valley for this year. They go now to their winter range east of The Dalles.

There is to be a mill located at this place in the mear future, beyond adoubt, which will make things lively in this valley. It will be located on the road one mile north of the Mount Hood mill company, and is at work, while H. H. Meyers is doing the logging for team of the wall located at the course will be located on the road one mile north of the Mount Hood Mill company, and is at work, while H. H. Meyers is doing the logging for team firm.

The Lost Lake Lumber company is running its donkey engine six days a week, now, pulling logs to the river. They get in about 15,000 to 25,000 feet per day with a crew of 12 men and one horse team. They will have several million feet in the river by Christmas if the weather will permit them to run steady.
