#### Hood River Glacier

FRIDAY, JANUARY 2, 1903. Our Population 1091. The Glacier has made its annual count of the population of Hood River and finds 1091. One year ago the number was 861. This count may be disapwas 861. This count may be disappointing to some who have guessed that it would be much larger. By looking over the list of names published last year we find that 23 families and 38 single persons have moved from the city during the year. If these 23 families and 38 the country of the year of the country of the country of the year. If these 23 families and 38 the year of the country of the year. If these 35 families and 36 the year of the family of the year. If these 36 the year of the family of the year of the family of the year. it would be much larger. By looking over the list of names published last year we find that 23 families and 38 single persons have moved from the city during the year. If these 23 families averaged four persons to the family (and some of them were good-sized families), the total loss, with the 38 single persons added, would be 138, showing a total gain for the year of 365. This is the fourth consecutive year the Glacier has counted our population. January 1, 1900, the town had 622. Following is a list of heads of families and single persons and single person list of heads of families and single per-sons employed in the city Jan. 1, 1904: Adams Harry, barkeep for Hayward.
