## WILL FIGHT TO A FINISH.

**Canadian Pacific Strike Spreading From Vancouver Eastward.**

Vancouver, B. C., March 12.—Although it seemed probable a few days ago that a settlement was about to be effected between the striking employes and the Canadian Pacific railway, all negotiations were broken off today. The strikers say that it will be a battle to the finish. The United Brotherhood of railway employes says that the apparent willingness of the company to arbitrate for a settlement was merely a ruse to gain sufficient time in which to recruit substitutes for the striking men. There is no question of wages or working hours in the matter.

Supporting the cause of the strikers, all members of their organization along the line have been today called out, Calgary, Winnipeg and Fort William being particularly interested.

The company, on the other hand, has received another carload of Eastern men, and now has 125 substitutes, with which it will endeavor to carry on general business. These men are quartered in box cars on the wharves, entrance to the wharves being guarded day and night by Canadian Pacific special policemen. The following notice addressed to shippers and all others concerned is published:

"This company is now prepared to accept all goods offered for shipment. The same can be delivered either at our local sheds or our wharf warehouses."

The strikers are receiving funds from unions throughout British Columbia and from Portland, Seattle and other places.

From the head office of the company at Montreal is coming William Whyte, assistant to the president, who will try to settle the strike.

**CALL FOR TROOPS.**

**May Result from Strike Riots at Toledo—War Among Teamsters.**

Toledo, O., March 12.—After four successive attacks had been made on nonunion teamsters by striking union men, a member of the Toledo cartage association declared that he would make application to Governor Nash tomorrow to call out the state militia to protect the association's men and interests.

Today has been one of the most exciting in the city's history, nor is the excitement abated by the strikers' declaration that a general strike will be called and that no Toledo freight will be handled by teamsters in any part of the country.

The trouble began at noon when a mob of 400 strikers and sympathizers followed a truck through the principal business streets, endeavoring to knock and pull from his place a nonunion driver. The mob attempted to do violence to Manager Turner, of the Moreton truck company. Both men were saved from serious injury, however, by the police. Later the police gave notice that any further provocation given the strikers would be the fault of the employers and that they would not interfere hereafter.

Later an attempt was made to throw a nonunion driver into the river, but the man was saved by the police. Not half an hour later another nonunion truck driver was torn from a truck in front of the Moreton truck company's office and at the muzzle of a revolver was compelled to run for his life. A similar fate befell a nonunion teamster within a block of the police station.

**PLAQUE OF WATER.**

**All Rivers in Middle West and South are Booming—All Industry Stopped.**

St. Louis, March 12.—The Mississippi river and all its tributaries are above or near the flood stage and continued rain through their vast watershed threatens a flood hardly paralleled in the history of the Middle West and South. The Ohio and all its tributaries, after receding for a few days, are again rising, and the lowlands are flooded at many points. The ice in the streams which empty into the Missouri from the west has broken up and carried many bridges with it. The area covered by the floods will extend from the foothills of the Alleghenies on the east to those of the Rockies on the west and from the great lakes to the gulf.

At several points the Mississippi has already overflowed its banks or threatens to break the levees and is still rising rapidly.

The worst damage, so far, has been done in Nebraska, where the wreck of bridges has stopped traffic on all railroads running west except the Burlington.

From all directions come reports of people fleeing from flooded bottom lands to the hills or seeking refuge in the upper stories of their houses, and of factories rendered idle by the floods advancing to their boiler rooms.

**Centries are Fired On.**

Colorado Springs, March 12.—Centries at three points were fired on this evening by unknown parties. At one point an attempt was made to enter the sentry lines and the sentry on guard came near being hit. Other sentries stationed around the three mills were fired upon at midnight. From reports made by the sentries and the flashes from the guns, the men doing the shooting were located on the hills surrounding the reduction plants.

**Still Believe a Woman Did It.**

Buffalo, March 12.—The police cling to the theory that a woman, and one from outside the house, killed Burdick. The examination of sewers and sluice boxes in the vicinity of the Burdick home failed to reveal any weapon that could have been used by the murderer. The police are also working to ascertain all that actually occurred in the house, both before and after the murder that night.

## FOR PORTLAND FAIR.

**Utah Legislature Appropriates \$10,000 for Lewis and Clark Exposition.**

Salt Lake City, Utah, March 11.—The Utah legislature today passed a bill appropriating \$10,000 for an exhibit at the Lewis and Clark exposition to be held in Portland in 1905. Action on the measure, which had previously been passed by the senate, was unanimously in favor of the bill, which went through without discussion.

Although but \$10,000 is named as the appropriation for the Portland fair, the exhibit will really cost many times that amount. A companion bill, which also passed the legislature today, provides for the expenditure of \$50,000 for a Utah exhibit at St. Louis in 1904. The St. Louis exhibit will be moved entire to Portland. The appropriation for the Portland fair is designed to cover the cost of transfer, and to replace any portions of this display that may be destroyed or lost. Should the funds permit, additions will be made for the Portland exhibit, as it is the wish of Governor Wells to make the most creditable showing possible at the Portland fair. It is certain that Governor Wells will approve both measures passed by the legislature today. The governor has been a strong advocate of a large appropriation for the purpose of these exhibits, and heartily endorses the two bills.

## WHAT CONGRESS DID.

**Put in 144 Hours to the Day—Number of Bills and Reports.**

Washington, March 11.—Alexander McDowell, clerk of the house of representatives today made public an official compilation made by Tally Clerk Wakefield showing the work done by the house during the 57th congress. It showed that the longest day of the session lasted, with recesses, 144 hours, during which 80 rollcalls were taken. The number of bills and resolutions introduced in the house during the two sessions of the congress was 18,420, and reports were made on 2,810 bills and resolutions. The senate sent to the house 1,630 senate bills and resolutions. The houses disposed of 2,413 of the measures originating with it and of 1,012 of the senate bills and resolutions, making a total of 3,425 bills and resolutions acted on. Congress left on its calendar 405 houses and 118 senate bills and resolutions. Fifteen of the members of the house died during the congress, seven resigned and Messrs. Rhea, Kentucky, and Butler, Missouri, were unseated, the latter twice.

## CONCESSIONS BY TURKEY.

**Recognizes American Medical Diplomats—Naturalization of Armenians.**

Constantinople, March 11.—The United States legation has finally obtained official recognition of the examination at the American medical college, Bayreuth, on the same lines as the French examinations, and also the settlement of the long pending question affecting the rights of wives and children of Armenians who have become naturalized Americans to leave the empire. They are now able to join their husbands and fathers in the United States without hindrance. The council of ministers has agreed to recognize the American educational, charitable and religious establishments and they are now awaiting imperial approval. It is expected that authority will shortly be given to the American archeologist, Mr. Banks, to undertake excavations at Tel-Abraham, Mesopotamia, the supposed site of the tomb of Abraham. Mr. Banks has been waiting here for this permission for three years.
