EVENTS OF THE DAY

GATHERED FROM ALL PARTS OF THE TWO HEMISPHERES.
Comprehensive Review of the Important Happenings of the Past Week, Presented in Condensed Form, Most Likely to Prove Interesting to Our Many Readers.

Omaha has ordered all saloons closed during the big strike now on.

All warships but those of Austria will be withdrawn from Salonica.

The more serious forest fires in the Adirondacks are now out and the remainder under control.

Mrs. C. P. Huntington has purchased the new \$500,000 six-story mansion of Mrs. J. F. Carroll in New York.

A French-Belgian syndicate has been formed in Europe with a capital of \$3,000,000 to work the Chilean mines.

Three thousand dollars of the money which was stolen from Express Agent Peterson, of Britt, Ia., last week, has been found beneath the company's building.

In a street-car runaway at Rochester, Pa., the conductor was probably fatally hurt, the motorman badly bruised and six passengers injured. Wet rails caused the accident.

The rivers and harbors committee of the house of representatives made a tour of the navigable waters about New York to see what improvements are needed in shipping facilities.

The report that General Matos, the revolutionary leader, has landed in Venezuela from Curacao, is confirmed.

An association for the protection of Germans in the enforcement of the laws of Argentina has been formed at Buenos Ayres.

Physicians of Ira D. Sankey, the singer evangelist, now acknowledge the failure of the operation for the restoration of his sight.

Attempts to wreck two trains at Stamford, Conn., are charged to traps, and the police are now in pursuit of seven men.

Robbers wrecked the safe of the Bank of Assaria, Kan., and escaped on a hand car. It is not known how much money they secured.

Indiana has had another severe frost which it is believed will practically kill the strawberry crop, plums and other tender early fruits.

Edwin C. Kelley, treasurer and general manager of the Enamel Brick company, of Cleveland, O., is charged with the embezzlement of \$25,000 of the funds of the concern. Kelley declares he will be able to prove his innocence.

Rivalry among the associations of engineers in this country may nullify an offer of Andrew Carnegie to give \$1,000,000 or more to establish a national center for engineers in New York. A high official in one of the bodies says it is doubtful if all can live in peace in one room.

Portland laundrymen have locked out their employees.

Russia expects war with China and is preparing for it.

Nearly 500 tenants were evicted in the New York tenement district May 1.

Fifty half-naked Doukhobors are on a "search for Jesus," near Saskatoon, N. W. T.

The Merchants state bank at Freeman, S. D., was raided by robbers. They secured about \$3,000 and escaped.

The sixtieth anniversary of the founding of civil government on the Pacific coast was celebrated at Champeau, Oregon, May 2.

John Firman, 25 years old, living at Paterson, N. J., has two hearts beating in his own breast. He is a fine specimen of physical manhood and constantly enjoys good health.

A bell cast by Paul Revere, that had been in constant use since its making is being recast at Troy, N. Y. The Leominster Congregational church, in the bell of which it hung, was burned a short time ago.

COLLIDE AT SEA.

Ocean Liners Meet in a Dense Fog, and Twenty Lives are Lost.
Norfolk, Va., May 7.—A collision at sea that cost the lives of 20 or more people and the sinking of the Clyde steamer Saginaw by the Old Dominion steamship Hamilton occurred between Winter quarters lightship and Fenwick island lightship, on the Virginia coast at 4:40 o'clock this morning.

A dense fog settled along the shore shortly after nightfall, and while going through the fog at reduced speed the Hamilton crashed into the Saginaw's side about 20 feet from the stern.

The fog whistles of both vessels were distinctly heard by each other for several minutes before the collision occurred. According to Captain Roas, of the Hamilton, his ship was making about nine miles an hour, and the Saginaw about ten. The fog was so thick that objects a ship's length away were invisible, and when the two crafts hove in sight of each other, bow on, there was but a moment's interim before they met.

The intruding water caused the Saginaw to settle rapidly at the stern, and the impetus of the Hamilton took her out of sight of the crippled vessel.

The engines, already reversed, were put full steam to the rear, and the Hamilton circled the scene of the wreck, at the same time lowering two lifeboats. There was consternation among the passengers of the Old Dominion ship, and the first thought was for their safety, but as soon as it was discovered that the ship was uninjured save that some bow plates were averse in all efforts were directed to the rescue of those on the Saginaw.

The innuading water caused the Saginaw to settle rapidly at the stern, and the impetus of the Hamilton took her out of sight of the crippled vessel.

HAPPENINGS HERE IN OREGON

GOOD WORK OF BUREAU.
Harriman Lines are Turning Thoughts of Thousands to Oregon.

G. M. McKinney, who has charge of the immigration department of the Harriman lines, met with the real estate dealers of Salem to discuss matters relating to his work. He explained the plan of his department and talked with the real estate men concerning the methods of advertising that they must rely upon to draw immigration to this state. That Oregon is now the most widely talked of state in the Union is the declaration he made, after telling how the resources of this state have been advertised through the immigration bureau. As an indication of what has been done for the Willamette valley, he said that since his department has been working between 4,000 and 5,000 one-way railway tickets have been used by Eastern people, who came to the valley and did not go away again.

He said that the immigration bureau of the Harriman lines is the most perfect enterprise of the kind ever organized in the United States, and that it reaches in the most effective manner those persons who are the most desirable immigrants. Within seven months after he began work his department had placed the literature advertising this state into the hands of 2,000,000 people. The bureau has placed in the field six lecturers, with stereopticon views showing scenes illustrating the resources and industries of Oregon, and the lecturers are addressing Eastern audiences four evenings a week. Six immigration agents in the different sections of the middle West are giving their whole time to disseminating information regarding this state, supervising the distribution of literature to those who are most likely to come to this state, and aiding scores of Eastern real estate men who are encouraging Western immigration.

By means of this vigorous policy the people of the Eastern states have been interested in Oregon, with the result that there is more talk of this state as a desirable place for home-seekers than there is of any other state.

Bridge Over Santiam.
At a mass meeting of Linn county farmers held in school district No. 114 recently some resolutions asking the county court to rebuild Sanderson's bridge were adopted and sent to the court. The bridge was carried away by the floods of last January. It was one of the longest bridges supported by Linn county and spanned the Santiam river, connecting this portion of the county with that rich section known as the forks of the Santiam.

Plenty of Gold but Little Silver.
Clackamas county officers report an unusual scarcity of silver. Treasurer Cahill says gold pieces, in denominations of \$20, were never before so plentiful as they are at this time, and he finds it troublesome to keep in hand a sufficient amount of silver with which to make change. No reason is assigned for this condition, save that it indicates in a substantial way a greater degree of prosperity among all classes.

Wool in Harton County Pool.
From information produced at the Marion county woolgrowers' association meeting, it seems probable that the quantity of wool controlled by the pool this year will be nearly double that of last year. The soliciting committee has not yet completed its work, but thus far 50 members have been secured, and it is expected that the total amount of wool represented will be from 75,000 to 100,000 pounds.

Survey of the McKenzie.
Professor McAlester, who is at the head of the University of Oregon mechanical department, has completed arrangements for a hydrographical survey of the McKenzie river this summer. The survey will be made for the purpose of determining the water power of the river with a view of locating the points where electric plants and the like may be established to the best advantage.

Water Seeps from Ditch.
The irrigating ditch belonging to Henry E. Ankeny, of Eugene, and Mrs. J. T. Henley, of Klamath county, runs through the town of Klamath Falls, and the village authorities have commenced suit in the circuit court to secure an injunction against the owners, alleging that the property is a nuisance on account of injury from seepage.

New Road to Crater Lake.
W. S. Arant, superintendent of Crater Lake national park, reports that he will have the new road leading to the lake ready for use by August 1. It will be shorter and have fewer bumps and steep grades than the old one. It will enable a journey from Fort Klamath to the lake, 25 miles, in 2½ hours.

Rainier Lumber Shipments.
Ninety-five carloads of lumber and shingles were shipped from Rainier in the past month. This does not include the cargo of 600,000 feet shipped to San Pedro by sailing vessel.

Cattle Coming to Summer Ranges.
Cattle are beginning to come into Starke prairie for summer range. The prairie is now several thousand head, principally from Umattila and lower down, in Union county.

Eastern Oregon Geological Survey.
T. B. White, of the United States geological survey, is in Pendleton and will at once begin work in Eastern Oregon.

Insane Asylum Report.
The report of Superintendent J. F. Calbreath, of the state insane asylum, for April shows the number of patients March 31 as 1,297; remaining on April 30, 1,298. Number of officers and employees, 160; expenditures for articles consumed, \$7,749.41; pay roll, \$6,064.66; cost of maintenance per capita per month, \$10.65; per day, 35 cents.

Eastern Oregon Pioneer.
Julius O. Mack, one of the best known residents of Eastern Oregon, died at his home at the Dalles Sunday afternoon, after a short illness, from pneumonia. Mr. Mack was about 50 years of age.

BIG COAL POOL FORMING.

Gates and Frick are After Lands of the Choctaw Indians.
South McAlester, I. T., May 6.—Big financiers of the East, headed by H. C. Frick, of Pittsburgh, and John W. Gates, of Chicago, are forming a pool to get possession of all the coal lands in the Choctaw nation. There are 440,000 acres in the Choctaw nation, which will be sold at public auction and the proceeds divided among the Choctaws according to the act of congress. The price agreed upon by the Frick-Gates syndicate is \$25 per acre.

It is not the intention of the syndicate to disturb the present mining companies, either large or small, or their coal leases. All that the Eastern financiers want is the undeveloped coal lands. They will let the companies now mining coal buy the land covered by their leases, but no more. If some of the independent mining concerns are not able to buy the land which they now have leased the syndicate will buy it for them and allow them to operate it on a royalty of 8 cents a ton, as they are now paying the Indians.

Some of the men in the syndicate will purchase the land for development, while others will hold it for speculative purposes. Frick is to get the land along the Fort Smith & Western railroad, which he owns. Gates wants a tract of land in the eastern part of the Choctaw country, which carries a quality of coal especially suited for coking purposes. George Gould is to get a large tract in the vicinity of South McAlester.

HAWAII IS CRITICISED.
Expert on Leprosy Holds Its Treatment of Disease All Wrong.

Honolulu, May 6.—The legislative committee which visited the leper settlement has made its report, submitting with its own findings a long and sensational statement made by Dr. A. L. Alvarez, a physician, who went to Molokai with the committee as expert. The doctor very severely criticizes Hawaii's system of segregation and makes the statement that out of 21 supposed lepers examined by him some time ago 10 were entirely free from the disease and should be at liberty. The segregation system, the report says, leads those who have leprosy and their relatives to conceal the fact, in order that they may avoid being sent to Molokai. Dr. Alvarez approves the system of segregation in vogue in Norway.

The legislative committee recommends the establishment of a large hospital on the island of Oahu, and the employment of Dr. Alvarez as physician in charge. It is also recommended that a medical commission be secured to go to the settlement and examine all the doubtful cases, releasing those who have not the disease.

POLICE TO SCENE OF STRIKE.
Italian Workmen on New York Subway Become Demonstrative.

New York, May 6.—The strike of Italian rock drillers and diggers took a more serious turn in the Bronx today, 50 policemen being sent to keep order along the excavation for water mains where men are working in the strikers' places. The police were picketed along the excavation and all Italians near it and not working were ordered to move. Bands of Italians, however, marched by and shouted harshly at the men in their places.

Agent Landan, of the Italian labor union, said there were 15,000 men on strike in this city, and that all work in the Bronx would be stopped.

A big box of explosives, which was in a shanty for the excavating work in the Bronx, was ordered buried by the police, and two guards were stationed near to watch it.

Encouraged by the action of the Central Federated union in endorsing their demands, the laborers employed on the subway remained on strike today and the tie-up of work was complete.

TURTLE MOUNTAIN SLIDING.
River Completely Dammed by Rocks and Flood is Feared.

Blairmore, N. W. T., May 6.—Small slides have been coming down from Turtle mountain at intervals during the past 36 hours. This morning at day-break the largest rock slide since the first disastrous one occurred and caused much uneasiness among the handful of officials left in Frank. Those who had portable property began to remove it this morning, but when the big slide came they fled precipitately. Government engineers went to the mountain this afternoon to mark out blasting spots and clear off the loose rock.

Renewed fears of a flood have been caused by the unexpected rise of the river. Rain is predicted, and with the river still practically dammed by rocks, a flood now would be disastrous.

No Coup by Russia.
Washington, May 6.—The Chinese minister called upon Secretary Hay today and discussed the Manchurian situation. There is good reason to believe that the negotiations have taken a more favorable turn, and that the Russian coup which was expected has either been abandoned or was indefinitely postponed. It is understood that this involves no retreat on the part of the Russian government from any position officially taken.

Shanghai Negotiations Suspended.
Peking, May 6.—The negotiations at Shanghai for American and Japanese commercial treaties have been suspended. They will be continued here in a fortnight. The principal question still remaining to be settled is the tariff. The Japanese treaty, like the American treaty, provides for the opening to trade of Manchurian towns.

London Objects to Americanism.
London, May 6.—The Yarkes-Speyer scheme for the consolidation of all the underground railways of London is meeting with much opposition. The newspapers protest against such "Americanism" and monopoly and urge parliament not to submit thereto. The parliamentary committee of the London county council will submit its report to the council tomorrow. This report will insist upon a further investigation of the consolidation scheme, which the committee contends will raise fares.

Colombians May Migrate to Mexico.
Kingston, Jamaica, May 6.—Senator Canache Uribe and several other prominent Colombian Liberals arrived here today from Bogota on their way to Europe. They report that large numbers of Colombian Liberals have decided to emigrate to Mexico, having no confidence in the government of Colombia. They say also that a majority of the Conservatives have determined upon the rejection of the canal treaty unless a great sum of money is forthcoming.

Chicago Fire Loss.
Chicago, May 6.—Fire tonight destroyed the five-story building at 151-153 Wabash avenue, causing a loss of \$150,000. The building was occupied by several mercantile firms, whose stock was completely destroyed.

TURKS OFF GUARD

SURPRISED BY REBELS WITH MOST DISASTROUS RESULTS.
City of Salonica Plunged into Darkness by Explosion of a Bomb—100 Turkish Soldiers Killed—City is Under Martial Law—Germany Sends a Gunboat to Watch Proceedings.

London, May 6.—Except as to the number killed, which is now said to exceed 100, the latest telegrams and mail advices from Salonica fully confirm the previous reports of the serious nature of the outbreak there. Advantage seems to have been taken of the fact that the Turks had relaxed their precautions, and the garrison was seriously depleted, amounting to only 400 soldiers. The first mine that was exploded cut the principal gas main and plunged the city into darkness. Then the Ottoman bank and other buildings were attacked with bombs; as air ally has been described. Soldiers were hurried up to the scene of the disorder. They fired wild volleys, but many of their attackers were killed or wounded by the explosion of their own bombs.

Attempts at throwing bombs are now being dealt with summarily. At noon Sunday a man disguised as a Turkish priest tried to throw a bomb into the telegraph office at Salonica. He was apprehended and executed on the spot. The authorities continue to make arrests, and many Bulgarians disguised as Turkish officers are being seized. Among those arrested are professors in the Bulgarian school, who are alleged to have been at the head of the revolutionary movement.

Edith Pasha, who arrived in Salonica last Saturday to carry out the decree of martial law, has issued a proclamation, stating that the sultan has ordered him to deal severely with all persons guilty of outrages.

At Uskok, European Turkey, the police have seized stores of dynamite in the houses of the Bulgarian settlers.

The news that Germany has sent a warship to Salonica has led the Austrian newspapers to discuss the probability of European intervention. In both Berlin and Vienna, however, semi-official statements have been issued explaining that the object of sending the ships of war is solely the protection of foreign subjects, and that the vessels will be withdrawn as soon as the danger is over.

MORE TIME IN BUTTE STRIKE.
Continuance in Hearing of Injunction is Granted Western Union.

Butte, May 6.—A continuance has been granted by the Federal court to the American labor union in the hearing on the injunction granted to the Western Union telegraph company, restraining all members of the union from interfering in any way with the business of the company. The hearing has been continued until May 15
