Will Visit Hood River June 4.

A party of 45 German farmers, who are investigating agricultural condicontagement in an indirect manner. Germany is anxious to learn and to Germany is anxious to learn and to make use of the more advanced methods of agriculture, and these German farmers are here for that purpose Oregon and California are the states of chief interest to the visitors. On arriving in Oregon stops will be made at Medford, where 24 carriages have been hired for the party, at the state agricultural college in Cervallis, and a day will be spent in Portland. From Hood River the party will go to Walla Walla, Pullman and Fairfield, where they will see the big beet-seed farm.

In Portland the visitors will be entertained by the Arion society. A big banquet, which all the prominent German Americans in the city will attend, is among the features of the entertainment. The details of the Portland reception have been left largely in the hands of Paul Wessinger, who took charge of the work at the request of the railroad officials.

There are a number of Hood River fruit growers, among whom are the most practical and successful horti-culturists and farmers of the valley, who are natives of Germany, and these cit-izens are requested to lend their services in seeing that the guests from the Fatherland learn something of apple and strawberry culture as it is done in Hood River. hibition of moving pictures and illustrated songs at Workman hall last Sat-Jund 1. urday evening. The programme included a reproduction by the marvelous moving pictures of the passion play, an impres-sive representation of the principal scenes in the life of Christ, as enacted by the people of Oberammergau, Bava-ria, every ten years, in pursuance of a solemn vow at the time of a plague visi-tation. The scenes of this drama held the audience spell-bound. Other fea-tures included President McKinley's fun eral at Canton, 'the ocean in time of storm, volcanic scenes, etc. Many will be pleased to know that this company is to give a second exhibition here next Wednesday evening, with a change of programme.—Arlington (Wash.) For the above occasion O. R. & N. Co. will sell round trip tickets to Portland, trains 3 and 5, May 21, at one fare for the round trip—\$1.90; good returning, May 22, 1903. Children between 5 and 12 years of age, 95 cents. E. W. Quarles, Ascent.

Mrs. M. A. Scobee, who is an expert apple packer, finished packing at Sproat Bros., on the East Side, Wednesday of last week. Mrs. Scobee did nearly all the apple packing during the winter on the big apple ranch of Watt & Slocom. Mrs. Scobee's average was 35 to 40 boxes a day. Sixty-three boxes of 4-tier apples in one day is the highest record she has reached.

S. A. Skinner came up from Chehalis last Friday. He has purchased 5 acres on Methodist lane, 2 of T. D. Tweedy, and 3 of Thomas Goss. Mr. Skinner will make his home in Hood River.

G. M. Wells, an uncle of Jerome Wells, arrived from Illinois last week with the intention of looking up a home.

Captain Blowers and family are here. Mr. Wells is a veteran of the Captain Blowers and family are camped in their new barn and in tents on the ground where the captain is preparing to build a commodious dwelling.

The location is a delightful one, in the upper part of Blowers addition, where he has three acres of land inclosed. The captain has a good sized strawberry patch and will amuse himself farming in patch and will amuse himself farming in a small way. L. N. Blowers and family are camped in tents at the same place, awaiting the removal of the occupants

of the house they recently purchased. The fruit and produce trade is too big a proposition to stand still while other lines are pushing out and building up. Because the leading houses in the past have not taken the initiative and extended "territory" is no reason why this should not be done in the future. Indi-vidual solicitors are all right in their place, but there is something wanting— the "trade extension" tour fills the gap. In other mercantile lines "buyers' ex-cursions" are now an established feature everywhere, and in return the whole-place near Mount Hood.—Chronicle. salers return these visits. These features were a necessity—their success shows this. The same necessity exists erty to Mrs. Georgiana Rand. in the fruit and produce trade, and the "trade extension" trip is but the fore-runner of the "growers' visits" which will come in time.—Chicago Packer.

Miss Lulu Thomas is teaching school at Kingsley and writes that she likes the school very much.

E. H. Shepard is now owner of the D. G. Jackson place, formerly the property of W. J. Baker. Mr. Shepard made purchase of this 40-acre tract last week for something near \$10,000, so it is reported. At present Mr. Shepard is a resident of Portland, but he intends to move his family here immediately and move his family here immediately and will make Hood River his permanent home. Mr. Shepard thinks a great deal of the Hood River country, and he now has one of the prettiest and best fruit ranches in the valley.

Mr. Touslee, wife and daughter of Glenwood, Iowa, were in Hood River last week. Mr. Touslee is a fruit grower and fruit dealer of southeastern Iowa, and has handled a great number of Hood River berries. He says the berries

He was very greatly place is but a few minutes' walk from pleased with what he saw of Hood River. It took some time to introduce Hood River berries into the Iowa markets because of the high price, but their superior coefficients of sale call on Geo. D. Cul rior quality soon won recognition.

J. C. Walker, representing the Mississippi Valley Lumberman of Minneapolis, was in Hood River last week. Mr. Walker travels extensively each year for his publication, covering the United States every I2 months from Louisiana to the British line, and from the New England states to Oregon. Although he has been up and down the coast a number of times, this is his first trip up the Columbia river gorge. Mr. Walker is a very pleasant man to meet.

here on a visit.

Citizens of Hood River will arrange to entertain the German farmers on their visit here June 4. It is the intention to ask the fruit growers of the valley to unite with the townscord of the valley to place in orchard, and Mr. Shonouse. says the balance of the 40 acres will be planted to apple orchard by this time next year.

Last Friday was as pretty a May day as one could wish for. The balmy spring air made it seem as if summer were at hand. Probably few people remember, but it was just such a beautiful day in Oregon. May 1, 1898, five years ago, when Dewey whipped the Spanish in

## ONLY EYE TESTER.

I wish to let the people of Hood River know that I have the only Eye Tester on the Columbia river between The Dalles and Portland. Come to me if you need spectacles, and have your eyes tested so that you can be suited in glasses. If your eyes are not both the same, it is sometimes necessary to have tenses ground, cylindrical and spherical. I have all my lenses ground by the very best optical company in America. They never full to give satisfaction. cal company in America. They never fail to give satisfaction. And I can sell them for less than half what you would pay in Portland, as my expenses are small. I have a way of fixing rimless lenses as my expenses are smail. I have a way of fixing rimless lenses that is my secret, by which they are not easily broken. For com-pound stigmatism no one can be suited with lenses unless their eyes are treated by a regular eye-testing instrument, same as I have in my store. C. H. TEMPLE.
