

**Odell Notes.**  
The picnic last Saturday at the Little White Store was a success in more ways than one. Ye editor and wife were here and renewed old acquaintances and seemed to enjoy the day. Quite a bevy of young ladies from Pine Grove walked over and spent the day. The crowd was not large, owing to the busy season, but those present had a right merry time. In the evening quite a party gathered around a bonfire, and not until 9:30 did they disperse. The small boy celebrated with fire-crackers, and everything passed off pleasantly. Come again.

Roswell Shelley and wife took their lunch basket last Sunday and passed a pleasant, quiet day at the falls. In the presence of nature, amid leafy bowers with none other than the voice of God in the rushing, roaring current as it leaps and tumbles down the rocky falls, there is inspiration, and to those who are tired either in body or brain, such surroundings are restful beyond words. Why not have a sacred concert or religious services some Sunday there? God is there. His voice and works are much in evidence.

The bridge at Winans is completed, and the Mount Hood Lumber company has made a good grade on the other side of the river. Mr. Winans will soon have a private telephone line from his place to town. Another evidence of the benefits of the phone.

The winning number on the quadruple plated silver set at the Little White Store was 167. Clara Crockett was the lucky fellow, and when the result was announced, last Saturday, he cheerfully treated the crowd to ice cream. Clara is all right, for he gave this handsome set of silverware to his mother, who is the proud possessor of it on earth. The young man who loves his mother will not go far wrong but what he will return and finally take the right road.

The Idaho ditch people about Odell taking water contracts for next year. People are responding liberally, for they realize the benefits of irrigation.

Rev. J. B. Holmes, state evangelist of the Christian church, began a series of meetings here last night. The music is furnished by Mr. and Mrs. George A. Webb. A good crowd is present, and close attention is given. There is little trouble in getting an audience which will listen if they are entertained.

Thomas Lacey is hauling lumber from the Mount Hood mill for a barn which he will soon build. Other improvements will soon be commenced on the corner at Odell.

The red man is much in evidence between here and town now, waiting for the berries to ripen. And it is refreshing to the old pioneer to meet these stately types that come from the Yakima and say, "Chahiam six? Cab mika illahce."

**A Startling Test.**  
To save a life, Dr. T. G. Merritt, of North Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes: "A patient was attacked with hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at Chas. N. Clarke's drug store.

**Glad to Get Back.**  
Charles B. Prathar and wife, who went East with the Grand Army excursion, last September, to Washington City, returned on Sunday's afternoon train. They have been living in Washington City all this time. Charley thought by being close to the pension office he could get an increase of pension, which he well deserves, but found that pensions cannot be any more readily obtained there than here, 3,000 miles from the pension office. The pension officials turn a deaf ear to the applicant who is there to plead his own case, and cannot be induced to act on a claim out of its regular order. Charley says that after the crowds that attended the Grand Army encampment left Washington the city seemed deserted, and there was no work to be had for an old man like him. With only his pension of \$4 a month for an income he found it being close to come his way. He had struck the "tide in the affairs of men which"—if it didn't lead him on to fortune and to fame—got him the wherewith to get back to Oregon,

where he feels satisfied he belongs, and from whence no promise of a pension claim, or any other claim, will ever enter his mind. At peddling flowers he made as much as \$9 in one week. As soon as he could scrape enough together to bring him and his wife back to Oregon, he shook the dust of the capital city, with its cold-blooded officeholders, from his brows and gladly boarded the train that bore him to the West. Both Charley and his wife are awfully glad to get back to Hood River. They still have 40 acres of land on Rock creek, on which they will make their home. He will prosecute his claim for an increase of pension from his home here and never again desire to wander among strangers.

Joe Wilson has something up his sleeve. He will let you know what it is next week.

I wish to let the people of Hood River know that I have the only Eye Tester on the Columbia river between The Dalles and Portland. Come to me if you need spectacles, and have your eyes tested so that you can be suited in glasses. If your eyes are not both the same, it is sometimes necessary to have lenses ground, cylindrical and spherical. I have all my lenses ground by the very best optical company in America. They never fail to give satisfaction. And I can sell them for less than half what you would pay in Portland, as my expenses are small. I have a way of fixing rimless lenses that is my secret, by which they are not easily broken. For compound astigmatism no one can be suited with lenses unless their eyes are treated by a regular eye-testing instrument, same as I have in my store.
