J. A. Westerlund of Chicago, one of George D. Culbertson and company's eastern connections, arrived in Hood River Friday, in charge of a party of Eastern home seekers. They were shown the valley by attaches of Culbertson's office. The party expressed great astonishment when viewing the hundreds of acres of growing strawberries, dressed as they are just now in their luxuriant foliage, which not only hides the big ripening berries that are known to be hid away beneath their ample folds, but covers the ground as well. The fine apple orchards were indeed a revelation to these people of Minnesota, Iowa and Illinois. "They are a marvel of beauty," said one, as he looked down between the miles of rows of an eight-year-old orchard, loaded with budding apples. Some of the party will return to locate here permanently, to engage in fruit and berry culture.

Ditch rumors are everywhere here, and forces of men are throwing dirt in all directions. The Hood River Irrigating company has slashed a mile and a half on their right of way south of the Jim English place, and the company is now waiting for the arrival of steam scrapers, when a large force of men will be put to work. The Valley Improvement company has completed that part of the new ditch which crosses Jasper Wickham's ranch. This canal is 300 feet above the old grade, and the tenms and scrapers are rapidly moving toward Ditch creek. And now comes the report that the Bone ditch will cross to the west side of the valley. Mr. Bone couldn't be seen to corroborate this statement, but it is from good authority that the information is secured.

W. Ross Winans is making calculations on a big celebration at the forks of Hood river on the 4th. The forks of Hood river can always draw a crowd on any 4th of July, as it is a favorite resort for Hood River people to gather on the 4th of July about one year ago. Good speakers will be there, and the glorious 4th will be celebrated in a way to make every one present glad to come and glad that he is a citizen of this great country.

Mr. Skinner is pleased with the country, and the Glacier would be glad to see him locate here.

A foreigner came over the waters and made his appearance in Moody's fish wheel below town last Friday. Inspection proved it to be a small mouth black bass, weighing about four pounds. While these fish are numerous in eastern waters, they are almost unknown here, though we are told two have previously been caught in Seufert's wheels. They would be welcome visitors in our waters as they make a toothsome dish.—Chronicle.

Master Elliott Stutes got a bad cut in the face from barb wire one day last week. He was putting the harness on a team of horses in the field at his father's place, when by some means he was thrown into the barb wire fence. He received an ugly cut just below his eyes. Had the wire struck him an inch higher it would have torn out his eye.

June 4 the Glacier buggy will be given away.

The Glacier man, senior, and his wife accepted the kind invitation of the Little White Store at Odell to attend the picnic held in the park by the store last Saturday. We enjoyed the nice lunch, with ice cream, prepared by Mrs. Shelley and spent a very agreeable afternoon in social chat with neighbors who gathered at the picnic. The young folks, mostly fair maidens, the fairest of Odell and Pine Grove, where the girls are noted for their beauty, all seemed to have a very enjoyable time. These picnics at the Little White Store are becoming popular. Mr. Shelley has located at a good point for business. About 25 mail boxes are located at this corner. Sherman Young, the rural mail carrier, made the trip from the post office to the Little White Store in one hour and ten minutes the day of the picnic. At this rate Odell is served with mail nearly as promptly as we are here in town. The Glacier man will be happy to accept another invitation to picnic at Odell.
