Wash Goods Sale

continued until further notice,

Yours Truly,

FRANK A. CRAM.

GOOD CLOTHING FOR BOYS

THE NEWPORT THE PRYON

E. W. Paget, of the firm of Paget & Clark, civil engineers and surveyors, of Portland, returned to Portland Monday afternoon, having completed his field work on a sewer project and making arrangements for the proposed city sewer system for Hood River. Mr. Paget says it will require two or three weeks to prepare plans, plats and estimates on the probable cost of the system, when he will read to the city council. He says Hood River is very badly in need of a sewer system, but thinks it matters are pushed that part of the main pipe and some of the connections may be put in before the rainy season begins next fall. Mr. Paget recently surveyed and estimated the cost of a sewer extension at Oregon City. He put the cost at \$15,100 and the contractors bid \$15,200.

The jury in the case of the State of Oregon vs. David Upton and William Upton brought in a verdict of guilty and the defendants were fined \$200 each. J. L. Henderson and Bennett & Sinnott were attorneys for the defendants, and District Attorney Meneses and A. A. Jayne for prosecution. The defense argued that the Uptons removed an irrigating flume from land on which they had agreed to let it remain. The defense asserted that the flume was to stand only if it was found to be on the property line.

A. L. Loomis, of the Lewis, Vidger, Loomis company, wholesale fruit and commission merchants of Fargo, N. D., was in Hood River Thursday of last week. Mr. Loomis was accompanied by his wife. They drove through the valley to view the strawberry fields and apple orchards, got a glimpse of Mount Hood through a rift in the clouds and a splendid view of snow-capped Adams. Mr. and Mrs. Loomis expressed themselves as delighted with the view. They left Friday morning by boat for Portland and intend to visit Puget Sound cities and North Yakima before returning to Dakota. Mr. Loomis' company has handled Hood River strawberries extensively for a number of years.

The Mount Hood school district cleared \$50 at a social Saturday night in Gribble hall. The proceeds will be used to buy a school house flag, song books and additional library books. An enjoyable programme was presented, and everything went off successfully. William Edick was the auctioneer. Miss Laura Hill, teacher in this district, has met the favor of both parents and students, and the directors have secured her services for another term.

Guy Crowe was over from White Salmon Monday. Crowe expects to open a general merchandise store about July 1. A. H. Jewett is putting up the store building. Mr. Crowe says things are lively at White Salmon. Work on the Regulator dock is temporarily suspended on account of high water. When finished this will be one of the best docks on the Columbia.

G. M. Wells, a new comer in Hood River, is so well pleased with the country that he wants his children to hear of it, and Saturday he called at the Glacier office and subscribed for the paper to be sent to his son in Indian territory. Mr. Wells is an old soldier, having served in the 38th Illinois, in the civil war. He regrets that he didn't strike this country 30 years ago.

T. W. Moore, last Friday, hired a strawberry picker who asked him to stand good for a tent at Bartness'. Mr. Moore hauled him out to his place Friday evening. The man made a bed of his tent that night and next morning he was taking the tent with him. He was a nice looking, light complexioned young man and wore a light overcoat.

The United Brethren ladies' aid society of The Dalles came down on the boat this morning to spend the day at the country home of Rev. and Mrs. J. T. Moore. They were joined here by ladies of Hood River women of the U. B. church, and it is needless to say the occasion was enjoyed by all.

F. C. Sherrier made the Glacier ferry with Thursday with some choice apples of the Hyal's King of the West variety. The apples were large, mellow and perfectly sound, and had been kept in the cellar all winter. They readily sold for \$1.25 a box.

The following students of Hood River school district No. 3 recently passed the 8th grade examination: Nellie Hoover, Marjorie Baker, Edythe Cooke.

At Work on East Side Ditch.
Editor Glacier: You have frequently made enquiries about our ditch. We have been going to build it for some time now, and we are glad to say that we are now making it. It is a ditch of 100 feet width, 10 feet depth and 1000 feet long. It will be a great benefit to the community.

Big Demand for Strawberries.
Strawberries leave Hood River daily by the carload, but the demand in Eastern markets for Oregon berries is so great that it cars a large quantity of berries to the coast. The managers of the shipping concerns state that the demand is better than ever this year and that the outlook never was more optimistic. The berries, too, are of excellent quality, the weather conditions being favorable for large, sound fruit. In fact some of the finest cars of fruit ever sent to the coast have been shipped this season. The farmers are packing their fruit in good shape. The daily shipments to date are as follows:

May 19	May 20	May 21	May 22	May 23	May 24	May 25	May 26	May 27	May 28	May 29	May 30	May 31
100	150	200	250	300	350	400	450	500	550	600	650	700

For Sale.
A good young 1100 pound team and harness; also a fresh cow, Durban and Jersey cross. Apply to East side, one lot north of Hartson's mill.

O. G. Chamberlain, formerly of Hood River, but now of Athena, sent in his renewal Monday for the Glacier. In his field Mr. Chamberlain says: "His numerous reasons for sending this money. Some of the reasons are that I want the Glacier, I want to pay for what I get and when I return to Hood River, as I expect to, I want a buggy to ride in. Wish I were there now hauling strawberry crates out home. Maybe I will be some day." The Glacier and his many friends will be glad to see Mr. Chamberlain return to Hood River.

The Regulator line is putting up a new dock at White Salmon and strengthening up the old one. A pile driver crew is at work under Foreman J. D. Magner. It is reported that a two-story covered dock will be built at White Salmon, which is now one of the best boat towns between Portland and Lyle.

It is cruelly to animals the way careless persons throw glass bottles along the roads, and it ought to be stopped. It is not an uncommon sight to see a pile of broken glass in the middle of the road at any time lately, and it would seem that there ought to be some steps taken to prevent this cruelty.

Over Eastman brought a youth's shoe to this office that was put into his wagon evidently by mistake by some one. The shoe looks like it had just been mended. The child can have the shoe by calling at this office.

Transfer papers carefully drawn by Barnes, notary public.

Write your insurance with BARNES the real estate man. McCormack mowers and rakes at Savage's. Mowers and rakes at Savage's. Rambler Bicycles at Knapp's.

William Rodenheiser of Mount Hood called at the Glacier office, last week, on his way home from Portland, where he was on a business trip.

Mr. Rodenheiser has one of the best farms in the Mount Hood district. He has 21 acres in clover. Clover in the Mount Hood district is good for five tons to the acre, two cuttings. Next fall he will seed six acres more to clover.

Mr. Rodenheiser has recently purchased a logging wagon to assist in clearing his land, and also a full complement of farming implements, and hereafter will do more farming than grubbing. Next week he will go to Sherman county to purchase a big team for general work on his farm.

C. G. Rakestraw of Canyon City, Col., is in Hood River visiting his father-in-law, J. N. Coufer, and if he finds a suitable location may decide to locate here.

Mr. Rakestraw's home is in the valley of the Arkansas river, one of the fruit sections of Colorado. He says peach trees in that country have to be buried every winter to protect against cold weather.

The trees are bent over, covered with straw and enough earth to weight them down, and left this way until the first of May. A grape basket of peaches sells for \$1.

The Dalles is arranging for a rousing celebration on July 4. There will be the usual patriotic exercises, plenty of sports for which liberal purses have been subscribed, a big parade in the morning and a ball in the evening. J. C. Hostetter is chairman of the celebration committee and E. A. French secretary. This will be the first celebration of the Fourth in The Dalles for years, and as Hood River will have no celebration this year many Hood Riverites will accept the hospitable invitation to go to The Dalles.

H. C. Bateham has closed out all his nursery stock, and the Columbia nursery has gone out of business. Mr. Bateham and family will rent their farm and go East about July 6. The farm is for sale, but if not sold it is probable they will all come back to Hood River before another year and make this their permanent home.

Mrs. M. S. Mourning, foster mother of W. W. Carrier, of Wayne county, Iowa, who comes here to start a laundry, is a sister of E. W. Winnans. Mrs. Mourning is visiting with her brother's family. She is hale and hearty at the age of 81 years.

Barnes the real estate man sold, on Monday, six lots on the hill belonging to J. E. Rand to A. W. Outhank, recently from New Jersey. Mr. Outhank is going to build soon and is to become one of us. He is very enthusiastic in his praise of Hood River and vicinity.

Mrs. J. F. Batchelder and sons, Miss Eboral and the twin sons of A. L. Mills, of Portland, left for their homes on Saturday, after spending a month at the "Firs."

Ain't it?
A good deal of this talk about getting the most out of low prices, the cheapest house on earth, etc., is nothing but wind—pure wind.

Foolish!
In us if we didn't tell you our store is full of new and useful things, and our prices are consistently little. We want your trade and bustle for it.

STONE NEWS.

11th SATURDAY SURPRISE SALE

Sun Bonnets—The good kind, complexion savers, worth more than the price for one day's wear in the berry patch. You'd better get one. Saturday 19c.
