EVENTS OF THE DAY

GATHERED FROM ALL PARTS OF THE TWO HEMISPHERES.

Comprehensive Review of the Important Happenings of the Past Week. Presented in Condensed Form, Most Likely to Prove Interesting to Our Many Readers.

Frost and rain have ruined thousands of acres of potatoes in Ireland.

Ashes from the volcano Sangay, in Ecuador, have been falling for several days.

Three days of rain have helped to dispel the fears of a crop failure in China.

Ex-President Arias, of Spanish-Honduras, has been placed in a dungeon by the successful rebel party.

The shipping traffic at Cienfuegos, Cuba, is tied up by a strike of lightermen for higher wages.

The large wholesale boot and shoe firm of Lamkin & Foster, of Boston, has been attacked by creditors.

Wall street will make an uncessessful campaign against the get-rich-quick concerns centering in that district.

A Chinese mandarin at Linchow has been executed for high treason, in supplying arms and ammunition to rebels.

Ludwig Lovi, formerly a member of the Hungarian diet, has been appointed emigration commissioner for Hungary.

The scaffolding of a bridge in course of construction near Rome gave way with the result that five men were killed and 20 injured.

A buoy thrown out by the Baldwin-Ziegler polar expedition at Franz Josef Land, June 11, 1902, has been picked up on the northeast coast of Iceland.

The people of Serbia take offense at the new king for promoting assassins.

Whitelaw Reid says the Monroe doctrine has been carried too far by patriotic fervor.

Eight cars broke away at Rawlins, Wyo., and collided with a freight train. Four men were killed.

Ex-Representative Lond, of California, is placed in an unenviable position in new postal scandal.

A Wilmington, Del., mob burned a negro at the stake to avenge an assault upon and murder of a 17-year-old girl.

Four men were killed and another fatally injured in a wreck on the Missouri Pacific near Jefferson City, Mo.

Convicts in the Colorado state penitentiary captured the warden's wife, and using her as a shield, made a desperate break for liberty. The two leaders were killed and the rest captured.

President Diaz, of Mexico, is sure to be renominated.

The sultan of Morocco lost 6,000 men in battle with rebels.

Five men were killed in a mine explosion at Blodsworth, N. M.

Servia is indignant over the withdrawal of the British minister.

The 1904 supreme lodge A. O. U. W. will meet at Chattanooga, Tenn.

The amount of relief money received at Heppner now totals over \$8,000.

More troops have been sent to Dubuque, Iowa, to prevent rioting by strikers.

A tunnel being constructed at Boston caved in, killing two men and fatally injuring a third.

One man was killed and another injured in Arizona in a dispute over cattle grazing grounds.

When Prince Henry of Prussia visits the United States next year he will also tour the Pacific coast states.

Bolivia has agreed to allow Brazil until October to settle the Acre dispute.

Wales had two severe earthquake shocks, but no great damage was done.

FROM MANY STATES.

Money for Heppner Sufferers Continues to Arrive Daily.

Heppner, Or., June 25.—Nearly \$7,500 swelled the total of relief donations today. It is gratefully welcomed, as the falling off in receipts yesterday and the day before gave some anxiety to the committee, for there is pressing need of every cent received or promised. The money comes from all over the United States, one man in a far off corner of Texas contributing \$1, while the city of New York sent a check for \$2,500.

But one more body was recovered today, bringing the total found to date to 178.

Now that the town is practically cleared and placed in a fairly sanitary condition, the executive committee has decided that no further outside workmen will be called for. The force of hand, now thoroughly organized, is deemed sufficient to complete the work. It is probable that the Portland contingent will soon be withdrawn, leaving only the Heppner force in town. Since the rush is over, it is felt that as much paid work as possible should be left to the Heppner people, giving them the opportunity to earn the money donated. The Portland force, under J. N. Davis, being very compact and as readily moved as a military camp, with cooks, tents, commissary and other equipment, it is possible that it may be sent down the valley to help clear up the drifts remaining.

C. C. Berkeley, the well known engineer, has been working a force of 210 men down the valley today. Sixty of these are Pendleton citizens. The others are mixed volunteers and paid men from various points. Mr. Berkeley estimates that with his present force 10 more days will be required to go over the valley. The first search not being as thorough, many drifts will have to be gone over again, as loose debris was thrown on top of undisturbed heaps. If the Portland contingent is put on also, the time for completing the task will be materially lessened.

A total of about five large carloads of general supplies, as food, bedding, clothing, etc., has been donated and shipped to Heppner since the flood.

CUBAN MATTER BEFORE CABINET.
Naval Station Will Be Secured in Advance of Payment Thereof.

Washington, June 25.—At the cabinet meeting today, Secretary Wilson submitted an elaborate set of plans for the proposed new building of the department of agriculture. Considerable modification of the plans submitted will be necessary in order to bring them within the cost proposed by congress.

Secretary Hay referred briefly to the pending treaty looking to the acquisition of naval stations in Cuba, and the settlement of title to the Isle of Pines. As to the naval stations, it appears that the treaty will be so framed as to permit of the acquisition of the land in the event of payment therefor, the question of price to be settled thereafter. This is necessitated by the fact that the Cuban government proposed to acquire the title from individual holders and transfer the land to the United States, and it is unable at this time correctly to estimate the value of the property required.

CHINESE CRISIS GROWS GRAVER.
Rebels Besiege a City and Will Take It Unless Help Arrives Soon.

Shanghai, June 5, via Victoria, B. C., June 25.—The crisis grows more grave in Kwang Si. The North China Daily News says today:

The local mandarins have received the following telegram from Kwang Si: "The rebellion is increasing and more formidable. The imperial army here is too weak to be of any use. The latest news is that the rebels have besieged the city of Chung Chou of the prefecture of Tai Ping Fo in Kwang Si, and that unless help is sent at once, it will certainly fall into the hands of the rebels. Wu, the prefect, has been sending an appeal for troops to the governor, Wang-Chi Hung, and he has ordered a force under Ho Taotai and Major General Fan to proceed to raise the siege."

State Flood Relief Plan.
Topeka, Kan., June 25.—Senator F. D. Smith will introduce a flood relief measure in the Senate, following the lines of the precedent established in 1901, when an appropriation was made to furnish seed for the settlers in Northwest Kansas who had lost their all by drought. He would require those to whom money is supplied to give a note therefor, without interest, due October 1, 1904, and when it is collected the money shall be returned to the state treasury. The plan will require a 1/2-cent mill levy to meet the appropriation.

Floods Wipe Out Towns.
El Paso, Tex., June 25.—The Rio Grande at Berino, N. M., is six miles wide. Santa Fe trains are coming in over the Southern Pacific tracks. It is reported here that the channel has changed twice in 30 miles above El Paso. The current crosses the Santa Fe track twice in less than a mile territory. All the Mexican settlements near Sierra Blanca, Tex., has been swept away. Berino has not been heard from for several days.

Minister Will Not Return.
New York, June 24.—According to information obtained by the World here, Senator Luis Corra, the Nicaraguan minister to this country, will not return to his post, and the Nicaraguan government will continue without a diplomatic representative at Washington because of the failure of the Nicaraguan canal project.

HAPPENINGS HERE IN OREGON

YEAR OF SUCCESSFUL WORK.
University of Oregon Expects an Increased Attendance.

The year just closed has been one of the most successful in the history of the University of Oregon. A hearty spirit of co-operation has existed between the students and faculty, and the work accomplished during the year speaks for itself. The classroom work of the students has been above the average, and cases of discipline have been few.

The athletic and other interests of the students body have been conducted according to the ideal of the university, and have been enthusiastically supported.

President P. L. Campbell has made many friends during the first year of his regime, and his efforts to build up the university and to bring it into closer touch with people of the state have been appreciated by the regents and by the general public.

The prospects for a large increase in attendance next semester are flattering. Already nearly 100 applications have been received for freshman standing, most of them coming from graduates of the different high schools throughout the state. The scientific and engineering courses will be better equipped than ever before, and the facilities for instruction in these branches will be very efficient.

The dormitory is being improved and transformed into a comfortable home for the young men of the university. The dormitory will be managed in the future by the university and a fixed rate of \$3.50 per week will be charged for board and lodging.

It is very encouraging to note that 85 per cent of the students who were in the university during the past year were actual college students and that the preparatory department, which a few years ago contained more than one-half of the students body, is gradually disappearing.

PRUNE GROWERS' FUEL PROBLEM.
Marion Cordwood Has Increased in Price and is Scarce.

An enormous prune crop and an unusually short supply of wood will make the fuel question an important one to fruit growers this fall. The curing of the hop and prune crops takes thousands of cords of wood each year. In the last year the amount of fuel cost has decreased, and it is very evident that the supply will not equal the demand this fall. Every cord of wood that comes to Salem is quickly bought and much of that still corded up in the country is already sold. The best quality of large fir is selling at \$4 a cord, whereas it usually brings but \$2.75 to \$3. The price of small fir has not advanced so much, as this class of wood is in less demand and more plentiful supply. The price has gone from \$2 to \$2.50 a cord, and it is expected that all this balance will be paid. There are bills outstanding which must be paid, but the balance to be transferred to the Heppner fund will be at least \$2500.

No Celebration at Portland.
The Fourth of July fund at Portland has been transferred to the Heppner relief committee, and no celebration will be held, except a sham battle at Irvington, for the benefit of Heppner. The amount paid in is \$2874.66, and about \$250 is outstanding. It is expected that all this balance will be paid. There are bills outstanding which must be paid, but the balance to be transferred to the Heppner fund will be at least \$2500.

Muddy Water for Twenty-five Miles.
Captain Howes, who has just returned to Astoria from service on the platoon schooner, says that, as a result of the present freshet in the Columbia, fresh and muddy water extends a distance of fully 25 miles off shore. This is undoubtedly what prevents the salmon from coming in in the expected large runs.

Light Plant at Fort Stevens.
Captain Goodale, constructing quartermaster United States army with headquarters at Astoria, has received authority from the department at Washington to advertise for bids for the construction of an electric light plant at Fort Stevens to light the grounds and barracks.

Old Pioneer Gone.
Captain Pioneer Sloan, an Oregon pioneer of 1850, first superintendent of the Oregon penitentiary, and an early chief of police of Portland, died at the home of Dr. E. A. Pierce in Salem last Sunday.

Men Needed on Jetty.
A force of 170 men, who are classed as unskilled laborers, is now at work on the extension of the jetty, and Assistant Engineer Hogardt, who has charge of the work, says he needs fully as many more, and at once. The men receive \$2.25 per day of eight hours and pay \$3 per week for board.

The labor is not hazardous or difficult; the only thing required of the men is that they shall be able-bodied, sober habits and willing to work.

Portland Real Estate Active.
An increase of nearly \$90,000 above the real estate transfers of the preceding week is the feature of the past week in Portland, among the realty dealers. The building permits for the same period show a slight decrease, but nothing abnormal when the ordinary fluctuations of the construction business are considered.

Organize a Fair Club.
Mrs. Emma Galloway, state organizer of women's Lewis and Clark clubs was in Monmouth last week, where she formed another club with a good charter membership.

PAYNE IS SAFE.

Roosevelt Will Not Allow Postmaster General to Resign.

Washington, June 24.—President Roosevelt is earning the reputation of standing by his friends. Attempts have been made several times to wean him from some of the friends of other days, whom it is thought were not desirable to be in close relations with him every time. Rather vicious attacks have been made upon Senator Lodge, and Roosevelt has been advised to have some other senator as his confidante, but all such advice has been rejected. Vicious attacks have been made upon General Leonard Wood, and Roosevelt has taken occasion to express his confidence in Wood. The same has happened in the case of a dozen men of less prominence who are close to Roosevelt.

Now it is reported that the president intends to stand by Henry C. Payne, postmaster general. No pronouncement is to be issued from the White House, but those who are very close to the president declare that Payne is not to be removed, and the attacks made upon him will not cause the president to accept his resignation if Payne offers it. It is said that there is a perfect understanding between Roosevelt and Payne, and that the president is satisfied with what his postmaster general has done, and is not going to be tampered by the vicious attacks that have been made in various newspapers upon Payne.

It is expected that when the investigation progresses somewhat further the president will take occasion to issue a statement concerning it, giving credit to whom due, for the work of investigation, and unless something happens that is not now in sight, to commend Postmaster General Payne. While this is quite freely discussed, it is impossible to say how true it is, as the president himself refused to discuss the matter, and no one officially connected with the administration will deny or affirm the statements.

NAVY WANTS PRECEDENT.
Tying Up of Galveston by Creditors Paves the Way for Trouble on Other Ships.

Washington, June 24.—Attorney General Knox has prepared today a stipulation in the nature of a bond which will be filed with Judge Richmond, of the Chancery Court of Richmond, practically the Government's interest in the cruiser Galveston. This stipulation or bond, it is asserted, will more than cover the claims of the creditors against the Trigg Company for work done and material used on the ship. After the stipulation is filed it is believed that Judge Grinnan will immediately release the ship to the government.

It was learned at the navy department today that far greater interests are involved in the decision of the question of the possession of the cruisers Galveston and Chattanooga than are represented by the actual cash value of those boats. It is regarded as absolutely essential at this stage to establish a sound precedent and determine the question of title to war vessels under construction, in order to protect the government's interests in the ownership of at least a dozen ships, including battleships worth nearly \$5,000,000, each. Separate action will be taken in the case of the Chattanooga, building at Elizabethport, and it is therefore probable that no further delays will be encountered in the completion of the Galveston and the Chattanooga, while any show of force or duress on the part of the National government will be avoided.

CUBA FREE OF YELLOW JACK.
Smallpox is Unheard of, but Tuberculosis Increases its Ravages.

Washington, June 24.—A copy of the monthly report of Dr. C. J. Finlay, chief sanitary officer for the island of Cuba, which has been received at the Cuban legation here, contains the following:

"The showing for 1902 is very satisfactory, not only in regard to the complete exemption from yellow fever and smallpox, but also in the number of deaths from malaria and in the total mortality. There has been no smallpox on the island since June, 1900, nor yellow fever since September, 1901, and the progress in the decrease in malaria has continued without interruption. The condition regarding tuberculosis, however, is not so satisfactory. There has been an increase of 5 to 6 per cent in deaths from that disease in each of the years 1901 and 1902, and at the present time the proportion of deaths from that cause to the general mortality amounts to over 16 per cent.

Miners Scalded by Steam.
Tamaqua, Pa., June 24.—As a result of two disasters which followed close upon another in the No. 4 and No. 8 collieries of the Lehigh coal and navigation company, in the Panther creek valley, three men are dead, one is dying and five others are seriously injured. Late last night, while a force of men were fighting a mine fire, the action of the water on the burning coal and rock generated a large body of steam, which rushed down the gangway, scalding a party of seven men, who were manning the fire hose.

Cable to Alaska.
Washington, June 24.—General Greely has been informed that 580 miles of the submarine cable to be laid between Puget Sound and Alaska have been shipped from New York to Seattle. The remaining 750 miles will be shipped from New York in August. This is the first long cable made in the United States. It is of the seamless rubber type. Captain Edgar Russell, Signal Corps, has started for Seattle to make preliminary arrangements.

BIG LAND FRAUD

NEWELL UNEARTH'S BIG SCHEME IN THE WEST.

People Are Being Located on Tracts That Are to Be Irrigated—Inside Information is Sold—Chief Hydrographer Says It Cannot Be, for Government Does Not Know.

Washington, June 24.—Hydrographer Newell, of the geological survey, who has just returned from an extended tour of the West, reports the discovery of a new and successful confidence game that has grown up under the national irrigation law, and which is being worked in Eastern Oregon. Speaking of his discovery Mr. Newell said:

"I was very much disheartened while in the West to find that associations for a consideration ranging from \$50 to \$100 are advertising, by circulars and otherwise, to direct homeseekers to vacant public land, which they allege is to be reclaimed by the national government. These associations make the showing that they are formed to represent homeseekers, and propose to give them inside information. They do not know what lands the government intends to irrigate, for no one knows, not even the department. They are simply defrauding the people."

"They are sending people out lands that will never be irrigated, either by the government or private enterprise, and I know of instances where these associations have sent people on lands on hillside, which could not possibly be irrigated."

"I want to stamp these associations as frauds and to warn all homeseekers to avoid them. One of these companies has headquarters at Omaha, and another at Pendleton, Or., but their operations extend over the entire arid West, and they are pretending to give inside information concerning arid lands in every state."

WILL REBUILD AT ONCE.
Leading Citizens Announce Plans—Funds Needed for Cleaning Up.

Heppner, June 24.—Standing on the streets and gazing over towards the hills, one can see dozens of tents, where the destitute and homeless have found quiet and rest. Banker C. A. Rhea expressed his intention of building several residences just as soon as building material can be brought in. J. L. Nutter and Borchers expect to build brick business houses on the east side of Main street.

Already the people are thinking and talking of rebuilding on a better and more substantial plan. W. O. Minor will rebuild his dwelling on his stock farm one mile away on Willow creek, but will not rebuild his town residence until later. Both houses were swept away.

Mayor Gilliam and the executive relief committee decided to renew an appeal for additional for additional funds from Portland and the Northwest country. The total payroll is now \$1,620 daily, with a large portion of the \$20,000 that has been contributed already paid out. The total loss of property will not be less than \$350,000 upon a conservative basis.

DREDGE ABOUT READY FOR WORK.
Grant Will Begin Operations on Columbia in About a Month.

Washington, June 24.—From advice received by the chief of engineers today, it is believed that the pumps for the converted transport Grant will be completed and ready for shipment about the end of June. The contracting firm in Baltimore has secured a perfect casting for the huge cylinder, and the rest of the pump is ready for assembling. The work of remodeling the Grant, so as to fit it for use as a sea dredge, is more than three-fourths completed at the Mare Island navy yard, and if the present progress is not interrupted, the ship will be ready to commence operations on the Columbia river bar not later than the first of August, and possibly before.

Pay for Disbarr.
Belgrade, June 24.—The promotions are announced of various members of the military deputation to King Peter at Geneva. Colonel Popovics, of the late King Alexander's palace guard, is created a General and First Aid-Camp to King Peter; Captain Lloyd-Stice, who opened the palace gates for the assassins of the late king and queen, is promoted to be a major, and Lieutenant Gronica, who was on guard outside the palace on the night of the assassinations, and who was a confidant of the conspirators, is made a captain.

Rating Each Other.
Pekin, June 3, via Victoria, B. C., June 24.—News has been received here that the famine in Kwang Si is growing worse by degrees. The starving population is estimated at 200,000 and daily numbers of deaths occur from starvation. The British authorities in Hong Kong, aided by public subscriptions, have been sending aid for two months. A Japanese report says cannibalism is being practiced and human flesh is publicly offered for sale.

Election Lief to People.
Jackson, Miss., June 24.—The state board of election commissioners today ordered a state primary election to be held on August 6. This action means that the next United States senator from Mississippi will be chosen by popular ballot. Senator Money, the present incumbent, and Governor Longino are candidates, and are now presenting an active canvass of the state.
