WOOLEN MILLS DESTROYED.

Fire at Oregon City Throws Three Hundred Out of Work.

Oregon City, July 15.—Fire last night destroyed property of the Oregon City manufacturing company valued at between \$75,000 and \$100,000. The loss is covered by insurance. Spontaneous combustion in a carbonizer in the pulley building is given as the origin of the fire, which destroyed the wool room, dye room and boiler room of the woolen mills. The company will immediately replace the burned buildings, but the blaze will necessitate suspension of mill operations for at least three months and the throwing out of employment for that period of about 300 people.

The flames were discovered issuing from the roof of the wool house at 9 o'clock but the building was already doomed, and the adjoining frame structures were soon ablaze. A general fire alarm was responded to by the fire department and citizens, who fought heroically. The main woolen mill building was on fire several times, but under the direction of Fire Chief Ronchich the structure was saved, although the interior was damaged some what by water.

Vigorous and timely action alone saved the property of the Portland flouring mills company. The large business at that early date may be gathered from the statistics which show that Benjamin Simpson from 400 logs, for which he paid \$3 each, manufactured 100,000 feet of lumber, which had a salable value of \$75 per thousand.

There were published in the county at that time two weekly papers, namely, Oregon Spectator, Territorial; and Western Star, Multnomah. An idea of the value and profit in the lumber business at that early date may be gathered from the statistics which show that Benjamin Simpson from 400 logs, for which he paid \$3 each, manufactured 100,000 feet of lumber, which had a salable value of \$75 per thousand.

With a stiff breeze from the north-east, it is considered remarkable that the Portland flouring mills were not burned. The firemen did most effective work.

SIX KOB A CAR.

Daring Hold-Up in Outskirts of Portland — One Man Wounded.

Portland, July 15.—Robbing Fred Day, whom they mortally wounded with a needless shot, taking \$800 in money, watches and jewelry from 40 passengers on a Sellwood car, then robbing a lone pedestrian as they left the scene, six desperate highwaymen last night made their escape and now bid defiance to the police.

On the crossing of the Southern Pacific at East Eleventh and Division streets, but half a mile from the business center of East Portland, the hold-up was committed a few minutes before midnight.

Daring and cold blooded, the highwaymen boarded an out bound car at 11:45, shot Fred Day in the back without provocation, and as he fell in their arms apparently lifeless, held him up until they could rattle his pockets, then let him drop in a pool of his own blood and turned their attention to the rest of the passengers.

At least 40 people were on the car, and every passenger was robbed of money and jewelry. Rings were jerked violently from women's fingers, and watches snatched quickly and thrust into the pockets of the highwaymen.

Not did this content them. Not nervous in the least over their bloody deed, they stopped in their flight long enough to hold up and rob O. N. Bitner on Milwaukee street.

POWER WARNING.

Age Gradually Saps the Strength of Pope Leo.

Rome, July 15.—Another remarkable rally in Pope Leo's condition occurred yesterday afternoon, after a morning in the course of which his holiness suffered spells of delirium and at times his strength sank to the lowest ebb, and now he lies in no worse condition than he was on Monday evening, except for the steady diminution of his strength.

Yesterday's rally was characterized by a complete recovery of his strength and consisted in getting out of bed, on which two hours previously the pope himself had made all preparations for death. Unsatisfied with this show of vitality, he transacted considerable business and had an interview with four cardinals, with whom he talked in an animated way.

According to the physicians the pontiff may die at any moment, even in the midst of one of those extraordinary intervals.

Stock Train Falls in River.

St. Louis, July 16.—A special to the Post Dispatch from Poplar Bluff, Mo., says: A freight truck occurred on the Iron Mountain railroad today between Rouden and Gurdon, Ark., south of this city. Two brakemen, a negro tramp and 35 carloads of horses and mules were killed. A boxcar jumped the track just as the train ran on the little Missouri river bridge, with such force as to wreck the bridge and allow the 35 cars of stock and men killed to fall into the stream below, a distance of 40 feet.

Last Attempt to Reclaim Dead.

Hanna, Wyo., July 16.—Preparations are being made to resume the work of opening the coal mine here and rescuing the dead bodies of the victims of the disaster of June 30. A party of miners arrived last night from Rock Springs, and others are en route from Diamondville, Cumberland and Spring Valley. These men have had years of experience in fighting mine fires, and they will make a herculean effort to extinguish the flames and reach the bodies.

Crown Prince Travels Incog.

Victoria, B. C., July 15.—The steamship Empress of India, which arrived today from the Orient, had among her passengers Crown Prince Rupprecht Marie Ludolph Ferdinand of Bavaria and the crown prince, who have been making an extended tour of the world on account of a scandal attaching to the crown prince which agitated Bavaria.

HAPPENINGS HERE IN OREGON

CLACKAMAS FIFTY YEARS AGO.

Old Records Give Interesting Figures on Wages and Assessments.

In rummaging about his office a few days ago County Clerk Slight unearthed some official records that contain some interesting statistics with reference to Clackamas county in the early '50s. They consist of some statistics compiled by Joseph T. Meek, who was then territorial marshal for Clackamas county in June, 1850. In that year the assessable value of property in this county was \$1,020,344, classified as follows: Real estate, \$336,659; personal, \$1,833,534. The schedule of wages paid at that time was remarkable. The average monthly wage to farm hands, including board, was \$80; the average wages paid day laborers with board was \$4, with out board \$6; average daily wages for carpenters, \$12; board per week for laboring men cost \$8.

There were published in the county at that time two weekly papers, namely, Oregon Spectator, Territorial; and Western Star, Multnomah. An idea of the value and profit in the lumber business at that early date may be gathered from the statistics which show that Benjamin Simpson from 400 logs, for which he paid \$3 each, manufactured 100,000 feet of lumber, which had a salable value of \$75 per thousand.

With a stiff breeze from the north-east, it is considered remarkable that the Portland flouring mills were not burned. The firemen did most effective work.

COLUMBIA COUNTY FILLING UP.

Recent County Seat Election Shows Large Increase of Voters.

The returns from the late special election indicate that the voting population of Columbia county has increased several hundred since the general state election held a little over a year ago. While it is true that much of this increased vote is due to the employment of an increased number of hands in sawmills and logging camps, many of them single men, it is also evident that there is a considerable increase in the number of families which have become actual residents.

County School Superintendent Copeland has received complete returns from almost every school district in the county, and now estimates that there are 250 more children of school age than were shown by the census of last year. Reports from the various sections of the county indicate that newcomers from the East are arriving, and the majority of them expect to become permanent residents.

Heavy Sales of Live Stock.

The sale of sheep, cattle and horses from the Oregon ranges this fall will be the heaviest in years. This is the opinion of C. J. Mills, who has charge of the stock department of the O. R. & N. He has been over a large portion of the ranges and reports that feed will be scarce this fall. Large shipments of cattle were made from this district last spring and Mr. Mills expects that still larger shipments will be made this fall. He says a large amount of stock will have to be sent out of the country in order to meet the demand for the winter crop. The shortage of feed in some parts is probably due to a lack of rain.

Map of State Institutions.

Secretary of State Dunbar is having a map made showing the location of the state institutions at Salem. Blue prints of the map will be kept at each of the institutions and the original will be kept in the Secretary's office. Although located "at Salem," the institutions are a long distance apart. Visitors can get but a vague idea of their location by such directions as are usually given, but by referring to the map, which shows all the roads and distances, a stranger would immediately understand the direction to take in going to any one of the institutions.

Union County Cherry Crop.

The cherry crop is just coming in in Union county. There were reports early in the season that this crop would be very short, but as with the other products of this county, the prospects get brighter as harvest time approaches. The indications now are that the yield will not be far below the average. There will probably be about 15,000 boxes of the fruit handled there this season.

Outlook for County Seat Fight.

County Judge J. B. Doan, whose home is at Rainier, says that St. Helens will have to receive over 1000 votes at the second special election on the first Monday in August to retain the county seat, as it is evident that 2000 votes will be polled as the outcome of the present contest. Judge Doan also expresses the opinion that Marshall and Oak Point precincts, which gave a part of their vote to Clatskanie, at the first special election, will go solid for Rainier.

Will Enlarge Baker City Depot.

In response to the crying needs of Baker City the O. R. & N. Company has decided to enlarge and improve the passenger and freight depot in that city. Material for the improvements is now on the ground and just as soon as the carpenters can be relieved from the Hepper branch the work will be commenced. The improvement will consist in the enlargement of the depot building, so as to permit of the addition of a separate waiting room for ladies.

Great Boon to Ontario.

The contract for building the new steel bridge across the Malheur river, about two miles below Ontario, has been let. The price is \$4100. This bridge will supply a long-felt need. It gives an opportunity for the people living on Deaf Ox Flat of coming to Ontario to do their trading without going about ten miles above Ontario to the Halliday bridge.

Surveying Soil of Baker County.

Charles A. Jensen, of the department of agriculture, bureau of soils, has been sent out to make a survey of the soils of Baker county. He has established his headquarters at Haines, and is now actively engaged in the work. It is thought this is one of the preliminary steps to government-aided irrigation.

HAPPENINGS HERE IN OREGON

LOG BOOM ON NORTH UMPQUA.

One of the most important steps made in the development of the lumbering industry in Douglas county was taken when the county court voted to grant a franchise to the Oregon Boom & Timber Company for cleaning out the obstructions in the North Umpqua river and preparing that stream for the floating of logs and timber. This franchise gives the company the right to use that stream in the manner mentioned from the most immediate line of the Cascade forest reserve to the main line of the Southern Pacific railroad at Winchester, five miles north of Roseburg. After the improvements are made the company is given the right to collect a maximum toll of 50 cents per thousand feet for floating logs for other persons in compensation for the outlay in improving the stream. The estimated cost of the improvements is \$200,000.

Besides improving the stream, the company expects to erect a sawmill of 100,000 feet daily capacity at Winchester, to be ready for use as soon as logs can be floated, and other parties also expect to erect sawmills and woodworking plants at the same place. New York capitalists are backing the enterprise, their representative, F. J. Blakely, having been here most of the time for the past two years.

PUBLIC LAND STILL OPEN.

Nearly 600,000 Acres Remain in Oregon City District.

The annual report of the United States land office at Oregon City has been completed. Fourteen counties are embraced in the Oregon City district and the report gives the following statistics as to area in acres appropriated and unreserved:

Surveyed, 455,048; unreserved, 141,000; total, 596,738 as against 537,279 surveyed; 161,190 unreserved; 896,469 total, as shown in the report a year ago. The 14 counties constituting the Oregon City land district are: Benton, Clackamas, Clatsop, Columbia, Crook, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Wasco, Yamhill and Washington. The total area of the land surface of these counties is 7,468,250 acres. The area in acres appropriated last year was 5,675,115, while the acreage under the same classification this year is 5,629,846.

Map of State Institutions.

Secretary of State Dunbar is having a map made showing the location of the state institutions at Salem. Blue prints of the map will be kept at each of the institutions and the original will be kept in the Secretary's office. Although located "at Salem," the institutions are a long distance apart.
