

FRANK A. CRAM,

ALWAYS UP-TO-DATE
announces

A MID-SUMMER SALE Of Ladies and Childrens Cloaks

Knowing the Cloak situation to be practically settled as far as styles are concerned for Fall 1903, we purchased through our New York agent 500 Ladies and Childrens Cloaks which were made up for last season's delivery but were late and retailers would not accept them, and they were thrown on the market at half price. Recognizing a good bargain, as the styles are so similar as to this season's garments, we bought this lot and they will be placed on sale FRIDAY, JULY 17, at One-half actual value; the qualities range from \$2.95 to \$25, and we cheerfully submit the line to the most critical examination. Every one needs cloaks for Fall, why not look ahead and save over half the price. We know the line is right else we would not dare stake our reputation by offering anything we were not absolutely sure of.

COME EARLY AND SECURE FIRST CHOICE

Yours truly,

FRANK A. CRAM

Young men belonging to the K. of P. lodge of Hood River have organized to give the city a band. They are getting ready for next year, when the G. A. R. encampment comes to Hood River. The young men should be given every encouragement. A town without a brass band is out of date entirely.

A. K. Fuller, who is now a resident and farmer of Morrow county, was in the city a couple of days last week. Mr. Fuller's place was within range of the Miller Hepper hood. From six acres he shipped 845 crates, an average of about 140 crates to the acre. Mr. Benson believes in the efficacy of thorough cultivation, and uses the horse cultivator both fall and spring. As a successful fruit grower, Mr. Benson can't be beat.

Robert Rand returned Monday from a two-day's trip down the Columbia. He left the steamer at Cook's landing Saturday morning and walked up to Commissioner Coulter's ranch, formerly "Frenchie Billy," or Wm. Dye. From here he went up the Little White Salmon to Wm. Orser's, where he spent two nights. Mr. Rand says Chenoweth is bound to be a great apple country. People who have never visited Chenoweth have no conception of the great scope of country to be settled up. Mr. Rand found the Columbia River Northern surveyors in the woods, but in conversation with the workmen he could secure no information as to what 140 surveyors are there for.
H. J. Byrrett, the champion fisherman of Hood River, spent several days last week on his old fishing grounds at Trout Lake. The fishing was not the best while he was there for the reason that the fish were called. The fish take the fly best when the wind is blowing. However, he managed to catch plenty for himself and the family he was stopping with, besides liberally supplying the baskets of some of the less fortunate Hood River sportsmen. He thinks they can catch fish. His best day's catch was 98. The Glacier force was remembered in the distribution of the big fat trout Mr. Byrrett brought home Saturday.
