WAR ON TURK.

Knights Templar Recall Old Wrongs and Consider Aid to Rebels.

Chicago, Sept. 17.—A 19th century crusade against their ancient enemy, the Turk, is being planned by the Knights Templar, with the Balkans, in place of Palestine, as the field in which they will protect Christians against the oppression of the infidels. Prominent members of the order are agitating the formation of a league that will send regiments of well drilled fighters to the aid of Bulgaria, and the crusaders of the 12th century may have their prototype in a movement of the Knights Templar against the troops of the port.

The plan has received consideration by the Chicago members of the organization for some time, and tonight was formally broached at a meeting of St. Bernard commandery. With 600,000 members under oath to "be ready to go and fight the enemies of Christ until to the death," it is expected that an international interest will be stirred in the movement, and 200,000 Knights from the United States and Europe may be massed in Macedonia to fight the soldiers of Turkey.

Among the 20,000 Knights Templar in Chicago, the outrage at Beirut and Adrianople have revived the spirit that led to the formation of the order eight centuries ago. At the convention at Peoria, leading members of the organization discussed seriously the expediency of issuing a call for volunteer regiments to be sent to the scene of depredations, with the result that tonight one of the eleven local commanderies was asked to take action. As yet the scheme is not perfected, but the general plan is to muster in regiments of Templars and send them to enlist under the Bulgarian government.

While it is possible that a Turk-Bulgarian war may even yet be averted, the probabilities of such an encounter were never greater than at the present moment. The note to the powers, the most decided step yet taken by the principal, was dictated not only by the alarming reports of wholesale massacres and devastation daily arriving, but even more by the indifference of the powers toward the severity of Turkey's repressive measures.

People here consider that the anxiety of the powers seems to be manifested chiefly in repeated admonitions to the port to suppress the revolution with all speed and energy possible.

Telegrams from Constantinople appear in this evening's papers, asserting that the ambassadors have urged the Sultan's government to suppress the insurrection without any considerations of mercy, and not to hesitate to burn and destroy the villages, or take any other steps which might be deemed necessary.

The Bulgarian ministry, in the face of the strongest pressure from within and without, has endeavored to maintain a strict neutrality, but it appears very possible that the government may now depart from this position.

HIGHER THAN THE LAW.

Porto Ricans Who Insulted Stars and Stripes Sent to Prison.

San Juan, Porto Rico, Sept. 17.—Edward Conde and Leonidas Gillo, two socialists, who spoke in a recent meeting of the American Federation of Labor, were put on trial today for insulting the American flag and threatening the life of Governor Hunt.

Their speeches teemed with abuse of the government. One of the prisoners was accused of advising the workmen upon the return of the governor on October 1 from the United States to parade carrying black flags and then to make demands upon the government. If these demands were refused, the speaker added, the alternative of killing Governor Hunt remained.

The other orator was said to have declared that the American flag was a rag fit to cover rascals and criminals. The accused vehemently denied the charges. They were tried before Justice Kopf, convicted of anarchist conduct, and sentenced to six months in prison.

Justice Kopf said the flag is higher than the law and anarchists need never expect any mercy in his court. The case has established a precedent as a Porto Rican official warning that attacks on the flag and government must stop. The Americans and loyal Porto Ricans are jubilant, while the socialists are angry at today's decision. The convicted men will appeal from the judgment declaring that Justice Kopf had no jurisdiction and there is no law covering the offense. The interest in the case is intense.

GALE COSTS FLORIDA MUCH.

Large Portion of Orange Crop is Ruined—Several Ships Lost.

Jacksonville, Fla., Sept. 16.—The wires south of Palm Beach and Tampa are still down and will not be in operation for a day or two. Further details of the destruction wrought by the hurricane have been received by mail and passengers on the incoming trains.

The steamer Inghina, from Galveston, laden with lumber and cottonseed meal, for Hampton Roads, went ashore near Boynton. The ship struck the beach with great force and broke into three pieces. The captain, mates, and 14 of the crew were saved. Nine were drowned.

The schooner Martha Thomas, lumber laden, for Baltimore, was wrecked nine miles south of Jupiter. The schooner is split in half. The crew was saved.

SMALL RISING IN CUBA.

Rural Guard Battles With the Outlaws, But Fails to Capture Them.

Santiago de Cuba, Sept. 16.—Reports of an armed body at Sevilla, near Siboney, this morning caused Governor Yeroles to send a force of rural guards, who located the party, which was of unknown strength, and attempted to arrest the men. A fight ensued, in which the commander of the rural guard was injured, but no cut-laws were captured. There was much excitement in the city this afternoon and wild reports of a revolution were current. Nearly all of the rural guards in the province were assembled here to receive President Palma, and 200 men were dispatched this evening to the scene of the trouble.

Crop Damage in Montana.

Butte, Sept. 17.—Reports today from outlying farming districts give conflicting details as to the damage done by the recent snow storm. Beaverhead county appears to have suffered the most, as hardly a third of the grain crop had been harvested when the storm broke, and for 10 hours the snow fell incessantly. The snow was wet, clinging to the grain and weighing it to the ground. Estimates of damage are placed as high as \$75,000 in that county. Many fruit trees were stripped of their branches.

Montana Grain Beaten Flat.

Butte, Sept. 17.—A Miner special from Dillon says: As later reports are received in Dillon, it is evident that the storm of last week was one of the most disastrous in the history of Beaverhead county, and all of the oldtimers assert that it is the severest September storm that has occurred in this country since 1855. A conservative estimate places the damage done to the grain fields of this county at \$100,000.

To Prevent Monopolies.

Wellington, N. Z., Sept. 17.—Premier Seddon has introduced a very drastic bill for the prevention of monopolies in New Zealand. It proposes to establish a monopoly court, with full powers of a supreme court, to investigate all complaints regarding the enhancing of prices by the formation of trusts and prescribes heavy penalties for offenders.

Guard Kaiser Against Anarchists.

Vienna, Sept. 16.—As a result of the Italian government informing the authorities here that three Italian anarchists have gone to Hungary, extra precautions were taken to safeguard Emperor William, who is to arrive tomorrow at Karapancsa, where he will go staghunting with the Archduke Frederick.

Afraid to Work in Tunnel.

Pittsburg, Sept. 16.—All but one of the missing men supposed to have been buried under the debris of the cave-in at the Green Tree tunnel of the Wataash railroad have been accounted for. Most of the Austrian laborers have refused to return to work, fearing another fall, and their places have been filled by colored men.

ASKS FOR RELIEF

BULGARIA SAYS POWERS MUST INTERVENE OR SHE WILL.

Turkish Government Held to Be Systematically Slaughtering Christians—Encounter Between Two Countries Were Never More Probable—Turkey Has Mobilized Entire Army.

Sofia, Sept. 16.—The Bulgarian government, through its foreign representatives, has addressed a note to the great powers declaring that the ports are systematically devastating Macedonia and massacring the Christian population. Further, it says Turkey has mobilized her whole army, which cannot possibly be for the sole purpose of suppressing the revolution. Therefore the Bulgarian government appeals to the humane sentiment of Europe to prevent the continuance of the massacre and devastation, and to stop the mobilization of the Turkish army.

The memorandum concludes with the plain statement that unless the powers intervene Bulgaria will be forced to take such measures as she may deem necessary.

While it is possible that a Turk-Bulgarian war may even yet be averted, the probabilities of such an encounter were never greater than at the present moment. The note to the powers, the most decided step yet taken by the principal, was dictated not only by the alarming reports of wholesale massacres and devastation daily arriving, but even more by the indifference of the powers toward the severity of Turkey's repressive measures.

People here consider that the anxiety of the powers seems to be manifested chiefly in repeated admonitions to the port to suppress the revolution with all speed and energy possible.

Telegrams from Constantinople appear in this evening's papers, asserting that the ambassadors have urged the Sultan's government to suppress the insurrection without any considerations of mercy, and not to hesitate to burn and destroy the villages, or take any other steps which might be deemed necessary.

The Bulgarian ministry, in the face of the strongest pressure from within and without, has endeavored to maintain a strict neutrality, but it appears very possible that the government may now depart from this position.

CONVICTS MAKE COIN.

Added Scandal in Pennsylvania Penitentiary—Investigation Going On.

Philadelphia, Sept. 16.—Following closely upon the exposure of gross irregularities in the cigar department of the Eastern State Penitentiary came the announcement tonight that illegal coinage of minor silver pieces has been carried on by convicts in the big institution. No details of the counterfeiting scheme can be learned from any of the officials connected with the prison, or from the government officers that have been assigned to the case. The fact that such a daring scheme has been carried out in the penitentiary was made public by George Vaux, Jr., one of the prison inspectors, who summoned newspaper men to his home and voluntarily made the disclosure. He gave out a brief statement, which is as follows:

"Dr. W. D. Robinson and Mr. Vaux, Jr., who are at present the visiting inspectors on duty at the Eastern State Penitentiary, made the statement that it has come to their official knowledge that within a short time an attempt has been made by certain convicts now confined in the penitentiary to manufacture counterfeit silver coins. But a few pieces were made, and a number of these have come into the possession of the inspectors, together with the metals and chemicals used, the attempt being nipped in the bud. The evidence in the case is not yet complete, but all that has been secured has been submitted to the United States authorities."

STIRS UP DYNAMITE.

Switch Engine at Bay City, Mich., Causes a Terrific Explosion.

Bay City, Mich., Sept. 16.—Clarence D. Hopper and Roy Boucher, switchmen of the Michigan Central railway, were instantly killed by an explosion of dynamite in a car in the yards at West Bay City today. Robert Roblin, engineer; William Noble, fireman, and John Christie, conductor, were injured, the latter so severely that he may die. All of the trainmen were residents of this city.

The explosion occurred as a switch engine was making up a train. The engine backed down upon several cars, the first containing 1,000 pounds of dynamite, a consignment of Lee-Metford rifles and a quantity of reduced charged shells for indoor practice, and it is said that the force with which it struck the explosive-laden car exploded the dynamite. Hopper's body was badly mangled.

A big hole was torn in the ground by the explosion, a score of freight cars demolished and nearly 300 houses in the vicinity suffered broken windows. The shock was felt three miles from the scene.

Large Canadian Deal.

Montreal, Sept. 16.—Among the conditions upon which the Dominion Iron & Steel company has agreed to surrender the lease of the Dominion Coal company is an agreement that the coal company shall pay to the steel company \$2,535,000 and assume the current liabilities for wages, supplies, etc., of the coal department of the steel company's business, receiving the current cash assets of the business. These should net about \$1,500,000. The coal company therefore pays about \$1,135,000 for the surrender of the lease.

Irish Party Will be Powerful.

London, Sept. 16.—John Redmond, M. P., speaking at Aghybeg, Wicklow county, Ireland, said the Irish party would find an entirely new situation when parliament next met. The English parties would be broken up, and the Irish party would wield a power such as it never before possessed. He contended a continuance of the policy which had resulted in securing the Irish land bill, which he valued above all.

Afraid to Work in Tunnel.

Pittsburg, Sept. 16.—All but one of the missing men supposed to have been buried under the debris of the cave-in at the Green Tree tunnel of the Wataash railroad have been accounted for. Most of the Austrian laborers have refused to return to work, fearing another fall, and their places have been filled by colored men.

NAMES NEW TERMS.

Russia Adds to Conditions of Evacuation of Manchuria.

Peking, Sept. 16.—Russia has presented to the Chinese government a new scheme for evacuation, originally fixed for October 8, and proposed certain new conditions in addition to most of the conditions concluded in the last scheme.

Russia now proposes to evacuate Niu Chwang and Monkden province October 8, Kirin province four months later, and the third province a year later. Among the new conditions Russia stipulates that she shall maintain military posts on the road from Taitshah, capital of Heilungkiang, to Biagovschchen and on the Sungari river. The reason Russia gives for maintaining these posts is that they are necessary to protect the commerce of the railroad. There is a vaguely worded clause prohibiting heavy duties on goods transported by the railway which the diplomats construe as exempting Russian goods transported on the railway from the surtax which the Japanese and American treaties substitute for the likin duties.

The scheme also contains a provision that Chinese troops shall protect the branches of the Russo-Chinese bank when necessary.

Prince Ching, president of the foreign board, has informed the ministers that he considers the Russian conditions to be very reasonable.

LIVESTOCK SHOW GOOD.

Breeders Bring Better Herds to State Fair Than Ever Before.

A better lot of dairy cattle were never brought together in the Northwest than those that are now to be seen in the livestock department of the Oregon state fair. For many years the most progressive and enterprising breeders and dairymen have been striving for something better than what they already had, and each achievement has but spurred them on to another effort.

The farmer generally was not appreciative of the endeavors of the breeders until in the last few years when dairying became a promising occupation, and farmers found that they must raise less wheat and more stock in order to maintain the productive qualities of their land. Now every one places a proper estimate on the value of the livestock breeders' services to the country as a whole, and great interest centers in the relative merits of the different cattle, individuals and herds shown at the fair.

Bybee Parts With a Big Tract.

The William Bybee tract of land, comprising nearly 4500 acres, changed hands last week. The Jackson county improvement company purchased 1000 acres of the land, which is that part known as the "Bybee desert." The price paid for this was \$3 per acre. The remainder of the tract, which includes the Antelope ranch of 1500 acres and the Rogue river ranch of 1100 acres, was sold to his son, Frank Bybee, together with about 70 head of goats, 20 head of cattle and 20 horses. The deal took place in Ashland and was the closing up of a deal which has been pending for several months.

Fine Salmon in River.

The fall fishing season has now progressed sufficiently to establish the fact that there is an excellent run of steelheads and silversides in the river of fine quality. Fall salmon have not yet put in an appearance, but there are some tules. The price paid is 3 cents per pound for steelheads and 1 cent per pound for silversides. Seaborg's cannery at Eagle Cliff is packing silversides and is receiving all that can be handled.

Anxious for Free Locks.

The Independence improvement league has been asked by outside valley towns to help in securing free locks at Oregon City. The people there are very enthusiastic in their support of this matter. It is stated that a considerable reduction in freight rates would be the result if this could be secured as there is a toll charged on every boat that passes through the locks at Oregon City.

Shortage of Men for Harvest.

There is any quantity of grain yet unthreshed and in the fields around Independence. And there is an extensive shortage of men to handle the threshing outfits. A number of the threshers have been compelled to close down. Some will not be able to get a threshing crew into their grain inside of two weeks.
