GASOLINE ENGINE WORK A SPECIALTY

Hood River Glacier

THURSDAY, OCTOBER 8, 1903.

Seen at White Salmon.

The good things in this life are always ripe if we are ready to harvest them. The first four days of this month were rich in pleasant associations and beautiful surroundings, as we were then visiting at White Salmon.

At the ferry landing near the saw mill we hoisted the white flag in token of surrender, and to signify our willingness to be taken in, and soon heard the puffing of the little launch that carried us safely across. The first person we saw as we started up the hill was a young man on a large rock eating grapes, and in answer to our inquiry if he didn't think it "cheeky to be eating grapes so near the highway," he came smilingly and presented each of us with a bunch of luscious grapes. I suppose he was pleased to find some one with an equal amount of "cheek."

We were made to feel at home at the Royal Anne farm of C. F. Waldo, on Nob Hill, Jewett avenue, facing the Columbia. Mr. Waldo's family consists of wife and daughter Edris E., father and mother Waldo, and Mother Waldo's sister. The aunt is seriously or rather painfully afflicted with a crippled right hand. Mr. Waldo has very much improved the place by good cultivation, setting out trees and plants. In a few years he will have a valuable cherry orchard.

White Salmon has scenic beauties of unsurpassed loveliness and grandeur, and among them Hood River is a star of dazzling brilliancy. On the 2d, Mr. Jewett took us and Mrs. Waldo to see the falls and to visit our Eden Dale ranch that we had never seen. We took lunch at the falls, where there is a new store kept by Mr. Williams, who seems to be doing a good business. His daughter, Miss Delia, prepared us some coffee that made our lunch complete. With the Jewett grapes, Mrs. Waldo's cake and Mr. Waldo's wine, it could not be called a dry dinner. The ride from White Salmon to the falls was an agreeable surprise, as we expected hills and bad roads, but found it an even grade and in good order. For about a mile along the precipitous bluff of the

White Salmon the ride was thrilling to a tenderfoot, and there was a disposition to cling to the harbor side of the seat; but we were assured that there had never been an accident there, and we left that part of the road with the hope that there never would be one.

Saturday, the 3d, we were taken out two miles northeast of White Salmon by N. M. Wood, to visit and inspect his farm. Mr. Waldo and family were the invited ones and they included us by courtesy, and we were glad to have been in the party. The soil on this place is of volcanic ash formation, of great depth and fertility, and I believe, as he has demonstrated, that he can grow strawberries here successfully without irrigation. He has on the upper part of his place a natural reservoir which, with a trifling expense, he enlarged so as to water 100 acres of land. We met there, besides Mrs. Wood, Miss Johnson, a granddaughter, and Mr. Cooper, a nephew of the Woods. Miss Johnson is teaching the White Salmon school. There is an interesting school at the falls, but did not learn the name of the teacher. The intelligent looks of the children and the picturesque surroundings made a pleasant impression. Sunday we spent at that model of summer resorts, the Jewett home. It is a garden of fruits and flowers, of fine trees and shrubbery, of pleasant walks and drives, of precipices and waterfalls, of grottoes and gorges of fresh-creeping depths, of magnificent views from the different towers and lookouts—a carnival of natural and artistic beauties, and I do not wonder that this popular place is so crowded with the elite and refined of Oregon's metropolis. Mrs. Jewett was absent at Portland, where her son is being treated at a sanatorium. I attended services at the Congregational church and listened to an interesting sermon by Mr. Garrison on the text, "For we know in part," etc. I was much pleased with the sermon but could not down the thought that my greater experiences made me know many who knew it all.

The outlook for White Salmon is very flattering, and I know of no place where investments of capital, skill or labor may be more safely made.

T. J. CUNNING.

A Love Letter.

Would not interest you if you're looking for a guaranteed salve for sores, burns or piles. Otto Dodd, of Ponder, Mo.

Oregon Nursery Co.

For first-class, whole-rooted and budded trees, send your order to the old reliable Oregon Nursery Co., at Salem, Oregon. We have yet for sale a few more thousand first-class Newtown Pippins, Spitzenburg, and a full line of all other varieties of apples and general nursery stock.

Now is the time to place your order, before all the best trees are sold.

writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica salve cured me. It's the best salve on earth." See at Chas. N. Clarke's drug store.

Indian Creek Bridge Completed.

Carpenter work on the Indian creek bridge was completed this week, and as soon as the grading and filling in is completed at the ends, the bridge will be open for traffic. This long-needed piece of work has been finally accomplished, and the public duly appreciates the new bridge. For this work the county court appropriated \$895. When this was found to be insufficient, an additional \$110 was raised by subscription. It is expected that the work of filling in the approaches will be done by the farmers of the valley under the

audited claims, paid teachers, and was in school room more than once while school was in session. We left the registering part for Mr. Roberts, he likes to see his name in print. EXH. COPPLE.

A Bleh Mine.

Ex-Lieut. Governor Thurston Daniels of Vancouver, Wash., president of the Humboldt Mining company of Spokane, has been in the city this week. He was accompanied by M. V. Rand of University Park, a former well-known townsman here. Mr. Daniels was here in the interest of the Humboldt company and has succeeded in interesting certain of our citizens in the enterprise. He has exhibited some very handsome samples of ore from the mine, which has the distinction of being the richest discovery at the surface ever made on the south half of the Colville reservation. The company is now selling stock, fully paid up and non-assessable.

HOOD RIVER SCHOOL REPORT.

Following is the report of the Hood River Public School for the month ending September 25, 1903:

TEACHERS.	PUPILS EN ROLLED		AV. DAILY ATTENDANCE		CASES OF TARDINESS	
	Boys	Girls	Boys	Girls	Boys	Girls
Mrs. Shaw first and second grades.	25	17	40	26.66	2.5	46.7
Miss Cotton, first and second grades.	18	15	27	20.41	1.5	25.8
Miss Groves, second grade.	18	15	27	20.41	1.5	25.8
Miss Deitz, third grade.	18	15	27	20.41	1.5	25.8
Miss Quinn, fourth grade.	21	15	31	23.85	2.5	34.4
Miss Cottle, fifth and sixth grades.	24	20	35	26.54	3.5	38.1
Miss Quinn, seventh grades.	27	20	39	29.23	4.5	42.5
Miss Shungel, eighth, ninth and tenth grades.	24	39	40	30.21	5.5	56.1
Total.	188	178	280	212.8	30.9	343.7

During the first two weeks of the month, the pupils of Miss Groves' room were in Mrs. Shaw's and Miss Cotton's rooms, which fact accounts for the average daily attendance in those rooms being greater than in the number of pupils enrolled.

supervision of the road supervisor. The bridge is about 30 feet high in the middle, nearly 300 feet long and 18 feet wide. S. H. Cox did the work under contract.

Cash subscriptions for this work are now due and payable at the bank.

District No. 5 Heard From.

There is nothing so hard to penetrate as the density of man's ignorance. Especially if it is willing ignorance; then it's bliss.

We thought by giving Mr. Roberts a little time he would see the fallacy of his statements; make the necessary apology for his misrepresentations, and that would end the matter, but he comes again but in a milder form. When our school closed last year, about the first of April, there was not a dollar in the treasury, and we owed our teachers \$210, with other debts for incidentals, but before the time for our annual report, June 15, we had received from our special 10-mill district tax, \$453.15. I want Mr. Roberts to understand that that 10-mill tax levied last January at a special meeting was entered immediately upon the tax rolls and paid into the county treasury last spring and apportioned to us in May with our per capita appointment, and before our report was made June 15, at which time we had a balance of \$510.51 on hand after paying what was due our teachers \$213.50 paying interest on bonds, interest to Mr. Heinrichs, renewal of our insurance and numerous other incidentals.

Mr. Roberts' statement should have stood this way, assuming that his figures are correct:

Received from county fund, last May \$420.40
Received from special tax, last May 15 132.75

Total receipts up to June 15, 1903. \$553.15
Disbursements—
Paid teachers balance on salary \$213.50
Paid interest on bonds, interest, Heinrichs and other outstanding bills as named above to the amount of 140.55

Total disbursements \$354.05
Balance on hand June 15, 1903. \$199.10

The trouble with Mr. Roberts is he didn't know he ought to look up a better source of information. The great trouble with the gentleman is he thinks we are going to receive those two large amounts after the 15th of last June, whereas the fact is we received them in our May apportionment, which enabled us to pay our indebtedness; and have a balance of \$510.51 on hand the 15th, of June.

We hope this explanation will be satisfactory and that we will hear no more about \$1,529.66 for school purposes this year. When it's all paid in that is to come yet, we will not have more than half of that amount.

When the proper time comes our district clerk will make his report. We are too busy just now attending to our own business to pay any further attention to Mr. Roberts. He still maintains that the directors didn't visit the school because he didn't find their names on the register. We visited school at the close of each school month in line of duty,

to drive its long-working tunnel, install machinery and otherwise equip the property. Other mines in the immediate vicinity are proving wonderfully rich with development, notably the Summit, Gold Cord and Malachite, which are believed to be on the Humboldt ledge. Mayor Boyle of Indianapolis, Ind., is at the head of the company which is putting in a tunnel within a mile of the Humboldt mine. At present stock in the Humboldt is selling at 15 cents a share. This stock also covers the company's townsite property, embracing some 40 acres adjoining the new town of Keller. Work on an extensive scale will be resumed within a few days at the Humboldt mine, and a great strike is predicted soon in the lower tunnel. The company has a little more stock yet for sale at 15 cents per share, and those who desire to get a block of it before the price advances should address Ex-Governor Daniels at Vancouver, Wash.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs, and colds. 50c and \$1.00 bottles guaranteed by Chas. N. Clarke, druggist.

The Strongest Man in Hood River.

It is not generally known that the strongest man in Hood River may see times when he feels his strength is not what it ought to be. Then is when he

are the oldest places taken in Hood River, and are also the best, as all of them have good cold springs on them.

We also have eight or ten large teams that we will sell in the next thirty days, including harness and wagons. Eighty head of cattle in good condition; two complete saw mills.

Do not think because we are offering to sell that we are going out of business, for none of this property is included in our lumber business. The Davenport Bros. Lumber Co. is incorporated for \$50,000, fully paid up. Their large mill is now cutting 40,000 feet per day, and included in this, besides their mill, is the water flume, timber, planing mill, lumber, etc. We are sure that this property will be sold inside of 30 days to men living right here in the valley, as the men know the bargains there are in it, and we are also sure they will not let the outside take up these snaps.

Call on Frank Davenport, in the old bank building, and look over the plat of the above lands.

ought to go to Williams' phagmacy and get the great nerve and body builders, Pains Tablets. These tablets are also entirely guaranteed for all forms of weakness, at 20c a box. Remember they are for any form of weakness. There is no manhood builder equal to them.

Resolutions of Condolence.

Hall of Idlewild Lodge, No. 107, I. O. O. F., Hood River, Or., September 10, 1903.—We, your committee appointed to draft resolutions upon the death of W. D. Casteel, who fell from a bridge and was instantly killed, beg leave to report as follows:

Whereas, It has pleased Almighty God to remove from our midst our beloved brother, W. D. Casteel, who was a faithful member, loyal to the principles of the order; therefore be it

Resolved, That, as a token of our esteem, the charter of this lodge be draped in mourning for the period of 90 days.

Resolved, That we extend our heartfelt sympathy to the bereaved relatives of the deceased brother.

Resolved, That these resolutions be spread upon the minutes of this lodge, and a copy be given to the Hood River Glacier for publication, and a copy be sent to the relatives of the deceased brother.

W. T. HIRSHBY,
H. R. ENTRICAN.

Card of Thanks.

We wish to express our heartfelt thanks to the brethren of the Odd Fellows' lodge of White Salmon, Wash., and Hood River, Or., for their kindness in caring for the remains of our dear brother, John. We are yours sincerely,

DAVENPORT BROTHERS

HAVE

\$60,000 Worth of Land for Sale Cheap, or Trade.

Also, HORES, CATTLE, WAGONS, MILLS AND WATER.

The Valley Improvement company have contracted for about all the water they can furnish without enlarging the flume. In order to enlarge the flume the Davenport Bros. have decided to sell land to the amount of \$60,000. This will be a bargain in lands, and will hold good for 30 days and then will be taken off the market. So you will "have to hurry" if you want some of it.

This sale will include the Barrett Ranch, the best farm in Hood River valley. Four thousand fruit trees; free water for a part of it; contains 180 acres; worth \$20,000, but will sell in a lump for \$16,000 cash. Or we will sell in 5, 10, 15 and 20 acre lots to suit the purchaser. This is a fine bargain at only.....\$16,000

Also, the famous ranch known as the old E. L. Smith place, near the Frankton school house. This place contains 150 acres, with several fine cold springs on the place, and nearly enough water to irrigate the entire land. Only 2 1/2 miles from town, with the Frankton school on the place, one of the best schools in the valley. This place will be sold in small lots and will all be gone inside of ten days, for.....\$15,000

Next comes the old Van Johnson place, and this will be included in this bargain sale. Worth \$4,000, but for the cash it will go for 3,000. This place contains 40 acres, 25 in clover and timothy, 500 bearing apple trees, house and barn, nice wood shed, cold spring at the door, good cellar, small hay barn, all the water

needed for the place from a private ditch from Ditch creek. You can not afford to miss this at.....\$3,000

Also, ten acres from the southeast corner of the old Sipma place, all cleared and seeded to clover and timothy. Plenty of water for irrigating the entire place, free. Well worth the price.....\$2,000

Another 160 acres on Bald mountain, for..... 2,000

Twelve hundred acres 4 miles from town, worth ten dollars per acre. We will sell for.....8,000

3,300 acres up around Parker Town. This land will be sold off in 80 and 160 acre lots for about five dollars per acre, or the whole tract for about.....\$15,000

M. M. Davenport has 13 acres for sale cheap. He will also sell his house and lot, with 8 acres, cheap.

We are not offering this land cheap because we are hard up, but to help out the Valley Improvement Co. The deeds to this land are in the name of the Davenport Bros., hence there will be no commission. All the lands selected by them for choice hay lands, as well as apples and strawberries, all having free water more or less. These places

are the oldest places taken in Hood River, and are also the best, as all of them have good cold springs on them.

We also have eight or ten large teams that we will sell in the next thirty days, including harness and wagons. Eighty head of cattle in good condition; two complete saw mills.

Do not think because we are offering to sell that we are going out of business, for none of this property is included in our lumber business. The Davenport Bros. Lumber Co. is incorporated for \$50,000, fully paid up. Their large mill is now cutting 40,000 feet per day, and included in this, besides their mill, is the water flume, timber, planing mill, lumber, etc. We are sure that this property will be sold inside of 30 days to men living right here in the valley, as the men know the bargains there are in it, and we are also sure they will not let the outside take up these snaps.

Call on Frank Davenport, in the old bank building, and look over the plat of the above lands.
