

RUBBERS

If you want first quality rubbers and want to KNOW they are "Firsts," you know we are here with the goods.

We have not as many as one single pair of second quality Men's or Ladies' rubbers in our store. There is no danger of getting "seconds" here.

The Difference

is not in appearance. They all look alike, but firsts are made of pure rubber mostly, and seconds are made of your old rubbers melted over and clay, mostly, with a little new rubber to give it some life.

The Result

you seldom get a poor pair of firsts; you VERY seldom get a good pair of seconds.

We carry firsts.

KNAPP'S

Council Grinds Out Goodly Grist.

With much talking and informal offerings of suggestions, reference to the city charter, motions and good-natured counter motions, the common council ground out a goodly grist of orders for sidewalks, street improvements, etc., at Monday night's session. There was a full attendance, with an exception in the absence of Councilman Gessling, who had sent in a written resignation as a member of the city lawmakers. Mr. Gessling's resignation was accepted to take effect when his duly elected successor shall take office, the second Tuesday in January, 1904. Mr. Gessling was asked by the Glacier Tuesday morning if he had any statement to make for publication, but had nothing to say.

Sidewalks were ordered built on the north side of Oak street, from Dallas corner to Park street, and from the bridge over Hood River on the south side of State street to Front street.

Sherman avenue was ordered improved through Winans addition, and River street widened to the full width. It was calculated that \$300 would be required to make the east end of Sherman avenue passable. Councilman Mayes said the property owners had

expressed a willingness to stand for a greater part of the expense, but thought it right that the city should help out to the extent of \$35. His motion to this effect carried.

Marshal Cuning mentioned at this juncture that subscriptions for donation work could be considered worth about one-half the stated amount. He also said that some one had thrown barrel staves into drain ditches he had dug, and caused the water to overflow and damage the streets. He is working to improve some of the bad places in the main thoroughfares.

On motion of Councilman P. S. Davidson, the street commissioner was voted an emergency fund of \$50 for fixing up the streets.

Councilman Prather, as chairman of the health committee, reported but one or two cases of contagious disease, and that the general health of the community was good. Members of this committee evidently overlooked or over-smelled the escaping sewerage on Oak street, which can be laid to the want of a sewer system.

The special sewer committee is still wrestling with Time and the matter of rights of way. Chairman Prather said a report on the matter could be made by

November 20, and moved that when the council adjourn it be until that date. Carried.

As Tuesday, December 8, is the date of the city election, on motion of H. E. Davidson, the city hall was designated as a polling place, and three judges and two clerks of election were appointed as follows: T. J. Cuning, D. A. Turner, H. J. Hibbard, judges; A. Winans and F. B. Barnes, clerks.

The matter of the road to the boat landing was referred to the committee on streets and public property with instructions to locate the road and to frame their report in the form of an ordinance.

Claims against the city were allowed and ordered paid as follows:

Don F. Sken, work for sewer \$10 00
E. R. Bradley, printing 2 50
J. E. Rand, nails 1 25
Geo. I. Slocum, stationery 4 50

Bills Allowed by the County Court.

The following bills were allowed at the November term of the Wasco county court:

J. A. Geisendorfer, med services \$7 50

E Locke, Robt Rand, same, each 2 00

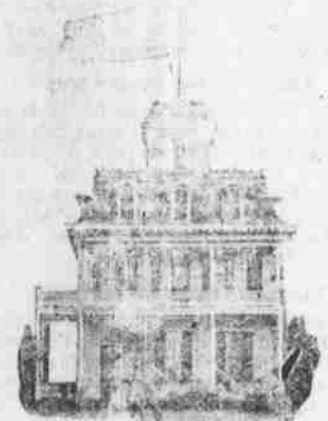

A Splendid Brand of Butter.

T. S. Townsend of the Townsend Creamery company of Portland was in Hood River a few days ago, looking after the butter and cheese trade of that company. While here he arranged with the McGuire Bros. to handle and push the sale of the Townsend butter.

This brand of butter is "White Clover," and T. S. Townsend made the remark that there was just one thing that every person in his employ had to do, and that was to keep the quality of the "White Clover" brand at the very highest standard. He also said that he could attribute his success in business to his continuous efforts in this direction, stating that his company would guarantee that any one buying the "White Clover" brand would always have good butter to spread on his bread. From the large amount of this butter that the McGuire Bros. are disposing of, Mr. Townsend's statements concerning the "White Clover" are evidently correct.

One 5-acre and one 10-acre clearing land contract to let. Inquire of John Leland Henderson.

PARADISE FARM RESORT
