The offices of the Electric Light and Power company in the building erected by Evans & Jayne, on River street, are up-to-date in every particular. The front room is the business office, the second room is private, and the third is a work shop and store room. Overhead is space for large signs and that have not yet been finished off. The business office and private room are decorated with handsome oil paintings, the work of Miss Lena Evans, who is Mr. Evans' assistant in the office. The work of Miss Evans in oil painting of landscapes, animals and flowers is first class for an amateur. Miss Evans should by all means continue her studies in the art line under some able instructor. She bids fair to make an artist of note. At the east end of the building Attorney Jayne occupies two rooms that are also up-to-date in furnishings, and would compare favorably with lawyers' quarters in a large city.

The Paris Fair has leased the adjoining building formerly occupied by O. B. Hartley's grocery store, and last week moved a portion of the immense stock into the new store room. This additional room was much needed. The passageway lets more light into the store and there is now a better chance to display goods. The Paris Fair people are very anxious that the Odd Fellows lodge carry out its intention of putting up a three-story brick on the ground where their present store is located. It is estimated that this would require an expenditure of \$10,000. There is every reason to believe it would be a safe and paying investment. The Paris Fair enjoys an extensive trade and reports business exceptionally good this fall. The goods of this firm are purchased direct from the manufacturers, and this enables the store to maintain such a record of low prices.

An accident happened near Viento, Saturday, by which a Japanese was killed by the cars. He was found by the section boss lying on the railroad track with his head crushed and one leg cut off. Two horses of the Mount Hood Lumber Co. met death Tuesday afternoon by falling over the right bank at the falls of Hood River. The horses were being used to break the big log jam in the narrows by means of block and tackle. The jam suddenly gave way and the horses were carried backward over the bluff, striking on the rocks 100 feet below. E. T. Winans brought the news of the accident to the Glacier office.

Edward M. Swain, who came to Hood River last spring as secretary for the promoters of the late Hood River Irrigating company, is now in Southern California, where he is writing in behalf of his health. Miss Clara Tucker of Roseland, La., niece of Judge L. Harker, writes in a letter to the judge that she showed a copy of the Glacier to a gentleman friend who operates a type-setting machine on the New Orleans Times-Democrat. At the Electric Light company's office in the city last week, it was announced that the company is a great deal of attention. It is one of Bartness' calendars with a picture of two little boys embracing each other. It is the way the boys are named that makes the picture unique.

Crockett, one of the first settlers of the Puget Sound country, died at his home in Kent, Wash., November 27, 1903, aged 84 years. He crossed the plains in 1843, settling first in Oregon, and moved to the Sound country in 1845.
