EVENTS OF THE YEAR.

1903 LEAVES DARK RECORD IN MANY RESPECTS.

Deaths of Rapine and Violence and Far-reaching Natural Disasters Over-shadow Its Showing of the Fruits of Industry and Peace.

The year 1903 has been marked by massacre, murder, disaster and violence that are in sharp contrast with the underlying spirit of progress that is steadily making for friendliness and better mutual understanding between individuals and nations. Religious intolerance, political intrigue, class hatred and convulsions of nature are the causes upon which the dead responsibility rests.

In May occurred the great massacre of Jews in Kishinev, Russia. A month later King Alexander and Queen Draga of Serbia were murdered in their palace in Belgrade by their own soldiers and officers. Strikes and other labor disputes have been responsible for a good deal of the nation, hurricanes in the South Sea Islands and an earthquake in Asiatic Turkey, have caused the loss of thousands of lives and much valuable property.

The unflinching course of commercial achievement has been evidenced by the opening of two new cables beneath the Pacific ocean, successful practical tests of wireless telegraphy, and the establishment of a Department of Commerce in connection with the government in Washington.

The year's roll of deaths includes ecclesiastic authorities like Pope Leo and Canon F. M. Farrar, statesmen like Lord Salisbury of England and ex-Premier Sagasta of Spain, thinkers like Herbert Spencer and Prof. Theodor Mommsen, public men like former Postmaster General W. S. Bissell, religious workers like Mrs. Emma Booth Tucker, and inventors like R. J. Getting.

The events of the year 1903 are briefly summarized below.

EVENTS OF THE DAY

WARRIORS AT HAND.

Japan Ready to Land Troops in Corea—Russian Troops to Scene.

Paris, Jan. 7.—The chief correspondent of the Paris edition of the New York Herald cables as follows: "Eight thousand Japanese troops are ready to land at Masampo, and their landing will probably mean war."
"A regiment of Cossacks is expected at Port Arthur. Reserves are being removed from Blagoveshensk, the capital of the Amur province in Eastern Siberia, to Teitelshar, in Manchuria."
"The position of the troops in Manchuria is being rearranged, but their location is kept a secret."

Russian Troops to Corea.

St. Petersburg, Jan. 7.—A semi-official dispatch to a news agency from Vladivostok, and private information from Mukden, states that, owing to disturbances between the Koreans and the Japanese in Corea, the Russian Second Rifle regiment, at its full strength has been dispatched to Corea, in order to protect Russian interests there.

American Marines to Scene.

Washington, Jan. 7.—The navy department in receipt of two cablegrams from the commanding officer of the United States steamer Vicksburg, at Chemulpo, dated the 4th and 5th inst., respectively, as follows: "After consultation with the American minister, we are of the same opinion. The aspect of affairs at Seoul is very grave. There is much fear of a riot by Korean soldiers. I have completed arrangements to send a company of marines overland by railroad at the earliest moment; also about 35 men and field guns from this vessel, at Chemulpo, if deemed necessary."
The second message is as follows: "Two officers and 36 men left at 10 A. M. for Seoul. The remainder of the guard is prepared if there is any demand. There is little change in the situation."

British Seas War in Move.

London, Jan. 7.—"Nobody will suspect the captain of an American man of war of being a scheming alarmist," says the Standard editorially this morning.
This sentence expresses the view taken by the press of Great Britain of the grave condition of things in the Far East, as revealed by the fact that the United States government finds it necessary to send marines to Seoul for the protection of American interests. While it is still hoped that a peaceful issue may be found, this action of the United States is held to indicate that the view of the situation taken at Washington is that the crisis is drifting rapidly to the danger point. The action of the United States government is generally approved.
The Morning Post says editorially: "The landing of American marines proves that the United States is not watching the Far Eastern imbroglio without intelligent interest. We hope they will be accompanied by British marines."

KANSAS TRAINS COLLIDE.

Topeka, Kan., Jan. 7.—Rock Island passenger train No. 1 collided with a freight train about two miles west of Topeka about 1 o'clock this morning. Engineers Reardon and Benjamin were killed. Over a dozen passengers were fatally hurt.
All the passenger coaches except the last two Pullmans were piled up in a heap. The two trains met squarely in a head-on collision.
Wrecking crews have been sent to the wreck from Harrison and Horton. Assistant General Superintendent Sutherland said to the Associated Press: "We have no positive information at this hour about the wreck other than that both engineers and both firemen are killed. There are also some passengers killed and injured but we do not know how many."
"The last report we got from Willard was that many people were yet under the wreckage and that all the cars were wrecked but two."

Early Hearing to 1905 Fair.

Washington, Dec. 7.—Chairman Tawney, of the house committee on industrial arts and expositions, today notified Representatives Hermann and Williamson that he would take steps immediately to arrange for a hearing on the Lewis and Clark exposition bill. He will endeavor to find a day on which the members of his committee will all be able to attend and hear what arguments the representatives of the Lewis and Clark exposition have to present. It is probable that some date next week will be best.

Harbor Frozen Far Out.

Baltimore, Jan. 7.—Today is the coldest of the present winter, the thermometer having dropped as low as 2 degrees above zero. In the suburbs the mercury went to 6 below this morning. At Hagerstown, weather records for 20 years were broken when the mercury reached 26 below zero. Sharpshoot was the coldest place in the state heard from today, thermometers registering 20 below. At Annapolis the harbor is frozen far out into the bay.

Japan Will Keep Orders Secret.

Tokyo, Jan. 7.—An extra edition of the official Gazette has been issued containing army and navy orders prohibiting the publishing of any reports of the maneuvers movements of troops or war vessels from this time on. Otherwise the Japanese authorities are not interfering with press messages.

HAPPENINGS HERE IN OREGON

EXPENSES FOR YEAR.

Will Be the Largest Ever Known in the History of the State.

Salem—The expenses of the state of Oregon for the year 1904 will be \$1,498,310.10. Of this amount \$273,310.10 will be derived from miscellaneous sources, such as the corporation tax, insurance tax, fees, sales of books, etc., and the remainder, \$1,225,000, will be apportioned among the several counties, to be raised by them by direct taxes and to be paid by them into the state treasury.
This expense account will be the largest in the history of the state, the nearest approach to it being in 1892, when \$1,121,345.51 was raised by direct tax. The magnitude of the revenue to be raised in 1904 is due largely to four appropriations, the Lewis and Clark appropriation, \$250,000 of which will be raised this year; the Portage railway appropriation of \$165,000, and the Cello canal appropriation of \$100,000 and the Indian war veterans' appropriation of \$100,000. If these four unusual appropriations, amounting to \$615,000, were deducted, the total expense would be but \$858,000, and the amount to be raised by direct taxation would be but \$610,000. Aside from the unusual appropriations, the expenses of the state are lower than for several years past.
On an assumed valuation of \$185,000,000, which is approximately correct, the revenue of \$1,225,000 will be at the rate of not quite 7 1/2 mills on the dollar.

STATE LANDS FOR SALE.

Two Hundred and Fifty Thousand Acres Open to Settlement.

Salem—The state of Oregon has for sale some 250,000 acres of school lands, mostly in eastern Oregon. This land consists of the 16th and the 30th sections in each township, where not already sold. With the exception of land which shall hereafter be surveyed, all this school land is offered at the uniform price of \$2.50 per acre. Land hereafter surveyed will be sold to the highest bidder, but no bid of less than \$2.50 per acre will be accepted.
Any person over the age of 18 years, who is a citizen of the United States, or who has declared his intention to become such, may purchase 320 acres of school land. The applicant must declare under oath that he wants the land for his own use, and that he has made no contract, directly or indirectly, to sell the same. No residence upon the land is required. Payment for the land may be made in five annual payments of 50 cents per acre. The first payment must be made when the application is filed. Deferred payments draw 8, 7, and 6 per cent interest.

Real Estate Business in Marion.

Salem—The increased activity in real estate transfers in Marion county in the last few years is indicated in a measure by the increase in the amount of fees collected by the county recorder of conveyances. Three years ago the fees for a year amounted to \$2,776.60. Last year they were \$3,893.40, and for the year just closed the recorder collected \$4,195.30. Not only has the number of conveyances been greater, but the consideration of the transfers has been much larger.

Healthy Fall Wheat.

Pendleton—A. L. Knight, one of the heavy wheat buyers of this place, has returned after an extended trip through the wheat belt of the country. He said: "The fall sown wheat was never in a better condition than at the present time. It has been growing all fall. There is more moisture in the ground now than there has been for many years. Last year the wheat was killed by weeds, but this year there is no such bother."

PORTLAND MARKETS.

Wheat—Walla, Walla, 73c; bluestem, 78c; valley, 79c.
Barley—Feed, 29c per ton; brewing, \$20.50; rolled, \$21.
Fl
