Idaho Senator Makes His Maiden Speech -Stone Talks of Panama

HEYBURN URGES LAND REFORM.

Washington, Jan. 28 .- The time of

the senate today was again divided between consideration of the Panama question and other subjects. There was only one speech on the canal, and it was made by Stone, of Missouri, who spoke to a resolution directing the senate committee on foreign relations to make an investigation into the Panama revolt. He contended the circumstances indicated complicity on the part of the United States in the secession of Panama, and urged that in the interest of the country's good name, all the facts should be known.

Heyburn, of Idaho, made his first resolution introduced by himself pro-hibiting railroad companies from taking up land in a solid body in lieu of

land in forest reservations. A number of bills were passed including one for a memorial bridge across the Potomac river at Washing-

The Sultan of Morocco Finally Gives

\$50,000 to the St. Louis Fair. St. Louis, Jan. 28 .- In the list of nations which are to be represented at the world's fair by national pavilions, Morocco probably will be missing. Secretary Stevens states that it is not now expected that Morocco will officially participate by erecting a pavilion, but that some use, doubtless, will be

made of the \$50,000 appropriated. According to information received by the exposition officials from Commissioner J. W. S. Langerman, who recently returned from a mission to Morocco, being empowered as the sultan's commissioner on his return, the amount appropriated by that potentate was \$50,000. Anent this appropriation an interesting story is told by Mr. Major Hoyt Sherman, brother of Langerman. The amount was not given with very good grace, according day's work was done, were both de-
