The invitation extended to the state encampments to come to Hood River was given after interviewing the lead ing citizens and business men of ou town, who were unanimous in promi-ing substantial aid towards the entertalounent of the delegates of the three orders and their friends should they favor us by coming here. It is therefore with a full understanding that the post will be backed by the united sentiment of the community that the committee of arrangements enters upon its duties. This will be the last time a state encampment of the Grand Army of the Republic will honor Hood River as the place of meeting. A few mon years, and a few more country townswill be thus honored, and then the city of Portland, where the greates! number of old soldiers will reside, will be made the permanent meeting place for the annual reunion of the Grand Army of the Republic until the state

Lands for Sale.

The total taxable property of Wasco county is \$4,640,800, and the levy of 27 mills will provide a revenue of \$125,301. Of this amount, according to figures furnished by the Mountaineer, \$28,665 goes to the state, \$30,036 to the public school fund, \$13,922 for roads, leaving \$53,384 for county purposes, if the entire tax is collected. The average annual expenses of the county are about \$36,000, hence, if all the taxes are, collected and no unforseen expenses are incurred there will remain a balance of about \$17,000 to go toward reducing the county debt.

Chris Dethman wished the Glacier to state that the money expended on the East Side grade was done under the su-pervision of the county court and not by there should be a statute in every state the road committee. This piece of work requiring all school children to submit was a costly experiment in road making, but is an object lesson in proving that clay piled on rocks makes a very poor road bed.
