IT'S UP TO THE FARMERS.

The solving of the ditch problem lies now with the farmers. Frank Davenport, president of the Valley Improvement Co., has submitted to the farmprice is reasonable, considering what another in its place would cost. The farmers must act if they want the ditch. Repaired to supply 1,000 inches of water this summer, it will produce \$100,000 in strawberries, apples and clover. A new and larger ditch able to cover more land would be preferable, but would the sacrifice necessary to trons of his ditch a 10-days' option on get it pay? It is a serious problem the same for \$46,000. In additaken from any point of view. Time is growing more and more precious. The farmers must act wisely and cents on the dollar, could be secured quickly, but not without understand- for \$2,184, making a grand total of ing. Conditions in Oregon have heretofore prevented the placing of the state university on a real university basis, but now that this is accomplished the institution can rightfully ask for more liberal appropriations from the legislature. Oregon has never shown the liberality to her educational institutions that California has, or the much younger state of Washington.

This and badly skinned water consumers of is a reduction of \$5,550.93. And this, the valley and parties who seem to taken from \$17,358, amount of his valthink their knife has not yet reached the hearts' blood of their tortured victims. Right here let me compliment the Glacier for its usual mildness in anying "Mr. Chambers was honest and their stock."

The committee is of opinion that the compliment that the saving "Mr. Chambers was honest and their stock." endeavored to be fair in the matter, as consumers will be double what it would the Glacier truly believes." This was like boring a bull for the hollow horn possibility of competition. If the conand then administering an oplate to sumers take this proposition at \$46, remove the pain—you cause the animal to switch his tail under many other in shape to bring our 2 500 inches \$20, pins that went through his integument and must have caused an internal pay one-third of same, or \$22,000 at 8 groaning equal to that of the armed per cent interest would mean to them moors secreted in the wooden horse when the halberd of Laccoon stood quivering in the side of the "Divine Art of Pallas." The Glacier finds a estimate per annum of \$3,000. If 2,000 precedent also in the oration of Mark inches of water are used, the annual when, holding up his bloody mantle 2,500 inc. and pointing to the blood-stained rup-per inch. ture in the garment, cried out: "See through this horrid rent went Cassius dagger through!" And then to allay a storm of indignation from Cavsar's friends, screamed out, "But Cassius was an honorable man." The honest Rome only claims to be infailible.

claims to be infallible in doctrine when sitting in "St. Peter's chair." The pope forgets that St. Peter had no chair, but sat on the gunnel of his fishing smack, or when he went ashore to roast a shad, he, like Coxey, stood up or sat down on the grass. Now to business. Before the Valley

Improvement Co. started in business, I paid them \$300 in cash and \$10 every year since for a perpetual right to 10 rights in this great and momentous ques inches of water for which I have their written contract. The company has depend how many of you will own your three to complete the same, and to rerefused to furnish me all the water I own homes five years hence. Your de-paid for and invariably refused to turn cision will stamp the seal of condemna-system, as compared to the lowest price to n till long after the time they agreed tion for all time upon the usurper of in-to do so. If the company fails or re- dividual rights, or it will advertise you. This committee is supposed also to make fuses, why not force this company into bankruptcy, or what would be better, perhaps, throw the ditch into the hands will in unmistakable tones notify the company buys it, let the fruit men sue the company for \$100,000 damages they have sustained for violating contracts the company has made with them in not furnishing the water paid for. This may not be the best course. Before formulating the plan of procedure I should wish to consult a reliable lawyer. We want no shysters in this our hour of extremity. We can trust Judge Bradshaw. He may be a little slow but he will decide according to law and evidence. I have paid my \$300 in advance, paid my \$10 every year for repairs according to a written contract. hody is responsible, either Chambers or Frank Davenport or somebody else. It is a question with me whether Chambers is really a member of the corpora-tion or a money lender and holds a mortgage on the plant. It is the busi-ness of a lawyer to untangle the snarl and get hold of the right end of the string. In either case, or any case, our rights under the law are plain, and let us all unite and enforce them. To allow a corporation to violate its contracts and go unwhipped of justice is setting a lad example to dishonest renters and others of the india-rubber conscience kind. We need no more instruction or ers a 10 days' option on the ditch. The examples here, for we have had enough and to spare already, as God knows.

As Chambers has already received a coat of "honest" whitewash, it is now in order for Frank Davenport to walk up and receive two coats.

And I, for one, propose to use my voice and give my support to a proposition which will secure a permanent settlement of this vexed question. As a people we have been sleeping upon our rights. Our patience and forbearance with the careless treatment of the past has not a parallel in any irrigating distoric in the state.
