The supper and entertainment given by the teachers and pupils of the public school at K. of P. hall Saturday evening was a great success in every way. The patrons and friends of the school as if no one in town, or the school district, for that matter, was missing from the tables and the entertainment that followed that about all were there. Miss Minnie Schungel and her corps of teachers are to be congratulated upon their ability to entertain. The programme from the "grand opening" to the label of recitations, was vociferously applauded in every act.

Rev. Clarence H. Lake of The Dalles has accepted a call to the St. George's Episcopal church, of Roseburg, to succeed Rev. John Dawson, recently transferred to East Portland. Rev. Lake will assume, May 1, the rectory of this mission, which also includes Oakland and Cottage Grove. Rev. Lake is 32 years old. He is an 1894 graduate of Yale, and from the Berkeley Divinity school of 1898. Although a young man, he is highly spoken of as a successful minister. His mother and sister will reside with him.—Chronicle.

C. W. Murphy of Dukes valley was a caller at the Glacier office Saturday. He reports the roads in bad shape, and thinks that now the water question seems to be settled for Hood River valley, our citizens should turn their attention to the roads for their betterment. He thinks the rock crusher owned by the county could be put to good use in Hood River, where but so much good material for road building.

The Women of Woodcraft had a very pleasant gathering at their social and entertainment, Friday night. An excellent programme was rendered, one special feature of which was the quartette from the glee club. After the programme, 28 baskets and enough lace was sold to satisfy the appetites of about 85 people. They all enjoyed themselves and felt like saying, "We won't go home till morning."

G. L. Carroll of Mosier was in town Thursday. He came down to advertise his fine seed potatoes, grown without irrigation. He has the North Pole potato, which takes the place of the Burbank seedling, that for years has held up as the best late potato in the market. Mr. Carroll says Mosier real estate is ready sale. Two deeds to acreage property were made in Mosier last week.

Dr. and Mrs. M. F. Jones and two children, former residents of Hood River, arrived Saturday from Chicago, where they have been making their home for several years. Water Meeting.—A water meeting will be held at the Barrett school house, Thursday evening, March 10. All interested are requested to attend.

J. R. Phillips, who is in charge of Davenport's wood camp back of the old York place, was in town Monday. Mr. Phillips owns a tract off the York place and says with seven others of his neighbors he will have an irrigation system bringing water from the Green Point springs. These farmers have bought 1,300 feet of iron pipe to replace the old flume, and expect to have plenty of water this year. Those interested in the enterprise are: J. J. Jordan, John Mitchell, N. B. Jordan, Frank Davenport, H. A. Moore, Albert Brooks, Will G. MacRae and J. R. Phillips. Mr. Phillips says his community is rapidly growing up, three houses having been built this winter by N. B. Jordan, John Mitchell and Albert Brooks. About 15 men are now at the wood camp, and have 1,000 cords of wood ready to flume out.

J. R. Steele of the Mount Hood district was a visitor in Hood River Monday. Mr. Steele says Paul Aubert is moving to his new place about a mile from Vanauters. Snow still covers the ground in that section. There is considerable inquiry for land in the district, and when the immigration comes along that is promised, Mount Hood settlers will be willing to divide up their places and part with what land they have to secure at a moderate consideration compared with prices for land in the lower valley. The upper part of Hood River valley is considered by many as our best apple land for the reason that the cold winds never affect the apple there. It is well known that the clover there is a crop that can't be beaten in any country.

L. N. Blowers is now a United States deputy marshal, having been sworn in last Thursday as an assistant to W. F. Mathers. The Portland Journal has the following in reference to the Spencer: "Captain Spencer says his namesake, the C. B. Spencer, will be ready to go back on The Dalles run by the last of this month. 'Unless forced to do so,' says the captain, 'I will not cut rates. They are low enough as they stand. But if the other side introduces a slashing game I will meet them at every turn, even if I should have to carry passengers at 10 cents a head. Passenger fares on the Willamette and Columbia are already too low. By water the distance from Portland to The Dalles is 119 miles and the fare is only \$1.50. Between Victoria and Vancouver, B. C., it is only 80 miles, but the passenger rates on steamboats are \$2.50. And, moreover, operating expenses are not so high up there as here."

The county court has been engaged most of the time the past week auditing bills against the county. Two roads from Hood River were disposed of. The Lee Morse road was declared a public highway and was opened to the public. The road from the Cooper road at Mount Hood was disallowed, the remonstrance showing a greater number of signatures than the petition. The court ordered license issued to T. W. Badler to sell figures less quantities than one gallon at Cascade Locks. Commissioner Hibbard says several corrections were made in property descriptions on tax list for Hood River people, and that a number of Waco county claims were before the L. and C. complainant on taxes. The board meets again this week.

Alfred Wood of Odell was in town Monday for the first time this winter. He brought in his son Clifton Mosier, who spent Sunday with the folks. Mr. Wood says the roads are in the worst condition this winter he has ever seen them. He says the wood haulers are to blame for the bad roads. Instead of hauling in the early fall, when the roads are open, and one horse can draw as much as four now, they put on big loads and four horses, and going down hill, put on the brake, which drags and scrapes gullies in the road, making them in fit condition for wheeling. He says he has some excellent bargains in land for sale, which he will advertise when the roads get better.

Rev. W. G. Eliot, jr., minister in charge of the Unitarian church, has interested the young men of Hood River in Sunday evening meetings. These gatherings are of a normal social character, at which, under the leadership of Mr. Eliot, important and timely themes of religious thought and practical life are discussed. The first meeting of the series, last Sunday, Mr. Eliot says more attended spoke very highly of Mr. Eliot's address on the subject, "Self-development and Success." These meetings will begin promptly at 7:30 and close punctually at 9:30. The subject for the present Sunday night is "Business and Professional Ethics."

A man was heard to remark in an up town store, the other day, that he was charged a nickel for an extra copy of the Glacier at this office. He thought we ought to have a nickel for the extra copy. "Oh, that's all right. Take it along and call again." The Glacier is made for sale. Every copy costs labor and money. We cannot afford to give them away. A person would not think of going into the cigar manufactory down the street and asking for a cigar without expecting to pay for it. He wouldn't say: "Give me one of your cigars; I wish to send it to a friend who I think might become a customer." The Glacier will be rendered out sample copies unless paid for at five cents a copy.

A special meeting of the Hood River prohibition alliance will be held in the E. church, Monday evening, March 21, beginning at 8 o'clock. Mr. Andrews says the thermometer is all right. At his home, the thermometer went down to 42 degrees below zero this winter and the ice was three feet thick, while at Hood River our lowest was 24 degrees above.

Joseph E. Davenport, foreman of the Davenport mill at Mount Hood, was in town during the week. He says when he left Mount Hood, last Saturday, the snow was three feet deep at the mill. At one time this winter the snow broke the roof of the saw mill, but the damage to the machinery was slight. The mill will start up as soon as the repairs have been made.

Inflammatory Rheumatism Cured.

William Shaffer, a brakeman of Deussen, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by all druggists.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For ulcers, wounds, piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Chas. N. Clarke, druggist.

Pianos and Organs.

Sunday-School Class Afternoon. Miss Clara Blythe gave a party to her Sunday school class Saturday afternoon. Her class in the Congregational Sunday school is composed of eight little misses ranging in age from 9 to 10. The teacher asked the class to each write up the party for the Glacier, and the best written account, after a decision by three disinterested persons, she promised would be published. Two of the girls were absent—Nettie Hlekov being sick, and Celia Hemerel having a previous engagement. Those present all furnished write-ups, and all being good for such little ones, it was decided all deserved publication. And here they follow:

Miss Clara Blythe entertained her Sunday school class at her home Sunday afternoon, March 13. She gave as much on the piano. Then we made candy. She put some peanuts in the middle of the table and we all gathered around and shared from that pile, while she prepared the sweet part of the candy. Each pupil was presented with a

little purse. The way she done it she put some numbers in a little basket and passed them around, each taking a number. Then our basket containing little purses, each purse having a number like the one in our hand. And when we found the same number as in our hand we got the purse. She served a dainty lunch. We all had a delightful time. The ones present were: Helen Davidson, May Miller, Bessie Hagen, Mary Treiber, Esther Husbands, Myrtle Howe.

Hood River, March 5, 1904.—Dear Miss Blythe: I will write and tell you how much I enjoyed being at your home yesterday. I had just a lovely time. I liked the songs you played very much.
