* Kuchtat agriculturist.

Judge A. R. Byrkett the well-known strawberry raiser of White Salmon, states that he expects to have berries on the market by May 10. The Judge was in Portland this week, and to a Journal man said that he has 19 acres in berries which lie directly under the basaltic bluffs on the north side of the Columbia, where the sun's rays warm the sandy loam soil in early spring. This makes the land particularly early, and berries ripen here from a week to ten days before the crop colors on the sonth side of the Columbia. The early berries get the top prices, and Mr. Byrkett says he is always assured of much higher average returns for his fruit than his neighbors whose berries do not ripen so early.
