BERRY MARKET

The strawherry market took an up, ward tendancy this week, and the late berry men are getting very good prices. Berries are selling on the track for \$1.25 to \$2. The situation has cleared in the required two minutes by a stop watch northern markets and there is good demand for the berries going out now. Only the mountain patches are turn-ing off berries, those in the lower valley having quit picking for a week or more. Mr. Davidson says while the net returns will not be so high as last year, most of the growers will have a neat sum to their credit. Had market conditions been the same this year as last, it would have been a banner year for Hood River, as the quality never was better, says Mr.

 Davidson.
