

MILL COMPANY INCORPORATES

Incorporation papers of the Hood River Milling company were filed with the secretary of state last Thursday...

Articles of Incorporation, to-wit: ARTICLE I. NAME. The name by which this corporation shall be known is "Hood River Milling Company."

ARTICLE II. DURATION. The duration of this corporation shall be perpetual.

ARTICLE III. OBJECTS. The objects and purposes of this corporation and the business in which it proposes to engage are:

- 1.-To build a flouring mill at Hood River, Oregon, and to hold, use and manage the same...

indicate that it pays. The land has been leveled off and where needed it has been graded.

James Cook had to buy this year for his horse, but he finds this does not pay and has planted clover. He is attached to a common wood saw engine to the pipes and wazmed the oil until we could pump it easily with a common "low down" pump...

Viewers Favored the Road.

L. E. Morse and J. W. Moore, the viewers who examined the proposed Jackson road on the East Side, believe the road should be built. The gentlemen have asked the Glacier to publish the following statement:

"L. E. MORSE, "J. W. MOORE, "Viewers."

MUCH DONE BY THE COMMERCIAL CLUB

Thursday's meeting of the Hassa Commercial club was a rousing gathering of the members. Enthusiasm was manifest on every hand. There were earnest discussions of the subject up for consideration...

President Truman Butler named the following committee: A. D. Moe, S. E. Bartness and Frank A. Gram.

A letter was read from Frank Lee of the Pacific Farmer, saying he was ready to take up the matter of the Commercial club had arranged for two years ago...

The idea that Mr. Lee had inserted in the leading Eastern agricultural papers saying this special edition was to be issued and that all people interested in learning something of this Western country could obtain a copy by sending five cents in stamps...

Mr. Hershey has a fine lot of onions. The cut worms, though, bothered him a great deal this spring. He has discovered a new way of combating with these destructive worms. The worms do their work at night, and for four or five nights Mr. Hershey turned on the irrigating water and fairly drowned the cut worms.

Mr. Nealeigh has built a reservoir which he finds very valuable. By this means he is enabled to utilize more of his irrigating water than formerly. He can thus turn on a double force when he goes to irrigate.

chased our oil of the Columbia Southern railway at \$1.27 per barrel of 40 gallons, delivered at Wasco. This is the same oil that the Columbia Southern railway uses for fuel in its locomotives and comes in car tanks of about 6,500 gallons capacity.

One Lady's Recommendation. I have, I believe, sold 50 boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago.

What About The Dalles Future.

For ten years past The Dalles has been at a standstill, its business not having increased perceptibly. But the wonder is that it is not backward, and those who have studied conditions closely are amazed that the town has held its own when they consider all the adversities it has had to contend with.

Another factor that will tend to build up The Dalles is the building of a railroad from here south into the heart of Central Oregon, a section that will more than double in population and productivity in a few years.

Safeguard the Children.

Notwithstanding all that is done by boards of health and charitably inclined persons, the death rate among small children is very high during the hot weather of the summer months in the large cities.

Crack Train of the Northwest.

The Northern Pacific North Coast Limited is the crack train of the Northwest. In fact it is an electric lighted, solid vestibuled modern train, and it does not cost you any more to travel on this train from Portland to the East than it does on any other train.
