Hood River Glacier

THURSDAY, AUGUST 18, 1904.

The Long Creek Light has been snuffed out and now appears as the Monument, Grant county, Enterprise.

The Rural Narthwest says it is universally admitted that the two most important addresses before the convention of the Development league were those of E. L. Smith, president of the state board of horticulture, and Dr. James Withycomb of the Oregon experiment station. Both addresses were devoted to fruit and agricultural topics.

The action of the water company in giving the patrons of this city better service, will be appreciated, and it is hoped the good work will go on. They promise to put water on the hill in the near future, and the sooner it is done the better it will be for the health of the hill residents, as well as for the prestige of the water company. Let the good work go on.

Chicago capitalists have filed with the secretary of state articles of incorporation for the Mount Hood Electric Co., one of the purposes of which is the construction of a tourist trolley car line from Portland to the base of Mount Hood. If such a road is ever constructed it would put an end to the stage line business from Hood River to the mountain.

The many complimentary remarks from the press of the state on the election of the Hon. E. L. Smith to the presidency of the Oregon Levelopment league, speaks well for the popularity of the selection. Possibly no man is more widely known throughout the state than Mr. Smith. As an authority on horticulture, he is recognized as one of the most competent in the United States. Possibly no man has a broader knowledge of apple growing than Mr. Smith. His selection as president of the Oregon Development league is a credit to Hood River.

Professor S. B. Green, head of the department of horticulture and forestry at the state university of Minnesoto, after a tour of the Pacific Northwest, states that the growers should be more cosmopolitan in there knowledge of fruitgrowing, that they should know what results are obtained in the different localities, to profit thereby. This is another point in which Hood River orchardists take the lead. The fruit business in this valley has been intelligently studied and progressive growers are profiting from their research work. The professor compliments Hood River on the business-like methods of packing and shipping in vogue here.

The action taken by the farmers Monday night at the Barrett school house in taking the preliminary steps to secure water, shows a commendable enterprise, and demonstrates that Hood Rivet intends to keep up to date and progressive. While the new ditch will cost probably $100,000 if carried out on the scale proposed, yet it will add fully $1,000,000 to the value of the land that will come under the ditch. Hood River land is too valuable to be farmed for crops without irrigation. It is the extra ton of hay, crate of berries or box of apples that makes the profit, and when the crop can be doubled and in some cases increased three-fold when properly irrigated and cultivated, the argument in favor of the new ditch, regardless of the big undertaking, is conclusive.

Summer months are considered to be the dull season for all lines of business, but Hood River merchants say they have noticed no decrease in their business the last two or three months. The fact that the strawberry men did not get the high prices of former years has made no perceptible difference in the commercial world. The farmers are all hard at work with their crops. Those who have apple orchards and clover fields are sure of good returns this fall. Movements in real estate are not numerous just now, but the men who make a business of selling lands say there are a great many inquiries coming in daily, and a great many people are looking the country over with the idea of buying later in the fall. A large immigration of home seekers is expected from the Eastern states after the crops are harvested there. One thing that impresses itself on a casual observer is the growing of more vegetables and garden truck by the Hood River farmers. This commodity is a scarce article in the White Salmon country, and the farmers there will have to learn that it pays to grow a little more of this stuff than they have use for in their own families. One man who recently moved to the North side of the Columbia said he had not been there long long enough to grow garden stuff of his own. and found his neighbors had but little and that even potatoes were hard to get. This is a wrong condition of affairs in an agricultural country. But affairs are becoming better adjusted and a few years will find them as they should be.

Can Give the State Pointers.

The Rural Northwest says: "There was a chance for the delegates to the recent convention in Portland which organized the Oregon Development league to get a good pointer on how to get results. The Hood River folks were on hand, as they always are when there is a chance to advertise Hood River and they are advertising the fruit fair to be held at that place this fall. These cards showed that the population and business of Hood River has doubled in the last four years. This increase has been the natural result of the unceasing efforts on the part of the people of that that place to build up their resources and advertise their place, products and advantages. If every other community had worked so hard and as intelligently as the Hood River community has done there would be twice as many people in Oregon that are now here, and Oregon, instead of being the least heard of state on the Pacific Coast would be known throughout the United States as the get-there state.

WILL BOND FOR WATER

A preliminary meeting of farmers was held at the Barrett school house Monday evening, and steps were taken to bond the district for water. The shortage of water in the district above the Farmers' ditch is being felt more and more as new ground is cleared and brought under cultivation, and the movement towards bonding the district that was talked of last winter culminated in the meeting Monday night. when 35 signed a petition to the county court.

The small ditch that has supplied the older residents in the Crapper and Barrett districts for many years carries only about 400 inches of water, while the present needs are fully five times as much. There is scarcely a farm that is getting half enough water, and in some cases considerable cleared land is lying idle. Some of the new places cannot be improved for lack of water, and the farmers above the Farmers' ditch on the West Side realize that they must put in an irrigating ditch of sufficient size to supply future as well as present wants if they expect to get the proper results from their land.

The proposition is to bond the district to be benefitted, and the area proposed is part of Dukes Valley and Odell on the east side, and all of the district on the west side of Hood River not now supplied with water. It is estimated that this district will cover 14,000 acres. The cost of a ditch large enough to carry sufficient water to supply this large area is roughly estimated at $100,000. It may cost considerably more, but will probably not exceed $10 for each acre of land benefitted. Given 20 years to pay for it, the cost will not amount to $2 an inch of water per year, with free water at the end of 20 years.

There is no question but that irrigating water is worth $100 an acre to the land for any purpose, and there should not be a dissenting voice in voting for the new improvement. The fact that the land in speculators' hands lying idle will have to pay for the water, whether it is used or not, is a point in favor of the bonding scheme, and will tend to force improvement among that class of property owners.

The meeting at the Barrett school house was attended by about fifty property owners residing within a short distance of the place of meeting. F. W. Angus was made chairman and D. E. Markham secretary.

Mr. Angus stated briefly the object of the meeting. and read a synopsis of the state irrigation law, as published in the Glacier March 24, 1904. He stated that he thought it would be a good policy to bond the entire Hood River district, providing the other water companies wished to come in and turn over their property for what it was worth, but that it would be left entirely with the other companies to act. He wanted it distinctly understood that it was no stock-jobbing scheme, but all they wanted was water, and would bond a district outside of the territory covered by the present ditches if the rest of the valley were satisfied with what they had.

J. H. Shoemaker stated that the proposed district included 14,000 or 15,000 acres, which would be reduced 2,000 or 3,000 acres if the East Side section adjoining Hood River did not want to be included He thought the expense of the ditch would not exceed $10 an acre, but he was satisfied to pay $20 an acre if necessary, and then would consider it a good investment for a perpetual water right on the land.

F. C. Sherrieb stated that at a meeting of the directors of the Water Supply Co. it was agreed to turn over their stock at par to the new corporation if the bonding proposition went through, which would amount to $9,000. The stock was worth 25 per cent premium, and he thought the offer a liberal one. Their present right-of-way was valuable as far as it went, and would save the new company considerable on that item alone. They were interested in the new scheme, and would be glad to see it succeed.

Mr. Castner thought it would be a good idea to include both the big ditches now furnishing water on both the east and west side, but it was not the intention to force the sale of either of the ditches, but it would be left to those companies to decide for themselves.

A petition to the county court that had been prepared, as the first formality to comply with the law, was read, and upon being circulated received 36 signatures, as below. A committee consisting of Scott Boorman and P. H. Martin was appointed to circulate the petition among farmers who were not at the meeting, and it is expected that a majority of the farmers to be benefitted will sign the petition, and it will be placed in the hands of the county court as soon as possible, in order to get a vote on the proposition this fall.

The meeting was adjourned subject to the call of the chair.

The petition and first signers:

PETITION.

In the County Court of the County of Wasco and State of Oregon.

In the matter of the petition of Claude E. Markham, et al., for the formation of an irrigation district in the county of Wasco and state of Oregon, under the provisions of Chapter V of Bellinger and Cotton's annotated Codes and Statutes of the state of Oregon.

To The County Court of the County of Wasco.

The undersigned petitioners respectfully show unto the Court:

FIRST.—That they are desirous of forming and propose to form an irrigation district under the provisions of chapter V of Bellinger's and Cotton's annotated codes and statutes of Oregon.

SECOND.—That your petitioners are a majority and more than fifty of the holders of title to lands susceptible to irrigation from common source and by the same system of works, and desire to provide for the irrigation of the same.

THIRD.—That the land to be irrigated is all situate in the county of Wasco and state of Oregon, and is more particularly bounded as to said proposed district, as follows, to-wit:

Commence on the Columbia river, south bank, where the section line between sections 31 and 32, township 3, north, range 10 east W. M., intersects the Columbia river, thence south along said section line and the section lines between sections 5 and 6, 7 and 8 to the ¼ section corner common to said sections 7 and 8, township 2 north, range 10 east, W. M., thence west to the center of said section 7, thence south to the ¼ section corner common to said section 7 and section 18, said township and range, thence west to the corner common to said sections 7 and 18 and sections 12 and 13, township 2 north, range 9 east, W. M. thence south along the township line between ranges 9 and 10 east, aforesaid, to corner common to sections 13, 18, 19 and 24, township 2 north, ranges 9 and 10 east, W. M., thence west to the corner common to sections 13, 14, 23 and 24, township 2 north, range 9 east W. M., thence south to the corner common to sections 23, 24, 25 and 26 last named township and range, thence in said township and range as follows: west to corner common to sections 22, 23, 26 and 27, south to the corner common to sections 26, 27, 34 and 35, west to corner common to ections 29, 30, 31 and 25, thence south to corner common to sections 31 and 35 afore id and to sections 5 and 6, township 1 north, range 9 east, W. M., thence east along the township line between townships 1 and 2 north, range 9 east to Hood river, thence up the west bank of Hood river and its forks to the most suitable place for taking out the water from Hood river, thence down said river to section line between sections 6 and 7, township 1 north, range 10 east, W. M., thence east to ¼ section corner common to said sections 6 and 7, thence north to ¼ section corner common to sections 6 and 31 townships 1 and 2 north, range 10 east, W. M., thence along said township line to corner common to sections 4 and 5, 32 and 33, townships 1 and 2, north, range 10 east, W. M., thence north to where the section line between sections 15 and 16, township 2 north, range 10 east, intersects the west line of the right of way of the ditch of the Farmers' Irrigating company, thence following down the said west and north line of said right of way of said ditch to a point on same in section 33, township 3 north, range 10 east W. M., thence along the section lines between sections 33, 34, 27 and 28, township 3, north, range 10 east W. M., to the south bank of the Columbia river, thence down along the south bank of the said Columbia river to the point of beginning.

And your petitioners do pray that the said irrigation district be organized under the provisions of said act and for general relief

PETITIONERS.

Joe Dobson	W. J. Ross

Farmer' Ditch in Fine Shape.

N. C. Evans, secretary of the Farmers' Irrigating Co. reports everything lovely with the farmers' ditch. All but a few of the farmers were able to meet payments for water this summer, and as the board of directors advertised last month, from all those who did not meet the payments the water was shut off. This had to be done in only one or two instances. Some of them complained because of this ruling, says Mr. Evans, but they found very little sympathy with the farmers who did not pay, for they had to and there is no reason why any one should be favored. The ditch is a $60, 000 financial proposition, and the enterprise cannot be run on a charitable basis.

To illustrate the way in which some people look at the matter, Mr. Evans related how one patron of the ditch came to the secretary and begged him be allowed the use of the water, saying he was in no shape to meet the payments. Mr. Evans said he would take the farmer's note and place it before the board of directors. This he refused to give, so the gauger was instructed to turn off the water. This put a different phase on the mater for the farmer, who beat the gauger to town and made payment for his water in full at the bank of Butler & Co. He met the gauger outside and showing him a shining gold piece thought the proceeding a huge joke.

Mr. Evans has just completed a plat of the farm lands under the ditch. The work was nicely done in colors, and was a splendid piece of map drawing. From the map one would take the valley to be one large city

White Salmon Growers to Form Union.

The White Salmon strawberry growers are talking of forming a shipping union of their own. Heretofore the White Salmon growers have been shipping with the Hood River Fruit Growers' union or the Davidson Fruit Co., but the people on the north side of the Columbia propose now to go it alone.

The White Salmon berries are the earliest in the Northwest. A. R. Byrkett says the growers at White Salmon begin shipping ten days earlier than the growers in Hood River, and he adds that by the time the heavy shipments begin here he has two-thirds of his crop on the market and could then afford to stop shipping, when the large quantity of berries begins to seriously affect the markets.

The White Salmon farmers are busy now with their tomato crop. It is estimated that the low lands under the White Salmon bluffs will turn off 8,000 cases of tomatoes this summer. The season will continue for another month. Prices last week had dropped to about 50 cents. In the forepart of the season the early tomatoes brought as high as $2.65.

The fruit growers of White Salmon expect to hold a meeting in the near future to discuss the proposition of a cooperative cannery and the practicability of constructing an irrigating ditch for the farmers on the bench.

Asks Charity from None.

Soveren Holmes of Mitchell was in town last Saturday evening. He was one of the heaviest sufferers from the Mitchell cloud-burst, his losses amounting to about $3500 and including about $600 in cash that he had saved up and stored away in his trunk. The flood took practically all that he had, the product of years of industry and thrift, but as Holmes expresses it, he "had enough left to buy a horse and saddle with," and with this asset he is starting out anew. Holmes scorns the idea of accepting money from the relief committee, and he says frankly that he does not believe any man with youth, health and strength left has a right to sit around bemoaning his misfortunes and expecting his losses to be made good out of funds sent in by sympathetic people for the relief of the needy and suffering. This spirit is a commendiable one, and reflects a character that will surmount greater difficulties than have yet confronted Holmes. We very earnestly wish him a full measure of success, wherever he may go.—Antelope Herald.

The PARIS FAIR

Good Square Treatment Always.

BARGAINS! BARGAINS! BARGAINS!

Having picked up a Big Bargain in

Hats, Caps, Shirts, Colllars, etc.

and wishing to run them out within the next two weeks, we are going to give our customers the benefit of our good buy. When we buy a bargain we sell a bargain.

Men's Shirts, worth 75c, $1.00 and $1.50, for	25c
Men's and Boys' Hats, worth from 75c to $3.00, for	50c
Men's and Boys' Straw Hats, worth from 15c to $1.50, for	5c
Men's and Boys' Neckties, worth from 75c to 75c, for	10c
Men's and Boys' Linen Collars, worth fro·n 10c to 20c, for	3c

These are all good salable goods, and are going in a hurry. Come early—you can't afford to miss it.

WE ARE NEVER UNDERSOLD.

Young Orchards Took His Eye.

W. R. Radcliffe, assistant cashier of the bank of Watsonville, Cal., was in Hood River last week. Mr. Radcliffe is on a tour of the Pacific Northwest, including a trip to the Yellowstone Park, and as he travels along is looking over the fruit sections on the way.

Watsonville is one of the famous apple sections of California. Mr. Radcliffe was formerly in the newspaper business at that place and talks intelligently of the fruit industry in California.

In reply to an inquiry as to what he thought of Hood River after driving through the valley, Mr. Radcliffe spoke in glowing terms of the fruit prospects of Hood River. He was particularly struck with the fine condition of the many young orchards that met his eye, and regarded them as model young orchards.

This year in the Watsonville district the crop was injured by late frosts, and instead of the usual crop of 8,000 cars it will amount to about 2,000 cars, says Mr. Radcliffe The Yellow Newtowns and the Yellow Bellflowers are the standard varieties in Watsonville. There the growers are satisfied to receive 75 cents a box for their apples. The Bellflowers sell from 60 to 90 cents, says Mr. Radcliffe.

That country has about the same area for fruit growing as has the Hood River valley, about 50,000 acres. About one-quarter of this is now planted to apple trees.

Mr. Radcliffe stopped to view the Rogue River country, where he says the crop will be light this year, the fruit having been damaged by late storms. He says a hail storm played havoc with the fruit there this spring, the trees now presenting the appearance of some one having stood off about a hundred yards and peppered them with an old muzzle loading shotgun.

All Not Lovely With the Ferryman.

The ferryman has troubles of his own. Possibly the average passenger on the White Salmon ferry thinks Messrs. Dean and Pearson have a snap. With sail and gasoline power it looks easy enough to operate the business. Operating expenses seem small as the two men do all their own work, and the collection of 25 cent fares should prove a snap.

Not so though. Mr. Dean gives it out that he has expended over a hundred dollars in repairing the boats in the last three weeks. The ferry owns two row boats, two launches, six scows and six sails. Boats are perishable and require frequent repairs.

The 25 cent fare is not always collected. One night last week Andy Pearson was aroused from his sleep by three drunken loggers who wanted to cross the river. Pearson rowed the drunks to the Washington side. The fare after night is 50 cents, but when the men reached the other side of the river, they gave Andy the merry ha, ha, and left him to row back mad as a hornet.

A few weeks ago, relates Mr. Dean, an Indian with his cayuse was rowed across the river. He said he would pay when he returned. When he did so, the river was rough and difficult for crossing with the scow. But the ferrymen landed the siwash on the Oregon side of the river, and all they received for their trouble was the tender of an empty purse.

Mr. Dean says he has worked day and night since taking hold of the ferry, not having a single Sunday he could call his own. His work during the summer has kept him busy both day and night. But the night work he says they aim to cut out after this. The county commissioners aim to discourage the operation of the ferry after nightfall, except in very urgent cases.

Ira Rowland, from whom Mr. Dean secured the ferry, held a mail contract with Uncle Sam to carry the mail from Hood River to White Salmon for $500 a year. The mail now amounts to three and four sacks at a trip, more than one man can handle, and teams have to be hired to carry the mail to and from the landings to the postoffices, a distance of a mile at each end. This bill of expense exceeds the pay which the contract calls for, and the holder is doing the work each year at a dead loss. The contract, so Mr. Dean says, runs for five years more. What the expense of carrying the mail will be by that time can't be guessed at.

Should Know What Other Apple Men Do

Professor S. B. Green of Minnesota, who visited Hood River last week, visited other sections of the Northwest, and on his return to Portland gave out the following interview:

"It seems to me that in many sections fruit growers suffer because of the lack of business methods in packing and shipping their fruit. Where I found growers who were discouraged, it was not because they could not grow fruit, but because they could not market it successfully.

"At Hood River the growers get better results because their methods are more business like. Growers need to make a study of this subject.

"I have been surprised to learn how little one section knows about the results obtained in another section. It is of great importance that information of this character should be scattered as widely as possible. As an illustration, I found in some sections too much tendency to plant varieties of apples like the Ben Davis, the Black Ben Davis and the Gano. While these varieties may still find a ready market, they are discriminated against in the Eastern market. Even in Oregon these varieties, I am told, are becoming unpopular. In some parts of the state growers are beginning to appreciate this, and are putting in better varieties. At the same time I found localities where the growers snppose these the best varieties and are putting them in. A petter general knowledge of the results of experience in this and other lines would be of the utmost value to the farmers and horticulturists of the state.

"The irrigation of orchards interested me. It seemed to me that as a rule where water is abundant the growers use too much of it, especially in the case of young trees not yet bearing. In many instances the wood would be firmer and the trees would winter better if they were not irrigated. Another thing that should receive more attention is the enforcement of inspection laws for the purpose of excluding noxious insects and diseases. In some localities there is great laxity in enforcing these laws. Such pests as the wooly aphis, or root louse and the San Jose scale should be kept out, for it is a heavy expense to spray the trees every winter after these pests have gained a foothold.

"One of the things which has impressed me is the fact that the O. R. & N. Co. is paying so much attention to the education of the people along its line. It is one of the few roads, if not the only one, that is doing any intelligent work toward developing the industries in its territory."

Foreign Mission Meeting.

The Woman's Foreign Missionary society will give an open meeting at the Methodist church next Sunday evening at eight o'clock. The following program will be rendered:

Music—"The Call for Reapers."
Scriptural Reading.
Prayer.
Music—"The Morning Light is Breaking."
Reading—"Forward."
"Christian Giving in South India."
Music—"Lo the Golden Fields."
Reading—"A Morning Service in China."
Reading—"After Many Years."
Recitation—"A Question."
Music—"We'll Girdle the Globe."
Reading—"The Korean People."
Reading—"The Bible and Prayer Have the Right of Way."
Music—"Go Tell the World."
"An Italian Evangelist."
Recitation—"The Mother at the Ganges."
Music—"Jesus Shall Reign."
Benediction.

Puts an End to It All.

A grievous wail ofttimes comes as a result of unbearable pain from overtaxed organs. Dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Chas. N. Clarke, the druggist.

George T. Prather went to The Dalles on business Saturday, returning Tuesday.

Miss Nellie Clark, accompanied by her aunt, Mrs. Bevins, enjoyed a trip to Portland the forepart of last week.

At the Churches.

Congregational.—Rev. J. L. Hershner, pastor. Preaching service with worship will be conducted at 11 a. m. Sunday school at 10 a. m., with A. C. Staten, superintendent. Christian Endeavor service at 7 p. m. Leader, Miss Day. The public is invited to these services.

Valley Christian.—Regular services next Lord's day. Sunday school at 10 a. m; preaching at 11; Y. P. S. C. E. at 7 p. m.; preaching at 8. Subject of evening sermon, "The Good Samaritan." A special invitation is extended to members of fraternal orders to attend the evening service. W. A. Elkins, pastor.

Lutheran services will be held again next Sunday afternoon at the church near the Columbia nursery and K. of P. cemetery, about two miles south of town. Sunday school at 2 p. m.; preaching at 3 p. m. All not worshiping elsewhere are invited to attend these services. H. J. Kolb, pastor.

United Brethren.—Sunday school at 10 a. m.; sermon by Chaplain W. S. Gilbert at 11 a. m. Sermon by pastor at 8 p. m; Christian Endeavor at 7:30 p. m.; prayer meeting at 8 o'clock each Wednesday evening. All are welcome. J. T. Merrill.

Methodist—Preaching at 11 a. m. and 8 p. m.; Sabbath school 10 a. m.; Epworth League 7 p. m. Prayer meeting Thursday evening. All cordially invited. W. C. Evans, pastor.

Belmont Chapel.—Sunday school at 10, followed by class meeting; League at 7; preaching at 8. All are cordially invited.

Cash Book.

Made-to-order cash book for sale. Size 11x16 inches; 300 pages; full leather bound; unit ruling; heavy linen paper. Price $3.00. Inquire at Glacier office. j18tf

FOR SALE.

Forty acres of my farm in Crapper district, 7½ miles from Hood River. Good apple land. $30 per acre. Easy terms. Unimproved, under ditch. jy 7 tf A. A. JAYNE.

LOST.

Two bills, one $10 and one $5, in Hood River or on the East Side road, Friday, August 5 Reward if returned to Glacier office. a2 A. SCHILER.

Wanted.

Six new members for the band.—Address jy21tf C. D. NICKELSEN.

For Sale

80 acres of land opposite the Mount Hood postoffice. A bargain if sold soon. Two lots and one of the best residences in town at a bargain. Inquire of GEORGE T. PRATHER.

For Sale.

Two homestead relinquishments in upper Hood River valley. Some improvements. Good land, easily cleared. Inquire of THOMAS J. DAVIS, a18 On China Hill.

For Sale.

One heavy draft horse, one buggy, one pair of trucks, all cheap if sold at once. a18 JAMES A. COOK.

Wanted.

Girl for general house work; also furnished house in town or country for one month. See j28tf DR. F. C. BROSIUS.

Shoats for Sale

Twenty head of shoats for sale. O. B. HARTLEY.

Notice to Water Consumers.

Any one caught shutting off water in mains to make taps will be prosecuted to the full extent of the law unless they obtain permission from this office. This is final. HOOD RIVER ELECTRIC LIGHT j23 & WATER CO.

Wanted.

Employment by a young man of 28 (from Illinois) Nursery, orchard or berry farm work preferred. Experienced with poultry. Intelligent, respectable, industrious and reliable. Address E. G. S, care Glacier. au4tf

To Trade for Cow.

Good all round horse to trade double or single for fresh milk cow. S. F. EBY a25 East Belmont.

For Sale Cheap.

One first class stereopticon and moving picture machine, a $200 outfit at one-fourth cost. Call or address H. S. HALL, R. F. D.2. a 25 Hood River, Or.

Wood For Sale.

One Hundred Fifty ricks of Yellow Pine. GEORGE A. MASSEY, a25 Dukes Valley, Or.

Wood Sawing In Town

Those who want me to saw wood should get their wood at once and cord it up as I will be obliged to charge for the time it takes to handle it where not corded up. I will go to Cascade Locks Sept. 15 to be gone two weeks. Get your wood sawed early and under cover for winter. F. O. BRACE, a25 Phone 334.

Girl Wanted.

Young lady attending the Hood River school who will do house work in family of two for payment of tuition, board and room included, Address V, care of the Glacier office. a 4tf.

For Sale.

Young team, New wagon, Good harness. Apply to W. S. GRIBBLE, a11tf Mount Hood

For Sale.

One team of black mares weight about 1800. Well matched, good drivers, gentle and safe for children. Price $175, easy terms. Inquire at this office. a 18

For Sale

Full blooded Fox Terrier pup. Nothing better. Rockford Store, oct 1 Near Barrett school house.

Hair Work

I am prepared to do all kinds of hair work. Leave orders at Knapp's store, or at my residence, third house east of Paradise laundry. s1 MRS. JULIA KNAPP.

Go Hop-picking

Those who wish to go hop picking with me this year should see me at once, as I wish to complete my party and start for Yakima on or about August 25. You'll have to hurry. a 26 A. L. PHELPS.

Timothy Hay

Choice timothy hay $13.0 per ton. s1 C. D. NICKELSEN.

Dry Slab Wood

For sale; $3.50 a cord, delivered, if taken at once. DAVENPORT BROS. LBR CO.

For Sale

At Paradise farm. Feed mill that took premium at Centennial fair as best mill in the world. Cost $300, will sell for $100. Strong buggy $20, one horse wagon $8, fodder cutter, harness, saddle furniture, etc cheap. Will also sell choice pieces of land handy to town. a25 W. L. ADAMS.

Fine Stallion

Fine Norman stallion, weight 1,600 pounds. Single service $5. To insure, $10. This horse will be found on our premises at all times. sept 8 PEALER & SON.

Hay For Sale
