

THE 1905 FAIR AT PORTLAND

By an official act of the United States congress, followed by an invitation issued by the Honorable John Hay, secretary of state of the United States...

This Centennial will extend through a period of four and one-half months, commencing June 1, 1905, and ending October 15, 1905. It will commemorate the exploration of the great Pacific Northwest territory to the shores of the Pacific in 1792...

The "Oregon Country" (as that section of America was then called) shortly after became a part of the United States, and was subsequently divided into the present states of Oregon, Washington and Idaho...

The expedition which explored this "No Man's Land" was sent out under the leadership of Captains Meriwether Lewis and William Clark, by President Thomas Jefferson, in 1803...

Captains Lewis and Clark were the first Americans who reached the Pacific coast overland, and it is the centenary of this momentous event that will be celebrated at Portland in 1905...

The city of Portland, numbering 125,000 inhabitants, is an ideal western American city. It is situated 110 miles from the Pacific ocean, on the Willamette river...

The Centennial will provide ten commodious exhibit palaces and thereby furnish ample space, free of charge, for all displays, governmental and otherwise...

The United States government officially participates in the Centennial with complete exhibits representative of every division of governmental function and resource.

We, the relatives of Mrs. Jessie B. Mooney, deceased, wish, through the medium of the Glacier, to thank our many friends for their kindness and sympathy in our hour of affliction and bereavement.

Card of Thanks. We, the relatives of Mrs. Jessie B. Mooney, deceased, wish, through the medium of the Glacier, to thank our many friends for their kindness and sympathy in our hour of affliction and bereavement.

no sales are made. We have handled about 90 per cent of the apples here for several years and expect to do so again this season.

Escapes Death by Five Minutes. John Leland Henderson missed by five minutes being a passenger on the train which met with such a disastrous accident near Pueblo last week...

Judge Henderson was on his way from St. Louis, and his train pulled into Kansas City five minutes too late for him to make connections with the out-going flyer.

At one time during Mrs. Henderson's illness there was no perceptible heartbeats nor any respiration. The doctors in attendance gave the woman up as dead, but with wonderful vitality, this woman of 87 years came out of the stupor and began rapidly to mend.

Before returning Mr. Henderson spent three days at the St. Louis exposition. He also attended the play, Louisiana, which pictures the historical scenes connected with the discovery of the Mississippi river by the Jesuit explorer, Ferdinand de Soto...

"There promises to be a big immigration to the Pacific coast this fall," said Mr. Henderson to a Glacier reporter. "Everywhere people are inquiring about the West, and hundreds of them will be here this fall to look at the country."

Poor, Poor Sleepy Old Dalles. The Dalles Chronicle emits the following wall: It is to be regretted that a larger number of delegates to the Development League from The Dalles could not have made it convenient to attend the meeting in Portland.

Editor's Troubles at White Salmon. The Heppner Gazette comments as follows on a clipping from the White Salmon Enterprise, published by Thomas Harlan:

Cholera Infantum. This disease has lost its terrors since Chamberlain's Colic Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known.

Half Man Still Lives. A person who is only half alive to the world and society will not succeed in business. He should go to Williams' Pharmacy and get some Palm Tablets. They are guaranteed for all weaknesses.

Some Bargains. 1. 6 acres one mile out, all in berries. A beautiful location—will be sold at a bargain.

Coreless Apples Exhibited. The only seedless and coreless apples known to the pomological world are on exhibition in the Colorado section of the Palace of Horticulture.

system of grafting and culture that he has practiced successfully. He has required twelve years of constant experimenting in cross-breeding with different varieties of apples.

The Septic Tank and What it Does. The Portland Oregonian, speaking editorially, says: If all is true that is said of the septic tank—and being substantiated by the names of professional and scientific men, the statements cannot be doubted—its discovery will be a boon to the country and to suburban communities, which from various causes cannot have the benefit of drainage by means of sewers.

Aside from this septic tank seems to be an unalloyed blessing. Its cost, according to statements that have been made, does not exceed that of the ordinary, unsanitary earth vault that breeds flies and suggests pestilence in the backyard of every farmhouse.

A Plea for the Jonathan Apple. Pine Grove, Aug. 9.—Editor Glacier: That the Spitzenberg and Yellow Newtown apples are the very best apples for Hood River growers to plant no one will dispute, but that the Jonathan also has some meritorious points is a fact that cannot be overlooked.

Cholera Infantum. This disease has lost its terrors since Chamberlain's Colic Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known.

Half Man Still Lives. A person who is only half alive to the world and society will not succeed in business. He should go to Williams' Pharmacy and get some Palm Tablets. They are guaranteed for all weaknesses.

Some Bargains. 1. 6 acres one mile out, all in berries. A beautiful location—will be sold at a bargain.

Coreless Apples Exhibited. The only seedless and coreless apples known to the pomological world are on exhibition in the Colorado section of the Palace of Horticulture.
