

CORRESPONDENCE.

At a meeting Saturday night, the Order of Lions accepted Mrs. Shelley's proposition and secured winter quarters in the hall.

BARRETT.

I notice a large sign put up recently and it reads, E. Brayford, Rockford store. Quite an improvement to the store. With the school house newly painted, a house near by just received three coats of paint, and a new sign put on the store, Barrett district is looming up. By and by the county seat will be located here when the county is divided.

L. Dart is raising a fine lot of tomatoes which are netting him \$2.50 per crate. What we want in Hood River valley is more diversity in farming, so that ranchers will not have to depend entirely upon strawberries.

FRANKTON.

Well, we know now what to do with our extra money. We can put it in the new water ditch. More water is all the talk now. It is a good scheme. Keep the ball rolling until all the West Side has all the water needed.

We can sympathize with X, the correspondent from Pine Grove in last week's Glacier about the telephone service they are playing with fire. A long suffering public will finally resent such tyrannous work as the Bell Telephone Co. has inflicted upon the patrons at Hood River.

The article last week from Pine Grove signed X was mainly correct. I, with numerous others of the groups of the telephone system endorse every word of it. X is right when he says they are playing with fire.

The summer roads in Hood River valley are almost as bad as in winter time. Where lies the remedy? The natural fall of Hood River would not only furnish an easy grade, but a shorter road to East Hood River valley than at present.

The third crop of alfalfa is now being cut in this vicinity, which makes for the three cuttings close around five to six tons of cured hay per acre.

Some of our orchardists are now picking their Gravenstein apples, which will be marketed sometime in the future. The Gravenstein is a good dropper, and by picking now, this will be prevented, thereby enabling the grower to sell good fruit instead of windfalls.

The residents of the East Side are not at present very oily, but the indications are that they really follow the people will be oily to the extent of a few thousand barrels. There is a movement on to vote a ten mill tax on the taxable property of this road district, and to expend the same for oiling the main road from Hood River to Pine Grove.
