

Frank A. Cram

ALWAYS Up-to-Date

Has just received direct from the New Jersey Mills a beautiful collection of **Portieres and Tapestry Curtains, Table Covers and Couch Covers, Drapery Silks, Tapestries, Silkolones, Art Denims, Cretonnes and Fancy Draperies**, which are on sale at prices that are unheard of in Hood River.

This is the time of year to begin to make the home cozy; and we have the requirements. Don't hesitate to ask to see these lines, as it is a pleasure to us, and we can make it profitable for you to investigate.

Towels, Table Linen, Sheets, Pillow Cases, Comfortables, Bed Blankets, both wool and cotton, etc., are here in immense assortment, and our system of buying **direct from the mills**, in large quantities, for cash, permits us to make prices which the dealer doing a credit business is unable to even buy these goods at. **Yes, Cash does the trick and always will.**

In face of a poor berry season our business is making a wonderful increase over 1903 and we attribute this condition to the fact that the people of Hood River and vicinity appreciate our system of doing business and would rather pay us the cash and get **good, reliable new goods** than to buy them on credit at the **high-priced credit stores**. We discount every bill that comes into this store as soon as we determine the goods are all O K, and unless we did a cash business this would be impossible.

The dealer doing a credit business may tell you he sells as cheap as the cash store, but your common sense tells you different. He sells **cheaper goods** for more money than the cash man, and any thinking person knows he must do so. We want your trade, and we expect to increase our selling capacity and have good intelligent clerks, and we are here to wait on you.

Some Hood River Lady

Is going to have a free trip to the World's Fair at St. Louis. We give a coupon which entitles you to one vote with each 10c purchase, and the young lady receiving the greatest number of votes out of the 100,000 coupons which will be given away in the next four weeks, receives a round trip ticket, first-class, also \$100.00 expense money, free. It is in your power to give any favorite a pleasant and profitable trip at no expense to them or yourself. Ask us for the coupon. **We are a lot, and sometimes forget, but we want you to vote and are glad to give the coupon as well as our regular 5 per cent rebate check.**

Yours truly,
FRANK A. CRAM.

Mr. Berry representing Robert Wakefield who has the contract for blasting out the channel of the Columbia between The Dalles and the lower terminus of the proposed canal, was out looking over the ground Wednesday and found that the water was too high to begin operations. He expects, however, that work will be begun about September 15.—Mountaineer.

Joe Pursor invites the public to a free-for-all dance in his pavilion on Handscrabble ranch, Saturday night, August 27. His last dance for married folks only is said to have been a big success. Joe did most of the calling for the dance, and when he turned the work over to some one else, the dancers stopped immediately and demanded that Joe continue as before. It is understood that the proprietor of Handscrabble lives only to give the fruit dealers of Hood River a chance to grow rich, but while he does this Joe makes the most of life and always appears with a sunny smile on his face and a joke on the tip of his tongue.

Joe Wilson, after making a second examination of the stagnant pond below the city, finds that by actual measurement the water in the pond is six feet above the level of the slough in which the evil waters of the pond could be drained. The cut that would be required through the sand could be made 16 feet deep when it would drain every bit of the stagnant water from the lake. The distance from the northwest corner of the pond to the slough is about 400 feet. Mr. Wilson thinks that an open sewer pipe would keep the water drained off. This is a matter that should be investigated.

Mr. Hartwig says Mr. Hickie has a fine chance to make money on fruit in that locality. Some cherry trees that were budded last summer have this year made a growth of over four feet. Garden truck does well on this place. Water is secured from the ditch put in last winter by several of the settlers of the valley. While Mr. Hickie's place is at a considerable distance from town, the road is not so long as the route to Mount Hood settlement.
