

Important Notice

For the information of those who do not fully understand about the Voting Contest now on for a **Free World's Fair Ticket, with \$100.00 for expense money**, to be given absolutely free to the fortunate young lady receiving the greatest number of votes, out of a total number of 124,000 votes, which we merchants have been and will continue to give one vote with each ten-cent purchase, until the entire number is in the hands of the people, our customers, after which, with due notice, through the columns of this paper, the poll will close, and the lady receiving the largest vote will promptly receive her ticket and expense money, all of which is on deposit at Butler & Co.'s Bank.

At this time there are already distributed about 80,000 votes, and there are still in the hands of the merchants about 44,000 votes, which we will continue to give until they are all given out; as by mutual agreement we will divide with each other as long as any of us possess a coupon, so that every feature of the contest will be **fair, open and above board**.

We distinctly wish to state that we are not interested in the fortunes of any particular candidate, leaving that decision in the hands of the customers, and will gladly present my check for \$1,000 to any one who will truthfully say that my clerks or myself have ever solicited a vote for any particular candidate. This is simply in defense of misunderstanding the object of this contest, which is not a personal affair with me, but a business proposition which we went into to increase our business, and I thankfully say it has had the desired result.

We further wish to state the contest will close **Saturday evening, October 1st, at 9 p. m. sharp, standard time.**

We will continue to give coupons with every 10-cent purchase as long as they last, and believe that no one should be discouraged, as scarcely one-fourth of the votes have been polled yet, and no living person can foretell the result of the contest. Therefore, **back your favorites**, which costs you nothing, and will give her a pleasant, interesting and instructive trip at the choicest time of the year, **free**.

We are the only firm giving coupons in our line. We never have been so well equipped to please you as now, with **New Fall Stocks** of stylish **Dry Goods, Clothing, Shoes, Hats, Cloaks, Jackets, Skirts, Warm Underwear** and every new novelty on the market in our line. Ask for the coupons, as these are busy times with us, and in our rushes we might neglect some one, but will gladly rectify any error made.

Yours truly,

FRANK A. CRAM.

Dance Saturday Night.
Charles McCally announces in another column that he will give a dance Saturday night at the opera house. Everyone is talking of the coming affair, and that it will be a success is assured.

Mr. McCally is a violinist of reputation, and he has secured Miss Ball of The Dalles to play the piano.

Last Saturday night, Mr. McCally furnished the music for a dance at Menominee in the new dance hall erected by Cameron Bros. The floor of the hall is in fine condition, and there have been all sorts of nice compliments on the fine music furnished that night.

For Saturday night's dance, Mr. McCally has been fortunate in securing the following floor managers: Jim Hunt, J. J. Lucky and Ed Fewel.

Miss Mabel Walker, a Portland friend of the families of Thomas Shere and D. N. Byerlee, returned to Portland Monday after a visit of a month in the valley. After having seen up our old empty tin cans and going on short rations all this time feeling sure of an opportunity to join the gang and help to celebrate a most important event, but as too often happens, we were doomed to disappointment. Mabel says she would not so much mind hoeing strawberries, plowing hay, climbing trees to chase the big red ants, or even driving the line at getting up in the morning in the winter time and wading through two or three feet of the beautiful to the woodpile to swing a four-pound double-bitted ax a half hour getting enough old pine knots to fry the liver and bacon for her hubby's breakfast in time for him walk a mile to his work on Davenport's lumber flame. Mabel says she does not calisthenics, but would rather swing Indian clubs on a Turkish rug in dad's parlor than to be a two-bitted ax knee deep in the snow in her own hubby's back yard, and before she tackles a life job of that kind of physical culture she will send one of the Portland millionaires.

There is a second Mrs. Mabel, but we are sure you have missed an opportunity of a lifetime.

Promises Improved Light Service.
There have been many complaints of late because of the poor service furnished by the Electric Light Co., but if the public will be patient a little longer, Manager Vorse promises a greatly improved system in a few days.

The low stage of water in Hood River has lessened the flow in the flume at the power house, and this prevents the dynamo from working to its full capacity. Men are now at work lengthening the wingham so as to afford a stronger flow of water, and Manager Vorse states that his company has placed an order for a larger dynamo.

When this is installed the company assures its patrons that the service will be greatly bettered, and that it will be possible to supply twice the number of lights that are now taken. The wires of the company have been worked to their limit of late, but every effort will be made to improve the service.

Two carloads of piping have been laid for the new water system on the hill. Another car was expected to arrive last night, and two more have been ordered from the factory in Tacoma. The pipe is being laid as fast as it can be supplied.

New System of School Rewards.
Professor Cronin, assistant principal of the Hood River public schools, has introduced a new system of rewards for the diligent pupils of the Hood River schools.

The system was adopted at a teachers' meeting Monday afternoon, and is known as the button system. The pupil who is perfect in deportment for five days receives a little round button or stick pin bearing the word "Deportment." For punctuality and scholarship he receives similar buttons, which if he is permitted to keep for ten days each, entitle him to a triangular button bearing all three of the words "Punctuality, Deportment, Scholarship." If the triangular button is kept for 30 days the wearer is entitled to a diamond-shaped pin, and the pupils who have diamond pins at the end of the term will be given some suitable permanent reward.

The former system of granting a half holiday has been discarded. Principal Wiley believes the new system will meet with favor among the pupils and that it will be an incentive to good work and good results in the school room.

Principal Wiley received notification, Monday morning, from State Superintendent Ackerman that he had been granted a state life diploma. Professor Wiley's general average on the certificate was 98. For an average of this high grade he deserves congratulations. The enrollment Monday had increased to 380. The high school has an enrollment of 31 pupils, 13 in the tenth grade and 18 in the ninth.
