## BLOCKADE TIGHTENING.

Absence of News From Port Arthur Alarms the Slavs.

St. Petersburg, Sept. 29.—The entire absence of news from Port Arthur, it is feared, indicates a closer blockade there. Hitherto, dispatches from General Stoessel have been coming through semi-weekly. The admiralty has not received any details of the reported sea fight off Aniva, at the southeastern extremity of Sakhalin. The Vladivostok squadron, it is understood, is still in the harbor. The cannonading at Aniva was probably a Japanese attack on blockade runners.

A telegram received here from Batoum reporting that reserves are being transported along the Caucasian coast brings the first intimation that troops are being mobilized there. There are only two army corps in the Caucasus, and one of them has apparently been ordered to the Far East.

Prince Sviatopolk-Mirsky was received in audience yesterday by the emperor. The prince will assume charge of the ministry of the interior today.

The latest developments in the situation at the front is the definite establishment of the fact that Field Marshal Oyama has now begun to move up his left. General Kuropatkin's report shows that the Japanese have reached Davan, on the west bank of the Liao river. A considerable concentration of Japanese is observed at Sianchin, on the Hon river, 35 miles southwest of Mukden, and Japanese cavalry is massing in the vicinity of the Pu river. The latter is a tributary of the Hun river, which crosses the line of railway midway between Tie pass and Mukden, and may furnish a natural line of advance from the west.

Oyama's armies now apparently cover a front of 60 miles for enveloping movements. His wings are extended to the northeast and west of Mukden. Thus far the Russians have found little strength of pressure from the Japanese. Oyama seems to be moving with great deliberation, probably gathering strength for a rapid advance if both wings when an attempt is made to close the net.

Although the imaginary line connecting the extreme Japanese advance and west of Mukden still passes ten miles below that city, it is evident that the fate of Mukden cannot long be delayed. If General Kuropatkin intends to try to hold the city fighting on his flanks will begin almost immediately.

**ALEXIEFF TO COME HOME.**

His Position Will Be That of an Advisor to the Emperor.

St. Petersburg, Sept. 29.—Although an official announcement to the effect is not expected immediately, since it will require some little time to get Russia's second army in the field, the designation of Grand Duke Nicholas Nikolaevitch, the inspector general of cavalry, as commander in chief is regarded as practically settled. The situation at the front, with two, and perhaps ultimately three, big armies, is considered to demand, above all else, that the supreme commander be of such personal authority as to be able to quell jealousies and the possibility of intrigue on the part of subordinates, and such a man the emperor now realizes can only be supplied by a member of the imperial family. Grand Duke Nicholas is regarded as extremely well fitted for this great responsibility.

Grand Duke Nicholas will not rely upon a single adviser, but on a staff comprising the ablest strategists of the general staff, who in reality will constitute a board of direction of military operations.

Victory Alexieff is regarded as almost certain to return here. The report that he may become chancellor of the empire, however, is exploded. He is more likely to retain his title and come to St. Petersburg, nominally in the capacity of adviser to the emperor, and will thus efface himself as a factor of the military situation in the Far East.

**Threatened the President.**

Des Moines, Ia., Sept. 29.—Edward Dalhimer was arrested at Emmetsburg this afternoon by a postoffice inspector, charged with sending obscene and threatening letters to President Roosevelt, Miss Alice Roosevelt, Helen Gould and J. J. Hill. He is believed to be insane, and he proposed marriage and demanded money from Helen Gould. He demanded money of Hill. His letter to Miss Roosevelt is not made public. That to the president was filled with denunciation in vile terms and threats.

**Cars shops are Closed.**

Chicago, Sept. 29.—The Chicago, Rock Island & Pacific railroad company today practically closed down its car and locomotive shops here. The enforced idleness came unexpectedly. The union boiler makers employed in the shops had made demands for higher wages a few days before the shutdown came. General Superintendent of Motive Power Reed, however, denied that the shutdown was in any way attributable to these demands.

**Torpedoboot Lost.**

London, Sept. 29.—The British torpedo boat destroyer Chamois has been lost off the island of Cephalonia, in the Mediterranean. All on board were saved. While going at full speed on a trial yesterday, a screw blade came off, pierced the bottom of the destroyer and she sank.

## OREGON NEWS OF INTEREST

ASYLUM NEEDS AN ADDITION.

Steady Increase of Insane is Crowding Building's Capacity.

Salem—The steady increase in the number of patients at the state insane asylum will make necessary the construction of a new cottage next year, with room for 100 patients. Such a cottage, to be constructed at the asylum farm, will cost about \$25,000 and the legislature will be asked to appropriate money for that purpose. The growing population will also necessitate the construction of a new dining room at a cost of \$3,000, the new addition to be 40x40 feet and two stories high.

The last legislature appropriated money for the expense of replacing a number of worn-out lavatories and that work has been attended to. Other old lavatories and sewer connections have become faulty with age and must be replaced. To put these in good condition will require an appropriation of \$15,000.

The asylum building has not been painted for many years because of the fact it is rapidly showing the effects of time and storm. Superintendent Calbreath will recommend in his biennial report that the main building be repainted throughout. This will cost about \$12,000. All the permanent improvements needed at that institution will cost in the neighborhood of \$55,000.

At the school, minor school and blind school only minor repairs and improvements will be necessary and not very heavy appropriations will be needed for them. At the state prison many improvements have been made in the past year without definite appropriation and not much in the way of large improvements will be needed at that institution next year. The last legislature passed an act providing that the proceeds of convict labor shall constitute a betterment fund, which may be expended for repairs and improvements under the direction of the governor. By virtue of this act money has been expended from time to time and the prison property has been put in good condition.

**ELECTORIAL TICKETS FILED.**

Republicans, Democrats, Prohibitionists and Socialists Take Step.

Salem—The presidential electoral tickets of four political parties have been filed in the office of Secretary of State Dunbar. The parties represented are Republican, Democratic, Prohibition and Socialist, and it is understood that the Populists will also file petitions nominating an electoral ticket. John H. Smith, one of the nominees on the Democratic ticket, resigned, and his place was filled by the appointment of W. S. Hamilton by the state central committee. The electoral tickets filed are as follows:

Republican—G. B. Dimick, James A. Fee, J. N. Hart, A. C. Hough, Democratic—Thomas H. Crawford, John A. Jeffrey, W. B. Dillard, W. S. Hamilton.

Prohibition—Leslie Butler, I. H. Amos, W. P. Elmore, T. S. McDaniel. Socialist—S. H. Holt, William Beard, C. W. Barge, J. C. Herrington.

**Coming Events.**

Wallawa Fair association, Enterprise, October 3-8.

Eastern Oregon District fair, The Dalles, October 3-8.

Portland Presbytery, Fairview, October 10.

Baker county fair, Baker City, October 10-15.

Klamath County Agricultural association, Klamath Falls, October 12-14.

Oregon W. C. T. U. State convention, Portland, October 18-27.

Inland Empire Teachers' association, Pendleton, October 19-21.

**Teachers are Scarce.**

Pendleton—The Pendleton public schools have opened with a large enrollment in all the grades. Almost all the rooms are crowded and Superintendent E. B. Conklin is looking for suitable houses to relieve the congestion. Three new school houses will be ready for occupancy before the first of the year. At the present time scarcely one-half of the county schools have been supplied with teachers. County Superintendent of Schools Frank K. Welles is being besieged daily by directors asking for teachers.

**Coquette Sawmill Sold.**

Riverton—A company has purchased the Coquette saw mill and also Peart's coal mine adjoining Coquette City. The company will make extensive improvements at once, it is said, in both the mill and the mine. It is understood that the mill will start up at once for the purpose of cutting timbers for the new bunker which will be at once constructed for the mine.

**Coalbunker for Riverton.**

Riverton—The new coal bunker for the Riverton Mining & Development company is nearing completion under the supervision of the McLeod Bros., who have the building contract. This bunker has a capacity of about 600 tons, having an upper and a lower compartment for shipping and local trade, respectively.

**Shelves for State Library.**

Salem—State Librarian J. B. Purnam has procured four new oak book cases, with shelves on both sides, having a capacity of 1,000 books to each case. The cases cost \$125 each. This addition to the library equipment was made necessary by the accumulation of books which have been piled up on the floor, tables and shelves.

**Teachers Scarce in Linn County.**

Albany—Schoolteachers are scarce in Linn county and the probabilities are that some schools in the rural districts may have to remain closed during the year. Wages ranging from \$30 to \$55 are offered, but competent teachers are not to be found at the price.

**Wheat Market.**

Portland—Walla Walla, 80@81½; bluestem, 85c; valley, 86c. Tacoma—Bluestem, 86c; club, 81c. Colfax—Club, 71c; bluestem, 76c.

## CATTLE WILL STARVE.

Farmers Did Not Rotate Crops, and are Short of Feed.

Salem—The unfortunate situation in which Willamette valley farmers find themselves this year because of a shortage of feed for their stock is a cause for regret, especially since it is entirely unnecessary. When J. K. Sears said in an interview a few days ago that cattle will starve in the valley this winter for want of feed he told the plain truth. It is a truth we dislike to acknowledge, but it should teach us a lesson.

This is an assertion made by Director James Withycombe, of the Oregon experimental station, at Corvallis, while he was attending the state fair.

"I don't mean that any large proportion of valley livestock will starve, or that they will die because of the entire absence of feed. What I mean, and what Mr. Sears evidently meant, was that feed is so scarce that many farmers will put their stock on very short rations, with the result that they will become emaciated and will die from disease or exposure. Call it what you will, it is starvation."

"Now I refer to this only because I want to say and prove that it is a condition that is as unnecessary as it is unfortunate. This has been a very dry season, such as Willamette valley farmers had no reason to expect, but this does not excuse their being unprepared for it. Our experience at the agricultural college farm shows that if crops were rotated as they should be, the yield of hay would not have been light, and spring snow grain would have produced well, notwithstanding the lack of rain."

**Ashland Foundry Burned.**

Ashland—The Ashland iron works, foundry and machine shops have burned, involving a loss which may reach \$100,000. By hard work the detached pattern shop building was saved, but the molding, machine shop and office buildings, in which were much valuable machinery, were badly gutted. The fire started between the foundry and the machine shop rooms, from a cause unknown. The company carried insurance amounting to \$6,500. The plant was kept busy with orders, and employed a good sized force.

**Loss is Remarkably Small.**

Salem—About two sections of good timber were destroyed by forest fires this season in the Santiam country," says Manager John A. Shaw, of the Curtis Lumber company, of Mill City. "There were thousands of acres of slashing burned over, but fortunately the amount of good timber destroyed was small in comparison with the quantity of danger of destruction. The Curtis Lumber company lost about 640 acres of timber by fire."

**State Fair Has Balance.**

Salem—While not all the year's business of the state board of agriculture has been concluded, Secretary Wylie A. Moore files from his cards that the state fair this year came out \$2,500 to the good. The total receipts were \$30,000 of which \$10,000 came from the state appropriation for agricultural premiums. The fair board paid premiums to the amount of \$10,500, the additional \$500 being taken from miscellaneous receipts.

**Work on McKenzie Road.**

Eugene—Reports from the superintendent of the work on the McKenzie road show rapid progress and indicate much good to come from the \$6,000 expenditure, half of which was appropriated by the county and half raised by subscription. Already 15 miles of the worst part of the road have been put in first-class shape, and the crew will work about a month longer.

**Coquette Sawmill Sold.**

Riverton—A company has purchased the Coquette saw mill and also Peart's coal mine adjoining Coquette City. The company will make extensive improvements at once, it is said, in both the mill and the mine. It is understood that the mill will start up at once for the purpose of cutting timbers for the new bunker which will be at once constructed for the mine.

## DEATH LIST GROWING.

Sixty-Two Victims of Wreck on the Southern Railroad So Far.

Knoxville, Tenn., Sept. 28.—The death list, as a result of the fearful wreck on the Southern railway, near New Market, has grown tonight to 62, and it will probably exceed 70, as many of the injured are in a serious condition and more deaths will occur at the hospital. Today there were six deaths at that institution.

A force of 180 men toiled all day long at the scene of the wreck. Before 2 o'clock the track was clear for through trains, but it required many hours to clear the debris.

Small fragments of bodies were found today, but it is thought that they belong to bodies already found and brought to this city. One little baby was found by the wreckers, but that was all.

The cause of the terrible loss of life on the heavy east-bound train was explained today. It seems that the second coach plowed its way into a bank in such a manner that the other cars were jammed into it and pushed on by the weight of the heavy Pullmans were crushed like egg shells.

The physicians at the hospital state tonight that of the long list of injured which they have in their care, it is probable that not more than four will die. The complete list of injured as given by the railroad officials shows a total of 162, but this included all persons who were slightly hurt or scratched.

**PEACE MADE WITH REBELS.**

Uruguayan Government Now Has War Claims to Face.

Buenos Ayres, Sept. 28.—Confirmation has been received here of the report of the conclusion of peace between the Uruguayan government and the revolutionists under General Munoz. In explanation of the government forces surprising the insurgent camp, it appears that notification of the recent rupture of peace negotiations was communicated to Fernandez, a revolutionary political leader, but not to those under arms; and up to the moment of the unexpected attack by the government forces, the commanders of the rebels had not been informed that a rupture of negotiations had taken place. The fact becoming known that the revolutionists were not actively hostile led to the resumption of conferences, with the result that terms of peace were agreed upon.

There is general rejoicing here and in Uruguay over the outcome. It is expected that claims will be presented by diplomatic representatives of foreign governments for damages and losses to foreign residents to the amount of several million dollars, and the financial outlook is, consequently, gloomy.

**VESEVIUS VERY VIOLENT.**

Curious Tourists Kept Back From Danger with Difficulty.

Naples, Sept. 28.—The eruption of Vesuvius continues to increase in force, and is now more violent than any time since 1872. Red hot stones are hurled to a height of 1
