		6. 20 acres of unimproved land 6 miles from town, level and easily irrigated; will grow any kind of crops; close to school and church.....	1800
		7. 5 acres one mile from town, all cleared, fine berry or grass land.....	1100
		8. 80 acres six miles from town on West Side; 4 acres in bearing orchard; creek runs through the place; fine for fruit or grass; good 4-room house.....	3500
		9. Harry Brown place of 5 acres; 4 acres in strawberries; horse, wagon, harness, farm tools and a 4-inch water right go with the place.....	1500

WHITE SALMON

Mrs. Kingman of Trout Lake has been visiting her daughter, Mrs. Ferguson.

Mr. Clyde, the surveyor, is on the sick list.

Mr. and Mrs. Jewett made a trip to Portland last week.

Hotel Washington is getting the finishing touches now, and will be completed in a few days.

A good many fruit trees are coming to White Salmon lately. The dock here was full a few days ago.

G. T. Thomas, our retired merchant, has made some sweeping changes on his house lately, and is now building a new barn. Mr. Thomas has a nice store building in Blingen. We always thought he would move to Blingen, but the way he has been building lately, we take it for granted he is going to stay with us on the hill.

Mr. Turner is busy catching gophers in his alfalfa field these days.

Road Supervisor H. D. Cole passed through White Salmon last week.

Mr. Everhart, our real estate agent, received some inquiries about the White Salmon country lately. People are beginning to come our way, where land is not so high yet. Mr. Everhart has located several people here from Butte, Mont., during last summer and spring.

Plenty of beef. We see as many as three wagons a day coming around now.

Mr. Rosegrand and Dr. Gearhart returned from a trip to Arlington, where they have been hunting. They brought back some wild geese and jack rabbits.

Mrs. Zimmerman received word that her brother at Wasco had committed suicide.

Mr. Sisson went to White Salmon canyon last week to visit some of her relatives.

Josh Wiljers of Camas Prairie was in town.

As an evidence of the growth and prosperity of the White Salmon country, the fact that notwithstanding the establishment during the year of a number of new stores in the interior, the volume of business done by the merchants of this place has been much larger than in any preceding year, is conclusive proof of the substantial growth of the community.—Enterprise.

A. W. Balsiger returned from his old home in Eastern Oregon last Wednesday. Mr. Balsiger's father and mother have been very ill with typhoid fever, but we are pleased to learn they are now some better, and hopes for their full recovery are entertained.—Enterprise.

The Glacier man spent a few hours at White Salmon Monday. The rain kept him from getting around very much. Mr. Lauterbach showed him through the new Washington hotel, recently erected at a cost of \$10,000. Mr. Lauterbach has a very fine building, supplied with all the metropolitan conveniences. There are 25 rooms and two bath rooms, supplied with hot and cold water. The building will be well lighted with acetylene gas plant. By means of a windmill and tank, water can be supplied to all parts of the house. A large lawn has been laid out under the magnificent oaks. For the use of the guests there will be bowling alleys, billiard rooms and tennis grounds. Mr. Lauterbach was steward for years on an ocean steamer, and is just the man to cater to the wants of the fashionable summer tourists, who visit White Salmon by the hundreds each summer.

Wyers & Krepp, proprietors of the White Salmon-Trout Lake stage line, announce that they will shortly discard their horses and use mule teams altogether, for their long-distance work.

Mr. Myers is now in the interior looking for mules. The stage business is constantly growing, and shows conclusively that the interior country is rapidly becoming settled up.

A. W. Balsiger has moved his store goods into the new Fanning building on Jewett avenue.

Many of the White Salmon fruit growers are grubbing out their old orchards and planting healthy new trees, mostly of the Spitzenberg and Yellow Newtown varieties. White Salmon can grow fine apples and the people there intend to take advantage of the opportunities before them.

John H. Glinder of Vancouver, formerly proprietor of the Skamania County Pioneer, is the new proprietor of the White Salmon Enterprise. We believe Mr. Glinder will give the good people of White Salmon the sort of a newspaper they have long needed.

TROUT LAKE

Mr. Weburg, who has been confined to his bed with cancer of stomach is still growing weaker.

Miss Loy of Husum is visiting her sister at Guler.

The four children of John Petersen, who have been down with typhoid fever, are improving slowly.

The ladies of Trout Lake met in the hall over W. B. Cole's store November 4, and organized a Ladies' Aid society with the following officers: president, Molla Stademan; secretary, Effie Byrket; treasurer, Rosalia Boze. Their first meeting was at F. M. Coates' on Thursday where they spent the day sewing for the Petersen family. They meet next Thursday at the home of James Cox.

Mabel Heyting of Gilmer, spent the past week visiting at Mrs. Blew's.

A number of camps have started on the White Salmon river all putting in logs for the Menominee Lumber Co.

B. C. Dymond of Fula is in our valley with his hay press. He has about two weeks baling here.

Notices are out for a grand mask ball to be held at Thode Bros. hall, November 19 at Guler. A cordial invitation to all, and prizes to be given for best sustained characters.

Mat Martin and mother of Hood River are to be residents of Trout Lake for the winter. Matt still acts as scaler for the Menominee Lumber Co.

Mrs. R. M. Krepp and son spent Sunday with Mrs. W. B. Cole.

DUKES VALLEY

As Dukes Valley has not appeared in the paper for the last two weeks I will try and scratch a few lines.

The saw mill has started up in full blast and intends to knock out the lumber at a lively rate.

C. R. Bone cut the wages of his hands last week and most of them quit. The Japs are still at work, but they are working for the same as they got in the summer. They say that the Japs are more steady than the whites, but just cut their wages and see how long they will stay.

A. J. Kassel intends to build a house on his homestead and move up on it. This is right, and all who take homesteads ought to live on them, as this land is given them to make a home; and in order to make a home the land must be cleared and improved. They are supposed to live there for five years and those who do this are never beaten out of their homes, but those who do not comply with this law are not entitled to a home and ought not to have one given them.

The writer was up on Gilbert Edgington's place last week. Gilbert has a homestead and has done quite a lot of work on the same. He has made this his home almost continuously ever since he took it. He has worked out it is true, but the place was not vacated

even then, as he went home every Saturday and Wednesday to see that his place was cared for, and to see that the stock did not break in and destroy the winter wheat.

The Dodge Bros. have taken a contract to clear on the Booths' ranch. They have started their grubbing machine to work and are tearing out grubst at a lively rate.

The Salmonlund literary will meet hereafter on Saturday evenings and will meet semi-monthly. Their next meeting will be November 26, and as we have two weeks to prepare our program, a good one is expected. There will be a debate at our next meeting. The question for discussion is, "Resolved, That the world's fair at Portland in 1905 will be a detriment to the Pacific coast." As there are some able speakers on both sides we have reason to think that the debate will be lively and we expect a large crowd. All are invited to come and are expected to help us out in the program.

BARRETT

You are invited to call at the Rockford store and inspect the new computing scale which has just been placed on the counter. It is up-to-date and on such a machine you are sure of getting your just or correct weight.

Professor Thompson and several others have had new telephones put in their homes during the last week so we shall expect to hear the ring of the bell a little more. Rockford says give your orders over the phone, ladies.

George Stranahan has had a man at work during the last week covering up his potatoes so as to keep them through the winter months. There is not a thousand sacks, but George has surely got a large number and expects to make a good thing out of the potatoes.

Fred Ingalls has been very busy the past week hauling gravel to fix up around Ma's house and the road leading up to the barn.

Charley Gibbons has gone to work in the lumber camp at Greenpoint for Davenport Bros. Charley is a regular hustler.

John Gibbons is now digging potatoes. John says spuds pay well, and he thinks they will be worth big money after Christmas.

Mrs. E. C. Brayford is visiting at the Rockford store with Father and Mother Brayford. Mrs. E. C. thinks Hood River is just the place. It is verily a paradise.

S. M. Smith has bought one acre of land from Holla Phelps near the Barrett school house and will build a house in the near future.

The Rockford store has accepted the agency of the Paradise laundry. All goods received not later than Tuesday will be returned Saturday.

PINE GROVE

Having sold their ranch on the East Side, G. D. Boardman and family will leave Monday, November 21, for California, where they will spend the winter, returning to Hood River in the spring.

Homer Perry has returned from Sherman county, where he has been working the past summer.

Edward Lage came up from Portland last Saturday, where he is attending school. Ed cast his first vote for president last Tuesday, and of course voted for Teddy.

John H. Mohr left last week for Menominee, where he is packing apples for Mr. Locke.

A few friends gave Edward Lage a surprise last Monday night, by calling at the home of his parents.

Mr. and Mrs. Sieverkrupp celebrated their silver wedding Sunday, November 13. A number of their friends were invited in to spend the day, and

a fine dinner was served. Mr. and Mrs. Sieverkrupp were the recipients of a number of presents.

Henry Elrod, who holds a position as forest ranger, is at home again working on his place.

Miss Mabel Riddell, principal of the Pine Grove school, spent Saturday and Sunday in The Dalles visiting at the home of her parents.

A party was given at the home of Mr. and Mrs. Jack Clark Saturday night. A pleasant evening was spent playing games and dancing, after which a lunch was served. All those present report a very pleasant time.

Mr. and Mrs. A. J. Henderson and family of Blingen, Wash., are visiting at the home of Mrs. Henderson's parents, Mr. and Mrs. Hans Lage.

Mr. and Mrs. H. M. Metcalf, Jr. of Hood River and Mr. and Mrs. J. A. Morris of White Salmon spent Sunday with relatives on the East Side.

The Portland Oregonian and The Dalles Chronicle have been bragging about the large fishia they have, the fish being five feet, three inches. We have one in our high school room that is five feet two inches, it being the Storm King fishia. They have only one inch to brag of.

BELMONT

Hurray for "Teddy!"

Mrs. S. S. Noteman returned last week from her homestead in Gilliam county. She brought with her a stem bearing three red peppers, measuring 13, 14 and 14 inches in circumference. The peppers were given by H. D. Fletcher, who rents Mrs. Noteman's place there. This demonstrates that Gilliam county produces things other than grain.

E. Smith and family of Colfax, Wash., are visiting Mrs. Smith's parents at Belmont.

Mr. and Mrs. Charles Cook and the Misses Lottie and Blanche Woodman of Hood River, were guests at the home of J. B. King Sunday.

The quarterly conference held at the Methodist church last week was well attended. Rev. Evans of Hood River, took the place of the Elder.

The Misses Mills and Field of Spokane, are visiting with Rev. H. C. Clark and wife.

Mrs. Joseph Luser has resigned her position as cook for the ditch camp of the Farmers' Irrigation Co. Mrs. Luser's place was filled by Mrs. B. F. Barrett of Belmont.

We have been having fine weather for ducks—I don't think.

James Morsion has gone to work for the Farmers' Irrigation Co.

We can say we are glad to hear of Hood River going dry at this year's election. It may cause more irrigation but we can stand that.

Mrs. Harry Grubb and daughter of The Dalles are visiting at the home of M. H. Nickelsen this week.

There will be services at the church at 11 a. m. on Thanksgiving day. Everyone is invited to bring a thank offering, which will be sent to the deaconess hospital at Spokane.

MOSIER

Henry Bateman's Sunday school class, chaperoned by the Misses Mosier and Gulovson, were most pleasantly entertained on Saturday with a trip to the Bateman farm. By previous arrangement, the children assembled at the Mosier house, where Mr. Bateman met them with his conveyance, and gave them a most delightful drive over the hills to his home. The time was pleasantly spent playing games on the lawn. After the dusty lunch prepared by the young ladies, Mr. Bateman turned the children loose into his vineyard and walnut grove, where

they filled their empty baskets with grapes and walnuts. After having indulged in these merry sports throughout the day, the jolly party were driven home, horses and girls decorated alike with chrysanthemums.

After a month's sojourn in his ranch at Pine flat, the people of Mosier were all glad to welcome their genial agent, E. A. Gilbert among them.

A. E. Hogan has been on the sick list during the past week.

Miss Kate Davenport visited in Mosier over Saturday and Sunday.

Mrs. James Burlingame, after visiting with relatives in the East for several months, returned home Monday.

Mr. Cash, having completed the packing of about two car loads of Spitzenbergs and Yellow Newtowns, returned home Saturday. He expressed the opinion that he found the ideal apple grown in Miss Dollie Mosier's orchard.

Mr. Neff, the county superintendent, visited schools near Mosier, Friday.

Mr. Spite, the newly appointed minister of the Baptist church of Mosier, delivered his first sermon Sunday.

Mr. Phol, the poultry man of Eighteen-Mile creek, has completed a very large chicken house to house his hens, from which he expects to produce eggs for winter market.

The Mosier box factory is contemplating manufacturing doors and windows.

Why don't some enterprising person engage in the laundry business in Mosier? They surely would be well patronized.

The next thing Mosier needs is a drug store and a doctor.

ODELL

A look at the home of L. D. Boyd last week is still another proof of the reward of enterprise. Mr. Boyd's home is easily the nicest in East Hood River valley. The house is a model of beauty and at the same time combines the comforts and conveniences of a modern city dwelling. The lawn in front and on the south side of the house looks as if made to order, fitting the house and surroundings to a "T". The water supply comes from a reservoir on the hill west of the house, which is filled by means of a pump throwing an eight-inch stream of water and run by a gasoline engine. With an abundance of water from the Bone ditch Mr. Boyd is enabled to produce one of the best gardens in the valley. Corn grows to perfection, a thing not generally conceded to Hood River valley; while all kinds of vegetables and fruit attain a high degree of perfection. There is a stalk of cauliflower standing on a sturdy stalk that is three feet high, topped out with a huge cauliflower that will measure 12 to 14 inches across, all white and tender. Pie pumpkins are scattered over a small piece while each one of them seems contesting the right of the others in the same garden. Mr. Boyd has sold 40 of his quarter section to 40 acres, part of which he has cleared recently, and with his bearing orchard and the new one planted, he has promise of a good revenue soon. He intends to burn a kiln of brick next season and build an apple house, which will be about as cheap as lumber and far preferable. This charming home is an object lesson to those seeking investment in the valley. Mr. Boyd's improvements are all of a substantial character. What he does is well done. He is a mechanic and knows that cheap improvements finally prove expensive. We congratulate Mr. and Mrs. Boyd on their pleasant home, which will always be kept white Mrs. Boyd is there.

C. R. Bone and wife were on the road recently with a brand new rubber tired buggy, that is both graceful and silent in its movements. In this fine

turnout behind her favorite roadster Mrs. Bone looks quite satisfied.

Watch chains with a cheap glitter are in evidence at Odell today, but 'tis not all gold that glitters. Strange that some folks are always ready to buck some other fellow's game. I know of but one sure thing game and that is the red apple game of Hood River valley. Try it and in five or six years you will be a big winner. You will get money out of it without going to the trouble of writing home for it.

A concert was rendered last Saturday night at the union church here to an audience of about one dozen. Next time you are coming better give your notice to the Glacier correspondent, and then people will know of your coming.

Hubert Morton and Harry Kemp started forth for a fine day's sport of fishing last Saturday, and just about the time they were ready to tempt the finny tribe to take the fly, the splash dam was turned loose and proved a disturbing element in their day's sport. We all have our troubles but they say you had better tell them to a policeman.

The apple picking is nearly over. Mr. Brook of the Watt orchard has yet a thousand boxes to gather which will require his presence for another week. Mr. Brook has apples till further orders.

Mr. Gasbode from Portland, who owns 40 acres with 20 acres of growing trees, part of the Booth place on Willow flat, called Saturday at the Little White Store on the way to his orchard. His brother just out from Wisconsin, was with him looking over the valley. He wants to purchase 40 acres of land. The last part of this paragraph is for the benefit of real estate men. Go after him and land him.

Rumor is rife that C. R. Rogers has closed a deal on the 25-acre tract near Odell. I've been telling you weeks were bargains here, and Rogers knows one when he sees it, and backs his judgment. But there are others, so come along.

H. M. Poole went to The Dalles last week to take charge of the plastering of the Odd Fellows' building there.

Fred Crockett and Mr. Anderson went overland to The Dalles Thursday. Fred took a herd of horses to winter quarters near The Dalles.

Otto Ehrck spent a few days in The Dalles last week.

Who said the wood business was dull? The Little White Store people have an order for three cars that they must buy in order to fill.

Another transfer of property last week at Odell. Shelley & Son have bought the stable recently built by Mr. Poole.

Mr. Bone's saw mill in Dukes Valley started up last Monday. The mill is now roofed over so they can run wet or dry. This is good news here for it means flame lumber.

The Little White Store is agent for the Paradise laundry. Goods left here not later than Tuesday will be returned Saturday.

Walter Massey, a young man of Dukes Valley, purchased a piece of land a year ago on time, and by dint of energy and hard work has paid the interest on the whole thing and his first annual payment, and besides this has cleared 5 acres and has it already plowed and mowed in his jeans. Walter was not old enough to vote last week, but during the last year has without means accomplished more than the average voter.

A new wagon sheet that will fit over bows on the wagon is offered cheap at the Little White Store.

Ralph Lewis of Belmont spent Sunday here. He was driving his yearling colt. This is an Allamont, and will make a fine driver. The writer is the owner of a tall brother of this one of Ralph's, which in two years should be able to

hit only the high places. When he is hitched up, we ought to chase the festive item at long distance.

Mike Neff and family, Mrs. Oiler and Miss Winans of Hood River were the guests of Mr. and Mrs. Frank Neff last Sunday.

Now is the season of long evenings, when literary clubs and whist parties are in order, but we have neither at Odell.

Pumpkin pie is the real thing these days. Try one of the pumpkin pies on sale at the Little White Store.

If you want nice Christmas books call on Mrs. Roswell Shelley, who has an illustrated catalogue. The prices are right and they can be delivered on short notice.

Davidson Bros. have row after row of sacked potatoes standing in their orchard on what was part of the Chris Dethman place. Besides they have acres on Willow Flat all of them having been grown on their newly planted orchards. Notwithstanding the price is low at present, yet the cost of a crop of spuds is nominal where they are grown in young orchards that must be cultivated, and bring in quite a revenue. These people are wide awake and in a few years will have a handsome income from apple trees recently planted. Willow Flat is widely and favorably known, and why? Because it is in the hands of men with both means and enterprise.

MOUNT HOOD

The weather has been very dry for this time of year up to this week. In fact it looks dry for the next two years at least. We don't drink anyway.

Warren M. Cooper put his hand mashed last Friday, or part of the fingers on one hand. He caught it between two blocks of wood in some way.

Mr. Rhunke is here looking after his ranch. At present he is located at LaGrande running an engine on the road. He will return home this week.

The revival meeting still goes on, but we don't think it will last much longer.

S. A. Helmer butchered a fat hog last week that weighed 465 pounds. How is that for Mount Hood, we ask?

The Mount Hood Water company will be incorporated here this week with a capital stock of \$3000 to be divided into 300 shares at \$10 each. It is the company's intention to file on 2000 inches of water in Hood river.

Ayer's

Falling hair means weak hair. Then strengthen your hair; feed it with the only hair food, Ayer's Hair Vigor. It checks falling hair, makes the hair grow, completely cures dandruff. And it always restores color to gray hair, all the rich, dark color of early life.

"My hair was falling out badly and I was afraid I would lose it all. Then I tried Ayer's Hair Vigor. It quickly stopped the falling and made my hair all round thick as it used to be."

KENNEDY E. ALLEN, Elizabeth, N. J.

Prepared by J. C. Ayer & Co., Lowell, Mass.

Falling Hair
