AT AWFUL COST.

Japanese Continue Their Attack on Port Arthur.

London, Dec. 1.—According to a Tokio dispatch to the Standard, there is an official rumor that the Japanese have landed large caliber guns to the top of 203-Meter hill, whence their fire has a sweep of the whole harbor. This report doubtless goes beyond the facts; but various dispatches indicate the progress the Japanese are making in the reduction of Port Arthur. Japanese here explain the great importance of the capture of 203-Meter hill, which, besides giving command of the harbor, will serve as a wide breach made by the wedge the Japanese had previously driven in between the Etz group and the Russians' last retreat in the ravines of Laotie mountain. They declare that retreat to Laotie will be effectually cut off, and it is not unlikely that Laotie will be simultaneously attacked in the final assault.

Bennett Burleigh wires to the Daily Telegraph from Chefoo that in the last attack the Japanese lost 400 men in one hour's fighting. They claim to have captured two more of the north-eastern forts and a third, which is part of the West Kew fort. They assert, Mr. Burleigh adds, to have effected a lodgment at Pigeon bay, thus turning the fort on 203-Meter hill, and that they are now tunneling from the gorge below Laotie hill, which they hope first to damage and then rush. The dispatch continues:

"Desperate fighting is proceeding daily, and the losses are admitted to be excessive, but the Japanese insist that Port Arthur must fall within 21 days." The Morning Post's correspondent at Shanghai telegraphs that wireless communication has been re-established between the Russian consulate at Chefoo and the Port Arthur garrison.

PLANS GREAT BRITISH ARMY.

Kitchener's Reorganization Scheme Greatly Enlarged.

London, Dec. 1.—The war office is in possession of the full details of Lord Kitchener's army reorganization scheme. No secret is made of the fact that particular mention has been paid to points which would offer convenient centers of Russian invasion in the event of hostilities and in view of the recent intelligence the original plan was considerably extended.

The keynote of the reorganization, which will entail expenditures to the amount of \$50,000,000, is to secure through war training a great army in times of peace, and to place the troops not only where they can obtain instructions, but where their presence will be of permanent strategic value.

With this object in view Northern India has been divided by parallel lines into a number of areas with their upper points converging on the frontier, and their respective bases well down in India. Were the order to mobilize given seven or eight field forces, each from 15,000 to 20,000 strong, could, in a few hours, be concentrated on the borderland from east to west.

FIRE ON TOWN.

Strikers at Zeigler, Illinois, Send in 500 Shots.

Benton, Ill., Dec. 1.—Zeigler was fired upon last night from sundown to daylight. It is estimated that no less than 500 shots were fired at the town. The town was completely surrounded, and the firing came from every quarter. Response to this fusillade was made by four Gatling guns placed at various points about the mine buildings. Assistant Adjutant General Rees and the Carbonado militia company arrived at Zeigler today, and General Rees will remain several days to investigate the situation. It is thought that still more troops will be brought.

Joseph Leiter reached Zeigler today with more miners from Chicago. Examination of the ground this morning showed that the men who were firing stationed from one-half to three-quarters of a mile from the town. Almost a bushel of empty shells of every size were found in the woods.

A trail of blood was found on a rail fence, and from this it is supposed at least one person was wounded. Further trouble is anticipated.

Russia Fears Crisis is At Hand.

St. Petersburg, Dec. 1.—Foreign reports of the fighting at Port Arthur are accepted here very seriously. If the Japanese have taken 203-Meter hill, as reported, commanding the whole harbor, it is believed that the situation is critical. Experts on Port Arthur topography assert, however, that it is more likely that the Japanese have occupied some positions at the base of the hill, and believe that owing to the concentrated fire of the covered forts the Japanese will find the top of the hill untenable, if taken.

Coast Shipping Considered.

Washington, Dec. 1.—The Merchant Marine commission today made further progress toward completion of its report to congress. Some attention was given to the difficult problems presented by the conditions on the Pacific coast. The commission regards American shipping relatively stronger on the Pacific than on the Atlantic coast at the present time, yet the American ships, it is stated, are being severely pressed by foreign competition.

Calls Witnesses in Smoot Case.

Washington, Dec. 1.—Senator Burrows, chairman of the committee on congress, has issued subpoenas for 20 witnesses in the Smoot investigation and fixed Monday, December 12, as the date for their appearance before the committee. Nearly all these witnesses are in Utah.

OREGON NEWS OF INTEREST

LIBRARIES FOR PUBLIC SCHOOLS.

Light Tax Not Burdensome in Oregon—Convention of Officers.
Salem—Two deputations in public school work are proving very successful wherever tried and promise to become permanent features of the public school system. They are the common school library, supported by special taxation, and the convention of school officers. Four counties have levied the library tax, amounting to 10 cents per capita upon the school population, and it is found that by this means the country schools are provided with books as good as those accessible to the pupils of town schools.

"The tax, being one-tenth of 1 mill, is not felt," says Superintendent Alderman, of Yamhill county, "and it puts the best books where they do the most good. The library law has now been in operation two years and has given complete satisfaction. While the amount that some of the small districts get is small, yet it is in proportion to the number of pupils. I consider the law a boon to the country boy and girl and I think it ought to be made mandatory on the county courts."

Conventions of school officers have been held this year at Baker City, Dallas and McMinnville, at each of which there was a very full attendance of school directors and clerks. Addresses were made by Superintendent Ackerman, by the county superintendent and outside educational workers, and those present held discussions of topics of general interest to school officers.

Consolidation of schools and school districts was one of the principal topics discussed at these conventions and the members of school boards learned the plan and purpose of this latest move for the improvement of the rural schools.

Briggs Strikes It Rich Again.

Grants Pass—David Briggs and boys, who were made rich in a day by the fabulous surface wealth of the Wounded Buck claim, on Upper Sucker creek, have located a new upper Chetco, away up in the mountains near the Curry county line, and will work the rich ledge they have found there. They have had samples from this claim recently assayed here, and while they do not give the returns the Wounded Buck quartz has given, the proposition appears very promising, and the lucky family will move their scene of operations from the Upper Sucker to the Chetco. The Wounded Buck is under bond to a company for a consideration of \$100,000.

Government Gets Site.

Baker City—A deed has been filed with the county recorder for 100 feet square on the corner of Main street and Auburn avenue. This was the site selected for the government building soon to be erected in this city. The deed calls for \$4,800, the amount appropriated for the purchase of a site, while, as a matter of fact, the property brought over double that amount, the balance having been raised by adjacent property owners.

Wind Puts Crops in Danger.

Weston—"The grain is in a safe condition yet, but if the high wind continue blowing it will do you what moisture there is in the soil, and unless rain comes soon, would seriously interfere with the grain that is sown," says James Kirkpatrick. "There is always a tendency to raise a cry of distress as to the future outlook of the crops, and, in truth, we have never seen it seriously injured yet, providence always providing at the needful time."

Electric Companies Consolidated.

La Grande—The La Grande electric company has consolidated with the Cove Power company, and they have incorporated under the name of the Grand Ronde electric company. The directors are Walter Pierce, J. A. Thomson, T. H. and Clarence Crawford and T. B. Berry. The consolidation was effected by the La Grande plant needed more power. The power from Cove will have a fall of 890 feet and will require 3,700 feet of pipe to convey it to the power station. The force will create 400 horse power.

Great Stacks of Cordwood.

La Grande—At Kamela, 25 miles west of here, there are 3,000 cords of wood stacked up in the yards awaiting shipment to different wood dealers in towns west of here. At Meacham, near by, almost as much more is piled up. Wood is now selling on board the cars in the mountains at from \$2.50 to \$3.25 per cord, and it is said there is scarcely a cord left in the timber. When cars are available, big shipments will be made by the dealers.

Oregon Supreme Court Reports.

Salem—Volume 44 of the Oregon supreme court reports is out of the bindery and the books have been delivered at the office of Secretary of State Dunbar for distribution to the judges and district attorneys and to be placed on sale to those who wish to buy. The state sells the reports at cost, \$3.50, and those who get the volumes by mail must incise 27 cents for postage.

Power Plant Almost Ready.

Milton—The flume for the Milton city power plant has been completed and workmen are finishing the power house. The plant will be completed about December 15.

Northwest Whical Markets.

Portland—Walla Walla, 83c; blue stem, 88c; valley, 87 1/2c.
Tacoma—Bluestem, 85c; club, 88c.

DEWEY MAY BE SENT.

United States Government Has Not Been Officially Informed.

Washington, Nov. 30.—Gratified by the spirit which has animated the contracting parties in agreeing to intrust to a commission the ascertainment of the questions of fact connected with the North sea incident, the United States government will cordially cooperate in the naming of the commission by the designation of one of its high naval officers as a member of that body. The outcome is especially pleasing to the administration, following as it does so closely on President Roosevelt's invitation to the powers of the world for a second Hague conference.

The popular impression has been all along that Admiral George Dewey, the ranking officer in the American navy, would be asked to be the American representative on the commission, although other names have also been mentioned in connection with the appointment. A decision will be reached promptly after the formal invitation has been received from the Russian and British governments as to who shall be designated.

This formal invitation has not yet been received, the two governments in the negotiations which have been in progress between them acting entirely on the presumption that the United States would cheerfully give its assistance and detail a naval officer.

JAPANESE OVER THE HUN.

Rivers Will Soon Bear the Weight of Transport Wagons.

Tokio, Nov. 30.—News received from the region of the Shakhie indicates that the Japanese have been across the Hun river. Further reports are to the effect that the Russian outposts on the right bank of the Shakhie were within 300 yards of the Japanese picket line. Frequent exchange of gun fire occurred and minor attacks are quite everyday affairs. The rivers will soon be frozen sufficiently to bear the weight of the heavy transport wagons. The following report has been received from Field Marshal Oyama:

"From the night of the 25th to the morning of the 26th bodies of the enemy's infantry attacked us in the vicinity of Sigitau, Fragig and Shatoukan. All these attacks were repulsed. In the afternoon of the 26th the enemy's artillery east of Taaha hotly cannonaded us, but we suffered no injury."

Hammond Company's Title Clear.

Astoria—A deed has been filed for record whereby the Seaside Spruce Lumber company sells to the Hammond Lumber company 2,184.67 acres of timber lands in the Necanicum river district. The price is not made public and the consideration named in the deed is \$100,000. The transfer is understood to be the settlement of the claims held by numerous persons and firms against the Seaside company. These claims have all been settled and the mill property leased, so that it can resume operations at once, after a shut down lasting for several months.

Trappist Colony in Linn.

Albany—A colony of Trappist Fathers has been founded in Jordan valley, in the northern part of Linn county. Having been forced to leave their homes in France because of religious persecution, a number of these Trappist Fathers have come to the United States, and six of them located in Jordan valley, about three months ago, with the ultimate object in view of founding a Trappist colony there. They recently purchased considerable land, and are preparing to make extensive improvements, in anticipation of the arrival of more than 50 of the same order from France next spring.

Heavy Rains Loggers' Boon.

Astoria—The severe storms recently, with the accompanying large rainfall, has had benefits that may do not realize. It has been a boon for the loggers, and logs have been floated out of some streams that have been on their banks for a couple of years. How many feet of logs have come out of these streams to tidewater cannot yet be estimated with any definiteness, but it is fully 20,000,000 feet, and it may be double this amount in the Lower Columbia river district.

Eating Spring Vegetables.

Pendleton—The markets of Pendleton and Walla Walla are being filled with all the vegetables to be had early in the spring. Because of the exceptionally good weather of the fall and the few rains at the right time, gardeners have been able to produce all of the early vegetables. The good weather has been ideal for these growers, but the farmers are somewhat worried as to the effect the dry weather will have upon next season's grain. The extreme dryness has again necessitated the use of the street sprinklers.

Only Few Sates of Cattle.

Susanville—The sale of beef cattle has been light in this vicinity this season. A Portland buyer picked 107 head from a round up of several hundred, paying from \$2.10 to \$2.50 per hundredweight, the former figure being for cows. Few cattle will be wintered here, no more than to supply the local market. Some are being driven to Prairie City, but the greater number will be taken to various places down the river.

Power Plant Almost Ready.

Milton—The flume for the Milton city power plant has been completed and workmen are finishing the power house. The plant will be completed about December 15.

Northwest Whical Markets.

Portland—Walla Walla, 83c; blue stem, 88c; valley, 87 1/2c.
Tacoma—Bluestem, 85c; club, 88c.

FRAMING BILL

House Committee Looks After Rivers and Harbors.

COLUMBIA RIVER IN HIGH FAVOR

Classed as One of the Most Important Improvements—Will Be Taken Care of First.

Washington, Nov. 30.—The house committee on rivers and harbors held a preliminary meeting today to prepare a bill which will be ready for presentation to the house before the Christmas recess. The measure was discussed only in a general way, but an agreement was reached that the more important projects would be taken care of first by the committee and the less important afterward. Representative Jones, of Washington, will look after the interests of the Columbia river, the improvement of which means so much to his constituents in Washington. Members of the committee who were seen today were of the opinion that the Columbia project properly came within the classification of important, and it will be among those considered first.

Mr. Jones was present today. In addition to caring for the Columbia river work, Mr. Jones will control to a large degree appropriate ones for improvements in the state of Washington.

It has been definitely determined that a river and harbor bill shall be passed at the approaching session of congress. Chairman Burton decided to get his committee together in advance of the convening of congress, so as to complete work on the bill and have it ready to present to the house just before the holiday recess. Once the bill is called up in the house it will take but a short time to get it through that body, and it will go through in practically the shape in which the committee reports it.

In the senate, however, there is likely to be considerable discussion of various features of the measure, and there is apt, before the bill reaches the senate, to be considerable discussion and amendment by the senate committee. The senate will, of course, pass the bill about as it comes from the committee on commerce, with probably a few amendments, increasing individual appropriations. Then it will be in the bill, and this will have to be done by the combined efforts of the various members of delegations whose states are interested.

TRIES TO HOLD MEETING.

Herr Most Taken Into Custody by St. Louis Police.

St. Louis, Nov. 30.—John Most, alias Herr Most, anarchist of New York, was arrested at 11 o'clock tonight after a fruitless effort to hold a meeting in St. Louis, and is now a prisoner at the Four Courts, held for Chief Kieley.

For ten days St. Louis detectives have watched Most. He was to have made a speech in National hall on Sunday afternoon, November 29, but the police prohibited it in view of the approaching visit of President Roosevelt.

He remained in St. Louis until last Wednesday, when it was announced he had gone to Chicago. Instead, it is declared he went across the river to East St. Louis, where he remained at the home of a friend until last night, when he recrossed the river. With the presence of Most in the city, it has developed that an international convention of anarchists was held in St. Louis for ten days just prior to the arrival of President Roosevelt. Chief of Police Kieley had a man at the meeting who made a complete report to him of the proceedings. It is declared that the chief business transacted at the convention, in addition to numerous speeches on liberty and free speech, was a resolution binding each delegate to use his influence to bring about a strike of all trades unions in the country next spring.

NEGOTIATING FOR STEAMER.
