MAY GET NEW COUNTY.

The encouraging news from Salem is gratifying. We hope the result of the vote in the house today will show it has been passed by that body. It is said by many that if the measure meets with success in the house it will have little difficulty in passing the senate.

A new county means prestige and pro gress for Hood River. The voters here and shronds. Imagine the embarrassstand as a unit for Cascade county. A ment of the poor knights when they few were not strongly in favor of it at discovered they had been dancing with few were not strongly in favor of it at first, fearing it might mean increased taxes. A little explanation dispelled this fear. There will be no need to caught at it by those whom they would erect public buildings for years to come, or not until, as the people of Sherman county did, we find a surplus in the

Kelsay of the Davenport Bros. Lumber Co., John Leland Henderson, Leslie Butler. Houses haven't been built fast enough and people are living in tents. Irrigon people boast that they will have strawberries ripening two weeks in advance of the Hood River berries. This may be true, but whether they will withstand shipment beyond the local markets remains to be demonstrated. Be that as it may, Hood River will have no cause to worry lest Irrigon robs this place of honors. Irrigon has a grand future with the irrgating system completed. In time of county office-holders, has been at that locality will solve the problem of Salem doing all in their power to thwart what fruits are qust adapted to the soil and climate there,.
