

ODELL

EAST SIDE BERRIES BRING GOOD PRICES

By Roswell Shelley.

Odell, East Hood River Valley, June 14.—The past week has proven the most strenuous week in the history of the Little White Store. Between getting goods from town and delivering groceries to the pickers on Willow Flat there is not much time to kill. The late frost did some damage to the berries in this section yet withal that the good side of it is that the crop is later in maturing and brings an advance over the price of the earlier berries grown on the West Side.

The Mount Hood people are now just beginning to pick and will no doubt get prices that will make them money. J. H. Shoemaker and wife of Barrett, in company with G. R. Wilber and wife of Portland, were callers at the Little White Store last Friday on their way for a few days' outing at the Falls. Mr. Wilber is an attorney having offices in the Concord building, Portland. He and wife were delighted with the valley, it being their first visit here. Mr. Shoemaker paid the writer the compliment of saying that they had driven miles out of the way to show his friends the Little White Store park and Odell, the hub of East Hood River Valley. We wish all residents of the valley were as proud of its development as is friend Shoemaker. Call again.

Mr. and Mrs. Edward Ehrman were guests of Mr. and Mrs. Roswell Shelley on Sunday. Mr. Ehrman is manager of the firm of Mason, Ehrman & Co., wholesale grocers of Portland. This was their first trip out in the valley and it proved a real treat to them. Mr. Ehrman is a thorough business man and one of the leaders in business in Portland. After looping the valley and looking over the Willow Flat berry fields he went home fully impressed with the fact that this

valley has a future far beyond the most sanguine expectations of the old timers here. Mr. Ehrman's large experience in business affairs enables him to look clearly into the concerning the development of the country. This qualification accounts for his success in business and his present enviable position in the affairs of Portland is due, not to luck, but ability to grasp opportunities and energy to crowd them successfully to a finish. Such men are an honor and a credit to their city and state and we are always glad to entertain such people. Come again.

Mr. and Mrs. Josiah Collison of Pleasant Hill, Lane county, are visiting their son R. E. Collison and family of Odell. Mr. Collison was schoolmate and playmate of the writer on Pleasant Hill away back in the 50s. I remember well the little log school house with its fireplace extending almost across the end of it and how, when we would line up in front of the fire the larger boys would pull our trousers legs against the calf of our legs and make us jump when it burned them. And "honey hangs a tale." His father, in company with my father, Michael Shelley, the Russells and Bristolows and others crossed the plains in 1848, locating on Pleasant Hill. His parents are both living and during all these years have resided there, his father now being 87 years old and his mother almost as old and both in good health. They have been married 65 years. They are surrounded with every comfort and are only waiting for the roll call that will summon them to the regions of the beyond. Such pioneers form an important place in the history of the state and all honor is due such noble, sturdy pioneers. The pioneers of Oregon will soon pass into history and no better men ever lived. They are the kind of men who march triumphantly into the jaws of death the same as they fought across the plains bravely fighting Indians and guarding loved ones along the way.

The Parktown base ball nine came over last Sunday and went up against the Odell nine. After hotly contested game the Odell boys came out winners in the 11th inning, the score standing 15 to 16 in favor of Odell. The Odell boys were smiling at the close of the

game and they should go on record as winners.

H. C. Crockett, one of Odell's most respected citizens, is lying dangerously ill with typhoid fever. His many friends are anxious for his recovery.

N. Cosiatio, the Italian contractor on the railroad with 60 men, has moved camp four miles above here. This increases the pay roll and swells the business of Odell.

Mr. and Mrs. C. G. Roberts left Saturday for Corvallis to attend commencement exercises. Their daughter graduates this year. Mr. Roberts is slowly recovering from the injuries received in the runaway accident some weeks ago.

NEW SETTLERS 200 IN NUMBER

By a Staff Correspondent.

White Salmon, Wash., June 12.—It is not over estimating it to place the increase of White Salmon valley at two hundred so far this year. The greatest increase as to locality in this section is the Pine Flat country. For years the ranchers along the golden valley of the Columbia were content to gaze on the hills and offer praise that they were in the valley. Conditions are changing now, and many who were the most pronounced that yonder hills were of no value are today the most enthusiastic over the future.

The future, that is, where the big fine flavored apples are to be grown is up on the mountains. Already the fine orchards that the Washington boys have planted are showing a rich red bloom, especially adapted to trees, is attracting the attention of many. S. C. Ziegler is one of the latest to become interested and is at work up on his homestead and planting one of the fine orchards. The Hadley and Pratt orchards and the Clemens homestead, then comes the Freeland place, beautiful in its surroundings, and others, many of them could be recalled to my mind, that in a very short time will be producing good returns to those who have the nerve

Ayer's Sarsaparilla

If your blood is thin and impure, you are miserable all the time. It is pure, rich blood that invigorates, strengthens, refreshes. You certainly know

Sarsaparilla

the medicine that brings good health to the home, the only medicine tested and tried for 60 years. A doctor's medicine.

"I once say this, without doubt, to Ayer's Sarsaparilla. It is the most wonderful medicine in the world for purifying the blood, and I cannot think of you enough." Mrs. Della McWall, Newark, N. J.

for Poor Health

Laxative doses of Ayer's Pills which might greatly aid the Sarsaparilla.

to invade the hill.

There are still pieces of land subject to homestead, and many are seeking locations and are being supplied through the agency of the White Salmon Land Co. Both Mr. Fields and Mr. Melness are enthusiasts over the future of White Salmon and the surrounding country, and if there are any who wish homesteads it will be to their advantage to so for the firm in possession of the land by option, or know the facts known by no others.

Now that many are leaving Portland after doing the fur, and the western travel is increasing, there will be spirited doings in and around White Salmon in a real estate way.

When the residence of C. M. Wolfard is completed it will be one of the swell homes of the city. Nothing has been overlooked for the comfort and enjoyment in the arrangement and it will be a source no doubt of a great deal of pleasure to the Wolfard family. The surroundings of the home add to the prettiness of it. Near by is a large orchard that soon will be one of the best in the valley. It clearly shows that Mr. Wolfard is enthusiastic over the country and that he intends to remain there and grow even more prominent in the community.

W. K. Ellsworth, representing the Western Mantel Company of Portland, last week contracted with William Belsanz to install a gasoline lighting system in his confectionery store. The system is said to be a complete one and will be one of the many improvements that Mr. Belsanz is adding to his place of business.

Mrs. Margaret Quine of Battle Creek, Mich., arrived here Saturday and will be the guest of her daughter, Mrs. C. D. Moore for the summer.

COMMENCEMENT AT GOLDENDALE SCHOOL

Special to the Glacier.

Goldendale, Wash., June 13.—The commencement exercises of the Klickitat academy and high school are the main features of the entertainment in Goldendale this week. Rev. N. Evans of Seattle delivered the baccalaureate sermon Sunday evening. Rev. Evans was pastor of the Methodist church at this place for a number of years, and his many friends were glad to see him.

The following is a list of the graduates: Margaret B. Bowie, Samuel J. Hornbrook, Emma Leidl, Harvey E. McCann, Cynthia J. Hornbrook, Wm. J. Hornbrook, Mary McPherson, Cecel Nina Thomas, Sadie E. Hornbrook, Winnie Alice Kennedy, John R. McEwen, Cora Willard, Jessie Grace Dickson.

John Rocha, a farmer living a few miles east of Goldendale, brought in two nice bear Monday evening, which he killed on the Satus creek north of town.

A. J. Evans of the big Klickitat bridge, is reported quite sick with the measles. Judge McCredie is holding a session of court here this week. There will be no jury until October 10.

UNDERWOOD.

After a visit of several days with the family of Ed Underwood, Mrs. John Underwood returned to her home at the Cascades, Monday.

Grandpa Thorton died at the home of his son Moss, Monday, where he has made his home most of the time since he came to Washington from Kansas several years ago, he will be buried at the Underwood cemetery, Tuesday afternoon.

John Dark, Charles T. Roberts and son Clifford and Elton Russell left Underwood Monday morning for the mines on McCoy creek. They will be gone three weeks.

Mrs. Nellie Brown and sister, Miss Elsie Underwood went to the Dalles on the Spuyes Monday. They went to the farms of Mr. Marsh and Mr. Anderson, where they will assist in the packing of fruits.

Mrs. A. J. Haynes and children left for Portland on the Regulator Monday to be gone some time. Their intentions are to put in some time at the fair.

H. C. Cronwell went to Portland last week to meet his brother from California and to visit the fair.

Perry S. Heath has come back from the lower country to stay on his homestead for several months.

The farmers have finished shipping berries. Your correspondent will try to have a letter in a week or two telling of the strawberries.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutritious properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by G. E. Williams.

Do You Suffer with Dyspepsia or indigestion? Clarke's Dyspepsia Tablets will cure you. Price only 50c.

BARRETT.

The directors of Barrett school district met on Thursday evening last to transact business. Professor Thompson was elected as principal, Miss Lyle for intermediate and Miss Gullison for the primary department. We expect to have a good school the coming year.

The John Helms family took a drive on Thursday to the Falls for a day's pleasure. J. H. says he must take in all he can as we only pass this way once, so such day should tell a pleasant story.

It was the writer's privilege to visit the Stranahan Bros.' packing house while the packers were packing strawberries. Say, the boys have some very fine berries. It seems a pity that they do not last longer, for what is more pleasant to the palate than nice strawberries and cream or a nice berry cake? We believe we have the finest berries in the valley, so, when looking for land head this way and inquire at Rockford.

F. C. Sherrieb says he is going to raise some Mangle Wurtzels. By the way, they are already growing and bid fair to make fine roots. Nothing like a variety of crops.

There will be an annual election in the Barrett school house on Monday, June 19 for the purpose of electing one director. All legal voters are requested to be present and vote.

H. P. Martin is a very busy man now days, having to haul two loads of berries most every day. H. P. can do the work because he has the right team, Rockford Billy and Black Jane. We saw a young lady picking cherries the other day and not being tall enough to reach from the ground, she climbed the tree. Good for you.

G. E. Wilbur and wife, a nephew of the Shoemaker brothers, is visiting with these families in Barrett district.

As we look out of our office window to the north we look upon the newly packed white house with its nicely graded lawn covered with beautiful red clover, where we see the busy bee gathering honey all the day; then we turn a little to the left, where we see a beautiful garden of roses and the lady of the house with the children were gathering and placing beautiful bouquets. Then we look upon beautiful Mount Hood with its snow-capped summit. Well might the Psalmist say: "The heavens declare the glory of God and the firmament showeth his handiwork." Then we would say, "O that men would praise the Lord for his goodness and for his wonderful works to the children of men."

The PULLMAN PALACE INN

A clean and quiet place for a night's rest. A new building with new furnishings throughout. The only place in the city of Portland insuring first-class service during the 50c per day make reservations early at 50c per day. E. A. Henderon, Hood River Agent.

Blacksmithing Having a complete equipment in our shop for all kinds of blacksmithing, we invite all those needing work of this kind to call and see us.

Wagonmaking is one of our lines. Mr. Mullen is an expert in this department, and can do anything from the construction of an entire vehicle to the repair of any of its many parts in a manner that will prove his skill and thorough workmanship.

Horseshoeing is our specialty. Courteous treatment and satisfaction is guaranteed with all our work. Remember the firm.

SMITH'S BRICK BLOCK

HOOD RIVER

Did you ever notice the balance wheel in your watch? The balance wheel of a watch gives five vibrations every second, three hundred every minute, 18,000 every hour, 432,000 every day, and 157,440,000 every year. At each vibration it rotates about one and a quarter times, making 196,850,000 revolutions every year. In order that we may better understand the stupendous amount of labor performed by these tiny works, let us make a comparison with a locomotive having six-foot driving wheels. Let it be run until its wheels shall have given the same number of revolutions that a watch balance gives in one year, and it will have covered a distance equal to twenty-eight complete circuits of the earth. All this watch does without other attention than winding once every twenty-four hours. Now, suppose both machines started in good order. The locomotive is oiled every fifty minutes, is carefully wiped and cleaned before being oiled. So that while doing the work of a watch for one year, it has been cleaned 6,955 and oiled 23,810, (and is now in the shop for repairs.) While your watch—suppose it doesn't look very dirty and even if it still keeps pretty fair time—wouldn't it do better service and wear much longer if carefully cleaned and properly oiled ONCE to every 14,000 time a locomotive-w?
