

ODELL

WILL MEET TO TALK CREAMFRY MATTER

By Roswell Shelley. Odell, East Hood River Valley, June 26.—Land lookers have been in evidence at Odell the past week. Hon. E. L. Smith was seen here twice last week with new arrivals at Hood River, and while it is not a matter to be made public yet, an important deal is liable to be consummated on a valuable tract of land, and one of the nicest houses at Odell.

to our mind a speedy settlement of this question to the end that we get a creamery plant at our doors. The conditions here are unequalled in the state, and wherever creameries are in operation the communities are prosperous. Let everybody turn out and aid in this matter.

Frank Neff and wife entertained Pete Nesson from Montana, an old time friend of the Neffs. He was showing him the valley last Sunday and upon introducing him to the writer Mr. Neff remarked that he was foreman of a small ranch in Montana, containing only 24,000 acres with 14,000 acres under the ditch. Frank is our Mark Twain and knows how to entertain his friends. He is fixing up his home in a very attractive manner.

There are several charming homes about Odell, but it is a fact that few of the nice improved homes are on the most public road. In the byways out of sight of the Mount Hood way you find homes that the poet would style as dreams. L. D. Boyd has one of them, one that rivals the average modern city home. Why not have one? They will bring you comfort in your declining years. Then to those who can afford it, they prove a good investment, for you get value received every day in a beautifully adorned home. Besides, to the stranger within our gates, they prove strong arguments concerning our boasted prosperity. The stranger with money to invest is looking for a country with good homes, good roads, and good schools, and mark you, the neighborhoods that have these essentials can always sell them land at a good price. In these strenuous days of modern civilization it is the fancy package that sells.

We understand that views of the Falls scenery were portrayed on canvas last week in Portland at the good roads convention. We sell scenery, climate, apples, berries, spuds and hay and they are sold strictly on their merits in the best markets of the world. The fact is on berries and apples we are the blue ribbon valley of the world, and yet in simply telling cold facts about our charming valley we are sometimes called a boomer. But when writing along this line we weigh our words, and hence have no apology to offer. We are only sorry our ability is not equal to our

honest belief concerning Hood River valley, for then we might be able to paint the picture with more glowing colors. We wish we could write it in letters of gold.

Mrs. Fike and family, Mr. Hill and family and Mr. Newman and family, all of Pine Grove district, passed through Odell last Sunday for a day's outing in Dukes Valley.

C. R. Bone now rides in a nice new carriage that looks good to me. Mr. and Mrs. J. M. McDonald are now entertaining two sisters and a niece of Mrs. McDonald from Wisconsin. Mac was out last Sunday behind his hot-blooded trotters, showing them the beauties of the valley.

Dane Kemp is now the owner of a brand new top buggy with red body and black top. It is a nice turn out and a surprise to some of his friends, but Dane has a way of doing things on the quiet. I don't think the young ladies of Odell were informed of his intentions, but they know it now. Perhaps they may ride in it, but no one but Dane knows about that.

A special school meeting for Odell district is called for Friday, the 30th inst. This meeting is important as questions touching the future welfare of the district are to be considered two of which is the proposed additional buildings, and the question of giving spring water to the school house.

Both these questions are of serious moment as touching the present and future welfare of the district. The present school board is starting out on broad progressive lines and no doubt will be backed up by the taxpayers. Additional room in the building is a necessity if our school takes care of its pupils and teaches the higher grades. While pure water for the use of the children is cheap at any reasonable price, doctors have condemned the creek water. The ranks of the school have been thinned by illness, the cause of which was traced to the water. Shall we economize at the expense of the health of the pupils? The taxpayers will answer this question next Friday, and we feel confident they will answer it right. Geo. A. Masseo has been engaged as principal of the school, the other two teachers have not yet been secured. With three rooms and the 8th and 10th

Ayer's

Do you like your thin, rough, short hair? Of course you don't. Do you like thick, heavy, smooth hair? Of course you do. Then why

Hair Vigor

not be pleased? Ayer's Hair Vigor makes beautiful heads of hair, that's the whole story. Sold for 60 cents.

I have used Ayer's Hair Vigor for a long time, and it has done me much good. It restores health to the hair and scalp, and at the same time, prevents a splitting ending. Sold by J. C. Ayer & Co., Lowell, Mass.

Weak Hair

grades installed this fall, Odell school will rank first class. Director Carnes publicly stated at a recent school meeting that Odell was not too poor to educate its children. This is true, but to do this we must add another room this year.

There will be a lot of improvement here this year. Alfred Wood is preparing to build a new house, and perhaps others will follow.

Rev. Nelson of Hood River will preach at the Union church at Odell next Sunday, July 1st, at 3 p. m.

A slightly desirable tract of land from 20 to 60 acres, situated six miles from town; good vein of Mount Hood and Adams; under the ditch, and near Mount Hood road. This land must sell and a bargain can be had. For particulars call at the Little White Store.

H. S. Galligan is enlarging his barn, making it 63x24 feet. The immense hay crop calls for larger storage houses.

W. L. Carnes now has charge of the Johnson tract containing 20 acres. This place is well improved with new buildings and would be a desirable home for some one. Mr. Johnson has gone to eastern Oregon again.

Chris Bethman recently lost two valuable cows and two English ones. There must be some poisonous growth on the range. This matter should be investigated.

Percy T. and Albert Shelley returned last week from Crook county, where they had been buying a bunch of horses. They lost two out of seven on their way home. This knocks the profits. The remaining five will be sold cheap.

The writer of the Odell notes is under obligations to L. D. Boyd for a box of choice cherries of the Bing variety. Many a vale out of sight of the main thoroughfares is producing fruit which if brought forth for exhibition purposes would excite the wonder and amazement of even Hood River people.

CRAPPER.

George Dunn of Trenton, Mo., after spending about two weeks visiting with his sister, Mrs. A. W. King, went to Portland last Saturday.

John Jakku and his son, Eino, and his brother-in-law, Alex Hooker of Perth, N. D., went to Portland on Thursday last week and returned on Sunday. Mr. Hooker is so greatly pleased with Hood River valley that he expects to return next spring and make his home here. He does not like Dakota blizzards and forty degrees below zero.

Henry Hackett went to Portland on last Saturday. He expects to remain at that place for several months.

Apple thinning and hay making are keeping the farmers busy at the present time.

The rains that have fallen here recently were great "spud" makers.

Rev. Nelson, pastor of the Unitarian church at Hood River preached at the school house last Sunday afternoon. Use the "only original" Dolson's tablets, made only at the Green Point laboratory. "Beware of imitations." All rights reserved. Endorsed by all surveyors.

Miss Vina Hackett went to Portland on last Saturday. She expects to remain there about a month.

Miss Myrtle Carn is in the hospital at The Dalles for medical treatment. A. W. King accompanied by his brother-in-law, George Dunn, of Trenton, Mo., called on W. C. Martin and family one day last week. The time was spent very pleasantly in talking about things pertaining to old Missouri.

WHITE SALMON.

Dr. Swartz, of Chicago, Ill., who purchased an acre tract from T. Wyers, sr., overlooking the Columbia river, will soon erect a magnificent sanitarium on this beautiful site.

The Good Will Lodge, No. 188, I. O. O. F., contemplates erecting a fine brick building on the northeast corner of Jewett avenue and Main street.

The Mountain View Grange of White Salmon is in a flourishing condition. Seven new members were taken in recently and fifteen are now awaiting initiation. They are now planning to buy a 10-acre tract for a park in which to hold their meetings.

Nels Penton of Trout Lake, passed through White Salmon for a load of freight.

A great number of tourists are now passing through White Salmon en route to Trout Lake for the fine fishing and hunting.

George Rankin had his leg severely injured while driving a band of wild horses.

The Edison Theatre Co. gave a very creditable entertainment Saturday night at Lanterbeck's Hall.

J. B. Bonton of Texas, a first class butcher, has purchased the meat market from Myers & C. Neel.

The White Salmon Hotel and the Hotel Washington are both crowded with guests coming and going to Trout Lake, and the various fine summer resorts in the White Salmon valley.

Prof. H. C. Colburn has been elected principal of the White Salmon public school, and Miss Bathbone of Lewis and Clark is principal of the primary school. New grades will be added. A movement is now under way to build a high school.

Ten Times Easier.

It is ten times easier to cure coughs, croup, whooping cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative

Cough Syrup. Gently moves the bowels, and expels all cold from the system, cuts the phlegm, cures all coughs and strengthens weak lungs. Kennedy's Laxative Honey and Tar contains no opiates, is pleasant to the taste and is best and safest for child or adult. Sold by G. E. Williams.

BOLD BANDITS MAKE A HAUL

Special to the Glacier. Cascade Locks, June 26.—The most daring robbery that ever occurred in this section was pulled off last Wednesday afternoon. Three heavily masked bandits entered the Eureka Saloon about 2 o'clock, taking the bartender by surprise, held up the place and got away with \$40, the contents of the cash register.

The leader of the desperate trio held the business end of a six shooter to the head of Erick Nelson, the bartender, and searched him, threatening him with instant death if he moved a muscle. The saloon is owned by Thomas Badler, but he was out and it was fortunate, for he carried the bank roll.

This is the first hold-up in Cascade Locks for many years. After the robbery a number of the ranchers got out rifles and made a still hunt but without result. From the description given by Nelson all were strangers. It is supposed that they were from Portland and are making east.

DUKES VALLEY.

Hay harvest commenced here last week. Most of the hay is down in the swath or in the shock. The rains of Friday and Saturday will damage the hay some, but to no great extent. The berry season came to a close here last week. Most of the growers realized good profits from their crop and we hope to have a better crop than any of the berry growers this year.

Our long looked for saw mill has come at last. Tomson and Hansen, of The Dalles have moved their saw mill down and are setting it up in the lower end of Dukes Valley, on Mr. Tomson's place. They expect to be cutting lumber by the middle of July.

J. O. Cameron will start a crew of men out with his hay press this week. He will furnish a full crew to go with the press, and the farmers will have to do it to furnish the hay and the money and Cameron will do the rest. The price will be \$1.75 per ton for hauling.

C. R. Bone has a force of men at work on the west lateral of the East Fork Irrigation Co.'s ditch. They have the ditch completed as far down as J. Q. Carnahan's place, and in two weeks more they expect to have water running the full length of the ditch.

John Reid was out practicing on his new bicycle last Sunday. We know how to sympathize with you, John. D. P. Shrum and wife of Mitchell Creek Co., were visiting Mrs. Shrum's sister, Mrs. A. T. Dodge, last Sunday. Next Tuesday is the glorious Fourth. The little ones are asking every day how many more days till the Fourth. Let us all let off from work next Tuesday and buy our kids and our dinners and go to the fair and have a good time. The little ones will enjoy it, even if the older ones do not.

Hansen & Tomson have their saw mill all on the ground and are crowding the construction of a saw mill. They expect to have it ready to whittle by the 1st of July. Mr. Tomson has about 60 acres of pine timber he expects to saw out. He will raise clover and apples on the ground where now stands the pine forest.

J. O. Cameron intends to start his hay press this week to baling the new crop.

Floyd Dodson, son of W. G. Dodson, met with quite a painful accident last Sunday. He went out into the garden and found a pile of dry ferns and set them on fire and in some way fell in the fire. His face and hand were burnt, but not seriously. George Tupper said that married life was more expensive than he anticipated, as he had to treat when he got married. Then on the 17th of June there was born to them an eight pound boy and he had to treat again. But George is all right and set 'em up, and we all wish him success and we believe he is a man that will succeed.

At our school election J. O. Cameron and J. A. Malcom were elected directors and P. Masseo re-elected clerk. No teachers have been chosen yet, so if any one wants our school, now is the time to put in your application.

W. G. Dodson is building an addition to his house and M. A. Cameron is building a root house.

J. O. Cameron has bought a full blooded Jersey bull and intends to raise Jersey stock.

Joe Dodge and family were visiting their daughter, Mrs. Fred Chandler, last Sunday.

BARRETT.

The berry season is now over and a thing of the past. We suppose it has been good and profitable season. We say farewell to our pickers, being in hope of seeing all again next season.

L. Dart says he would like to catch his chickens, as they went dressing to kill the insects. Well, L. D., put a little salt on their tails, then you can catch them.

Rev. Pitman, pastor of the Valley Christian church, is holding revival services at Turner.

Joe Hopkins has sold his property on Breckford avenue.

Fred Ingalls may be seen on our street with his new mount. By the way, if Fred should let his horse stray, he will soon be found because the horse is beautifully striped.

'Twas the writer's pleasure to attend the annual conference of the United Brethren church now in session at The Dalles, and have the pleasure of listening to a good and profitable sermon by the new Bishop for the Pacific coast church, Bishop Bell is a very fine speaker.

If in a kind of a billion mood, you wish an aid to digest food, No other pill is half so good. A-D-Witts Little Early Risers. The Famous Little Pills Early Risers cure Constipation, Sick Headache, Bloating, etc. They never grip or sicken, but impart early rising energy. Good for children or adults. Sold by G. E. Williams.

Trate father—I thought you said you were worth ten thousand a year. Would-be suitor—Yes, sir, but I only get \$600.

One Week More

SUGAR 20 Pounds for \$1.00

For every CASH purchase amounting to five dollars in Dry Goods, Clothing, Hats, Shoes, we will give you 20 POUNDS FINE GRANULATED SUGAR for ONE DOLLAR.

All Dry Goods at Reduced Prices. A few lace curtains left at bargains you that you cannot afford to miss. Ask to see them, from 65c to \$6.75 that are worth up to \$9.00.

SMITH'S BRICK BLOCK

HOOD RIVER

Did you ever notice the balance wheel in your watch? The balance wheel of a watch gives five vibrations every second, three hundred every minute, 18,000 every hour, 432,000 every day, and 157,440,000 every year. At each vibration it rotates about one and a quarter times, making 196,800,000 revolutions every year. In order that we may better understand the stupendous amount of labor performed by these tiny works let us make a comparison with a locomotive having six-foot driving wheels. Let it be run until its wheels shall have given the same number of revolutions that a watch balance gives in one year, and it will have covered a distance equal to twenty-eight complete circuits of the earth. All this a watch does without other attention than winding once every twenty-four hours. Now, suppose both machines started in good order. The locomotive is oiled every fifty minutes, is carefully cleaned and cleaned before being oiled. So that while doing the work of a watch for one year, it has been cleaned 6,936 and oiled 23,910, (and is now in the shop for repairs.) While your watch—suppose it doesn't look very dirty and even if it still keeps pretty fair time—wouldn't it do better service and wear much longer if carefully cleaned and properly oiled ONCE to every 14,400 time a locomotive is?
