

ODELL
SUMMER MAKES HIM
THINK OF WINTER

By Roswell Shelley.
Odell, East Hood River Valley, July 25.—After about a week's absence, the Odell man is home again and none the worse for the trip, save for the fact of the thermometer bobbing around and below the 100 mark, he is inclined to be lazy, and will probably not catch half the items that are worthy of note this time.

The fellow who said that we never had more than three continuous days of warm weather at a stretch is at present conspicuous by his absence. Like the Hon. C. R. Moore said the other day at Gladstone Park, in introducing the famous cartoonist, Homer Davenport: "I am not going to risk my reputation by prophesying that Davenport will make you a good speech; decide for yourselves after hearing him." So the weather prophet along with some other prophets now in our valley, had best subside, for we can do without them. After all, these warm days bring their reward, for those are the days when we like to be the ice man. Right this way, plenty of ice cold soft drinks at a nickle a glass at the Little White store. This ice was harvested from pure spring water, when the thermometer registered 108 degrees colder than at this writing.

Rev. J. H. Carnes of Terre Haute, Ind., is a guest of his brother, W. L. Carnes. Last Sunday at 11 a. m. he preached an earnest, eloquent sermon at the Union church at Odell, taking for his theme the consecrated life of Daniel, arguing that to do right was easier than to do wrong, and paid abundantly in this life, to say nothing of the future that awaits us. Mr. Carnes is educated, cultured and exceedingly graceful in the pulpit, and soon convinced his hearers that he needed no help. He strikes from the shoulder and hits hard. The crowd seemed to enjoy the sermon immensely.

ly, each one of us consoling ourselves with the thought that he meant the other fellow. We enjoyed the sermon and have heard many similar expressions concerning it. There were four of the Carnes brothers present—J. L., W. L., the Rev. J. H. and S. R. There are six brothers in all, two of whom reside in Powder Run valley. Concerning this large family of boys, the preacher assured us publicly that he would tell no tales out of school, and we gladly pay him this compliment, that if he is as good a man as his brother and our neighbor, W. L. Carnes, he will pass muster even as a preacher.

Last Saturday the families of Mr. Carter and Mr. Marshall of the east side settlement passed through Odell in search of a cooler place, somewhere up Hood river on the fall road.

Many camp outfits have passed this way recently. Indeed, there is a strong temptation to follow the trail of the soft whispering breeze, as it comes fresh to us from the depths of the forest, but Duty's lash whips us into line. These hot days will pass all too quickly by, and then again the winter days come on. So as the years speed swiftly by, the winter of life comes too soon. To those who improve the opportunities that summer offers, winter has no dread. May this not apply to live?

L. D. Boyd has the contract of doubling the capacity of the Odell public school building. When the plans are carried out and the building stands upon the ground completed in detail according to the plans and it will be it will be a credit to the district. We are always glad to note such improvements, for behind such an enterprise is the spirit of progression that at present is pervading this Western country, and which will add laurels to its future. But we don't hear anything more about the piping of spring water to the school grounds. Is it possible that the district, wide awake as it is to the necessity of increasing the school facilities by increasing the number of rooms and teachers, shall let the time go by and fail to provide pure water, and this, too, at the expense of the health of the pupils? We hope not. A medical lecture last week at Gladstone Park

on this particular question should have been heard by every patron of the Odell school. And while on the water question, is it not about time to ask the question when will Odell be furnished with water for irrigating purposes? There is little use to sow spring crops or even plant gardens here without water for irrigation purposes, and Odell will continually be handicapped until she gets the water she is entitled to.

The big pay roll above here on the railroad work adds materially to the business at Odell.

Hansen & Thomson of Dukes Valley are now running their saw mill with a full force and have a capacity of about 25,000 feet of daily. This is another new industry, through which Odell derives direct benefit in the way of trade. In fact Odell is the hub of a large section of East Hood River valley, and within a few weeks more old developments that are almost sure to materialize, concerning which we are not yet at liberty to speak.

A few days ago business called us to the ranches of Frank Strang and J. W. Wilson, a short distance southwest of Odell. Over there in a sort of hole in the world we found Frank Strang with 40 acres and J. W. Wilson with 20 acres, each of which tract is partly developed. They already have a nursery stock of 15,000 trees, growing on land which will prove the home of the apple. Their land joins an 1 1/2 acre tract which is situated only a quarter of a mile from the line of railroad now being built up the valley. Who of the old timers when they first came over dreamt of the iron horse clipping the valley and skirting the foothills during their life time? Not one of them. Then who of us if told of the wonderful things that will come to us inside the next ten years to come? Not one of us. Think of the Eastern cities, suffering and death in prostration, suffering and death in Eastern cities by reason of heat. Then remember that when evening comes in Hood River valley and Mount Hood's gentle breezes fan our faces and arise next morning refreshed. No man knoweth the day nor hour when the son of God shall again appear. Neither can he tell when some

Ayer's
Losing your hair? Coming out by the comb? And doing nothing? No sense in that! Why don't you use Ayer's Hair Vigor and Hair Vigor promptly stop the falling? Your hair will begin to grow, too, and all dandruff will disappear. Could you reasonably expect anything better?
Ayer's Hair Vigor is a great success with the hair. It stops it from falling out, and makes it grow again. It is sold in bottles of 50 cents and 1 dollar. J. C. Ayer & Co., Lowell, Mass.

great phenomena in nature will take place. The man is not yet born that is big enough intellectually to comprehend the philosophy of one blade of grass. Then why listen to the silly twaddle of some self-styled inspired humbug who is telling you that something awful is going to happen on a specific day. Rotten eggs or tar and feathers are not too bad for the fellow who works upon the nervous of weak people who allow some one else to do their thinking. Hay balers are in demand and in evidence about Odell these days. We are well looked for the building of a creamery. We have the hay in abundance. All we lack is cows in sufficient numbers, but the herd will soon be increased and with the advent of creameries will begin an era of prosperity never before known of in the valley. Let us keep the good work going until we have accomplished something. Last week the following party of Odellites left home for Idaho: Clara Crockett and her sisters, Ada and Vera, and Wm. Kemp and wife; also Dr. Rowley and brother of Hood River. The Odell party went in search of health for Miss Ada Crockett, who has been ill for some time. Her friends indulge the hope that she may find relief in a higher altitude. We have some excellent bargains in real estate and shall gladly show them to parties looking for snags. Last week Henry Walter and J. V. Brook, two young men from the East, were touring the valley by way of Odell. The board of directors of the Apple Growers union were out last Monday canvassing the valley with reference to this season's pack. C. Dethman and G. H. Sproul called at the Little White Store and informed us that the growers were taking up the matter in dead earnest with the union, and that present indications point to better prices for this season's crop than those obtained last year. One thing is noticeable about the Hood River apple, to wit: The larger the output the better the price, provided always the pack is good. Each season advertises the former one.

RUTHTON.
Mrs. C. E. Coppel has returned home from Eugene, where she had been visiting her parents.
Mrs. Bert Snyder who has been in Washington all summer visiting has returned home.
James Snyder returned Monday from the fair at Portland. He says it is a great show and so interesting to interest any one. The mining and machinery halls is what took his attention.
Mr. and Mrs. H. Everhart of Cascade Locks spent Sunday at the home of Mr. and Mrs. W. J. Ross.
Mrs. Nellie Shepard, Mrs. and Mrs. McCammon and daughter of Eston, Kas., who have been visiting at the home of W. J. Ross for the past two weeks, left Tuesday for Portland. They will spend some time at the fair before returning home. They are well pleased with the west and may return some time in the future.

BARRETT.
On Wednesday evening, July 19, by request of Rev. Elkins and wife, pastor of the Valley church, a large number of his parishioners gathered at the parsonage and spent a very pleasant and social time.
It was the writer's privilege to be present at a quiet wedding on Wednesday evening, July 19, at the United Brethren parsonage, Hood River, the contracting parties being Kay Hill and Miss Alice Rhoads, daughter of Presiding Elder Rhoads. Rev. E. Brayford tied the knot in a very few words, after which all repaired to a richly prepared table, all doing justice to the elegant provisions provided.
John Wilson has just finished baling over 30 tons of very fine hay. Nothing better than good hay; then when you have got your hay, get some good cows to consume it; then establish a milk or cream route, and get your cream checks every month.
Fred Dunn has moved his household effects from the Stewart ranch. Fred says he does not like to haul water, so he will locate near the stream.
Mrs. Lottie Mann left for The Dalles on Wednesday last, after visiting with Ma Woodman for a few days.
The prophet with the venerable patriarch have moved to the mountains for safety. It must be near the time for the valley to be deluged. Suppose Mount Hood must be moving and the fire so long smouldering must have waked up as the waters of the river are turned milky white. Perhaps the angry has been down and troubled the waters as in days of old at the Pool of Bethesda. Suppose the prophet will be like Jonah—will wish himself dead when his prophecy fails to materialize, which, of course, will be the case, for the end is not yet.
Mr. Dabson with his wife have moved from Davenport mill to Dukes Valley saw mill.
Having, as we suppose, completed the survey for the H. R. I. Ditch Co., we have been expecting that the directors would call a public meeting and then make a statement to the farmers as to the work done and who has estimated the cost of building the new ditch. There are quite a few farmers who need enlightening on the cost of the ditch. We think it would be much better to get in touch with every farmer by discussing this matter of loading the dirt, then we believe every farmer will say, "We will vote for the money to build the ditch."

GLACIER.
This community was formerly known as Upper Mount Hood, but as a petition has been forwarded to the department at Washington asking for a postoffice at this point to be called Glacier, such will be its designation until further notice.
Milton Pealer of Hood River is visiting Mr. Kirkpatrick for a few days. Frank Pealer, while going home the other night, ran into a rut and was thrown from his wheel. He hasn't been able to be around since.
Father Groff, while hoeing in the garden this morning, heard a terrible scream and looking up saw the cattle running home from the pasture and behind them was a large cougar.
Chas. Thomas is going on a two weeks' vacation. We sorrow to see a lady friend.
George Monroe is going to Portland to visit his father for a few days. Later he is going up to Starbuck to harvest.
Mrs. Ruff and daughter with friends from Portland are visiting their summer home, Glacier View.
Joseph L. Groff is hauling lumber for his house and barn. We expect he will be bringing a cook soon.
Mr. Hegeman and son are visiting the Lewis and Clark exposition.
The weather is very hot. The past few days being a hundred and four in the shade.

MOUNT HOOD.
Mrs. G. C. Ruff and daughter are up from Portland, and are visiting in Mount Hood. They are accompanied by Mrs. Teyson.
Mrs. Morgan and family are guests of R. B. Morton.
The Mount Hood Mill Co. are supplying the lumber for the new school house at Odell. The mill men are kept very busy these days keeping lumber on hand to meet the demand.
O. M. Bailey of Fruita, Colo., accompanied by his wife, spent a few days here last week, looking after business interests.
The Mount Hood Development League will meet at the hall Saturday afternoon at 2:30 p. m. All residents of Mount Hood are urged to attend, as matters of importance will come before the meeting.
Mrs. Warren Cooper has gone to Lost Lake to camp a few weeks with her husband, who is forest ranger at that place.
James Davidson has at last secured his greatest desire—a new buggy—but from appearances last Sunday it will be necessary for him to get an omnibus.
Miss Mildred Cooper, who has been spending the summer with her sister, Miss Nan Cooper, has returned to her home in The Dalles.
D. R. Cooper and family left for Portland Tuesday to spend a week at the fair. Miss Lizzie Cooper will look after the ranch during their absence.

CRAPPER.
Mr. and Mrs. W. H. Robertson of the East Side spent a few days in this neighborhood last week, visiting with the families of B. B. Lindsey, Professor Arneson and Charlie Reed.
Mr. and Mrs. H. A. Hackett went to Portland last Wednesday and returned on Monday. Besides "hitting the trail," they went by boat to the coast. They came home smiling. Why do people always come home smiling after visiting the fair?
Mrs. Lindsey is still quite unwell.
John Jackson and Henry Steffensen left for the hills in the Klickitat valley, Washington on Monday of this week.
Mrs. P. H. Martin is suffering intensely with a boil in one of her ears.
Mrs. F. W. McCune, accompanied by her two young daughters, also by Mr. and Mrs. McCune, Sr., and her sister-in-law, Mrs. Hewitt, and her two young sons of San Francisco, also Miss Nettie Belle Crapper, with Will Crapper acting in the role of "John," returned on last Friday afternoon from an outing to Mount Hood. They looked very cheerful and happy on their return and as Mount Hood is a "big thing" we suppose that they had a large time.

WHITE SALMON.
FROM THE ENTERPRISE.
Old soldiers attention! All old soldiers are invited to meet at White Salmon on Saturday July 29, in the afternoon to take action in the manner of organizing a post of the Grand Army of the Republic. By request of a number of old soldiers.
At the regular meeting of the Goodwill Lodge No. 188, I. O. O. F. the following officers were installed: Noble Grand, Theodore Soksdorf; Vice Grand, John G. Wyer; Secretary, Guy Crow; Treasurer, A. H. Jewett; Secretary, Frank Frohberg; District Deputy Grand Master, Charles L. Craig. The lodge is in a flourishing condition; new members are being taken in at each meeting.
The fact that the railroad company is now having the right of way and paying cash for the same on this side of the river begins to look as though we would surely have a railroad here in the near future. The rail for the road has been so long and promises a good one that many of the old settlers will not believe they are going to get a road until they hear the foot of the engine, but all indications point to the actual consummation of the scheme. We are yet in the dark as to what road is behind the enterprise but that is a secondary consideration anyway. We want the road and do not care particularly who the owners of it may be.

Advertised Letter List.
For week ending July 24, 1905:
Maud Cleveland, Mrs. M. C. Foley, Hattie Griffin, Mrs. R. Jones, Mrs. S. A. Norwood, Mrs. J. D. Peterson, Miss Belle Shields (2), Orday Allenbaugh, Hugh Brakear, Mrs. Myra Burnett, James Chapman (3), Jesse DeWitt, Ed Dumire, J. C. Emmel, Angi Faustell, W. L. Fisher, Bert Howe, Charles Jockison, John R. Ellis, Clide McConnell, C. E. Mason, Bat McQuin, F. McKinnis, Geo. W. Nunnensack, Geo. Quinn, G. W. Piper, N. C. Rhoads, Perry Stay, Stranhal & Co., Ash Vanden, R. J. Vandenburg, J. B. Sweeney.
W. M. YATES, P. M.
Forred to Starve.
B. F. Leek, of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts, and wounds. At C. N. Clarke's drug store. Only 25c.

For Chapped Hands, Sunburn and Rough Skin
use

Superior Toilet Cream

It is the finest preparation for chapped hands, sunburn, rough skin, smarting from shaving, chafing from raw-edged collars, and other skin ailments. It has delightfully soothing, clearing, softening and healing qualities, and is just the toilet cream to use for cases of sunburn. It is not greasy or sticky, drying in quickly, so that gloves can be worn immediately after using, and leaves the skin soft and white. Try it once, and you can not help wanting to use it again.

Price, 25 cents per bottle.

SMITH'S BRICK BLOCK HOOD RIVER

Did you ever notice the balance wheel in your watch? The balance wheel of a watch gives five vibrations every second, three hundred every minute, 18,000 every hour, 432,000 every day, and 157,488,000 every year. At each vibration it rotates about one and a quarter times, making 196,850,000 revolutions every year.
In order that we may better understand the stupendous amount of labor performed by these tiny works, let us make a comparison with a locomotive having six-foot driving wheels. Let it be run until its wheels shall have given the same number of revolutions that a watch balance gives in one year, and it will have covered a distance equal to twenty-eight complete circuits of the earth. All this a watch does without other attention than winding once every twenty-four hours.
Now, suppose both machines started in good order. The locomotive is oiled every fifty minutes, is carefully wiped and cleaned before being oiled. So that while doing the work of a watch for one year, it has been cleaned 6,858 and oiled 23,910, (and is now in the shop for repairs.) While your watch—suppose it don't leak very dirty and even if it still keeps pretty fair time—wouldn't it do better service and wear much longer if carefully cleaned and properly oiled OSCE to every 14,000 time a locomotive is?

Preparatory to making some changes now under consideration, we will make
Reductions on all Summer Dress Goods Underwear, Hats, Clothing, and almost everything in Dry Goods, Shoes

- Batistes and Lawns, ranging in price from 7c to 10c, go at, per yard..... **6c**
- A nice line of Cotton Challies, in exceptionally pretty patterns, for wrappers, Kominos and Quilt tops..... **4 1/2c**
- Veils, Mousseline, De Sois, ranging in price from 15c to 17c, at..... **12 1/2c**
- Embroidered Panamas and Plaid Crepes, ranging in price from 25c to 32c, go at per yard..... **20c**

Ladies' Shirt Waists and Wash Skirts
Only a few of them left, but will close them out at exceptionally low prices.

Children's Clothing
35 Suits, 4 to 10 years old, at half price. If your boy needs a suit, you can't afford to miss this sale.
