

RUSHING WORK ON NEW PLANT

A monster dynamo has been installed in the new power house of the Hood River Electric Light, Water and Power Co., and Manager Davidson hopes to have his new plant in operation shortly after October 1.

The large power dam in the stream of Hood River is nearly completed, and about 200 feet of the 24-foot wooden pipe line, which is to convey water to the turbine wheel at the power house, finished. This wooden pipe line is five feet in diameter. Snow & Upson, the city contractors for the work of supplying about 6000 iron rods for the pipe. This contract required two carloads of iron, and represents one of the largest jobs of this nature ever undertaken in Hood River.

The new power house of the Light, Water and Power Co. is located on the east bank of the river. Here is a comparatively level tract of 30 acres, the property of the company, which offers a splendid site for factories. Mr. Davidson says he will be in position to offer either water or electric power to manufacturing plants wishing location and motor force.

The power house is located 200 feet below the dam. A large ditch conveys the water from the dam to a point where it enters the pipe line, which is carried across the river on a suspension bridge. The bridge is large enough to carry two such five-foot pipe lines, the company planning to add the second one as soon as there is any demand for the power. At present the plant will have a development of 500 horsepower.

The present power house will remain standing, it being Mr. Davidson's intention to use this as a reserve plant. There will also be a reserve machine in the new house, thus insuring absolute certainty in the supply of light and motor power at all times. There has been utilized in the construction of this new power house and pipe line over 100,000 feet of lumber.

Oregon Notes. Ocala (Fla.) Star. Oregon was not left out in the cold this season. During the latter half of July the temperature reached the 100 mark several times and sometimes it went a few points above. But fortunately during the strawberry season the weather was very cool and the berries ripened slow and developed to an unusual degree of perfection. The prices caused the growers to smile. The net returns for berry shipments from Hood River approximated \$200,000.

The Lewis and Clark exposition at Portland is proving a grand success. It is being patronized by people from all over the United States. One interesting feature of the exposition was a pyrotechnic display on the 4th of July on the summit of Mount Hood, which is 60 miles from Portland. At 9 p. m. they touched off about 200 pounds of explosive matter all at once, and it certainly did make a big flash. It was intended for a side show for the fair, but we who live less than half the distance from the scene of action got the full benefit of it by staying at home.

Albert A. Graham was put out of commission about three weeks ago by an attack of inflammatory rheumatism but we are glad to report that he is "on his pegs" again. He spent a few days with us during the time of his convalescence.

Although at present a long distance from Florida, the Martins still claim to be "Crackers," hence the social affinity for Mr. Graham. We greatly enjoyed having him with us.

WHITE SALMON.

FROM THE ENTERPRISE. U. W. Parson of Hood River, who bought 25 acres of land from A. F. Smith, will be a resident of Tower Hill district this winter. C. E. Parson, who bought the W. J. Murphy relinquishment, will also live here during the deep snow season.

A party of plasterers came over from Hood River Wednesday to plaster Theodore Adams' house, which has just been built on the Maine-Bowman tract. There were three of them and their families, making nine persons in all. They are all greatly pleased with White Salmon and its surroundings, and if they see their way clear to do so, will certainly purchase land and settle here permanently. They are staying with M. M. Maine while doing the work and will probably remain the week.

A. D. Maine & Co., contractors, have commenced the construction of Fred Thomas cottage on Jewett avenue next to Hancock's store. It will be a neat five-room cottage. The work will be crowded forward and the building finished probably within a month.

Fred Rosegrant went down to Cascade Locks Monday to superintend the construction of a school building which the firm of Rosegrant & Everhart have the contract for building at that place. Mrs. Rosegrant and the children accompanied him. They will probably be absent several weeks.

E. Hays, the irrepressible sawmill man, well known in these parts, has sold out his mill at Gravel Pit which he has been constructing since last spring, and is now talking of building one at or near Goldendale. Hays could count all the saw mills he has built on his fingers and toes and still have several mills left.

Gilbert Kintson returned last week from St. Paul, Minnesota, where he went last spring to finish learning the jeweler's trade. He has completed his apprenticeship and returns a full fledged jeweler and watchmaker. He will open a shop in one of Wolford & Co.'s windows in a few days. We wish him abundant success.

A Remedy Without a Peer. "I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klotz, of Edina, Mo. For any disorder of the stomach, biliousness or constipation, these Tablets are without a peer. For sale by Williams' Pharmacy.

Money for Pears and Prunes. The Dalles fruit growers have already shipped East 15 cars of pears and prunes, and expect to increase this number six or seven more cars before the season is over. These cars will average 570 crates apiece, and at the price the growers expect to receive, 75 cents a case, the fruit should bring in nearly \$15,000. In addition to the pears, prunes and plums, the Dalles is marketing a large quantity of grapes, melons and peaches.

Cause of Insomnia. Indigestion nearly always disturbs

PLACES FAITH IN THE MEDICINE MAN

The sheriff took a drive to Celilo yesterday to see how Mary Aleck was, who has been sick for some time and who is under his charge, being held to answer the crime of murder in the second degree, says The Dalles Chronicle. He says he went into the tepee, where the woman was lying on a bed, and eight feet from it was about a dozen Indians, who were engaged in "making medicine." The "medicine man" or, as the Indians informed the sheriff, the "doctor, same as Boston man" took the lead in the incantations and movements.

There was a board about 14 feet long, on which were loosely bound some willow twigs, and these were constantly being struck by willow switches about a foot long, in the hands of the "doctor" and his attendants, at the same time a weird and ghost like sound was kept up. After keeping up this din for ten or fifteen minutes, the medicine man bathed Mary's head in some cold water, placed the barrel of a Winchester rifle under her neck, and this apparently relieved her of her suffering, for she immediately stopped her moaning. She managed with some difficulty to assume a sitting posture, when she went through some incantations towards the Indian doctor, and then talked to the sheriff. She is no doubt very sick, and the sheriff will not remove her while in her present condition.

Mr. Sexton is an old resident of Oregon, but he says this is the first time he has ever witnessed these heathen incantations over the sick. It is possible that Mary may be able to be brought to the jail in a few days; but she seems to have more faith in this Indian "medicine" than in that of the established school.

LYLE Frank Carl has returned from the harvest fields of Sherman county. Clinton Conklin came home last week, having been in Oregon for some time. Clinton had the misfortune to be kicked by a horse, knocking several front teeth out.

Mrs. John Daffron is very ill at the Riverside hotel. Mrs. Alva Bradford returned from Portland Monday. She is attending her mother Mrs. Darfon. Mrs. Bradford brings with her a tiny baby girl who bears the name of Mildred.

Fred Silvea, while hunting cattle, attempted to go through a wire fence and as he pulled a staple the wire flew up striking him in the eye, making it necessary for him to go to Portland at once. The last report from his bedside was a possibility of saving the eye with good care, providing he remains in the hospital a month.

Mrs. Conklin has relatives from the East visiting her. Mr. and Mrs. Witt came down from Trout Lake Saturday.

Miss Ethel Dean was quite sick this week, but is now improving. Mrs. Boni and son, Leslie visited Mrs. Tupper at Snowden Sunday.

Grange will be held Saturday at 2 o'clock p. m., and several will be initiated in the third and fourth degree. All patrons are requested to attend.

Mr. and Mrs. Barlow have returned from Soda Springs where they were camping. Mr. Barlow is somewhat improved in health and has resumed work on J. H. Hewitts house, which is nearing completion.

Get Rich From Twenty Acres. Seattle Ranch. Make from \$2,000 to \$4,000 a year on an apple farm, live in the open air, be your own boss, hold your head high and don't be a share cropper or lawyer in the city—such is the advice of E. L. Smith, of Hood River, president of the Oregon board of horticulture. And Mr. Smith says that the apple Eden is Hood River. Thus he spoke last night at the auction whizzed by, leaving their dizzy stomach and the streetcars their noisy clanging, says a writer in the Portland Oregonian.

According to Mr. Smith, 7-year-old orchards easily make from \$100 to \$150 an acre every year and 10-years old \$200. "A man near my place," said he, "with five acres, makes \$1,400 or \$1,500 a year. Another man with 200 trees, cleaned up \$2,500 last year. I had an orchard whose profits amounted to \$150 an acre. From \$200 to \$250 yearly profits to the acre are quite common and in several unusual cases the profits have been \$1,000 an acre."

These big profits, Mr. Smith said, come from light cost, profits of production and heavy demand for the fruit. Cost of cultivation and spraying and packing and hauling to the railroad, etc., he said does not come to more than 50 cents a box, and the grower sold the fruit last year at \$2.10 a box for Spitzenburgs and \$1.75 a box for Yellow Newtowns.

"And crop failure don't occur," said Mr. Smith "for the country has plenty of water year from the reservoirs of Mount Hood and there are no damaging frosts."

"In five years," he explained, "you will see Hood River producing half a million boxes of Spitzenburgs and Yellow Newtowns. Many new orchards have been started. The Spitzenburgs and the Newtowns, as we grow them, are the best apples in the world and cannot be excelled for hardness and flavor and beauty."

The right-sized apple farm, in Mr. Smith's opinion, is 20 acres, and 40 acres is "big enough for any man; in fact, too big." The owner cannot well manage a larger farm, owing to the unreliability of hired labor.

Will Stay in Hood River. The remedy that makes you eat, sleep and grow strong, called Palmo Tablets, will be sold regularly by Williams' Pharmacy, Hood River. These great nerve and constitution builders cost only 50c per box, six boxes \$2.50.

September 27 has been set aside as "Washington state day" at the Lewis and Clark exposition. Governor Mead will deliver an address. In the evening President Goode of the exposition will tender a banquet to Governor and Mrs. Mead, at which the state commissioners and their wives, with many other leading Washingtonians will be present.

The Good Old Way. A severe cold or attack of the grippe is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be ministered

It's a Dandy.

Twenty acres of early strawberry, apple, cherry and vegetable land with a fine southern slope. Only one half mile from town of White Salmon. It commands a magnificent view of Mount Hood and city of Hood River. The soil is rich, deep and moist. Four acres cleared and ready to plant to orchard, balance only light brush, easy to clear, some timber for fuel. It is all under fence, and a fine well of cool soft water. There is no better soil and location for an orchard or a finer site for a home east of the cascades. And now that we are sure of the Northern Pacific building down the north bank of the Columbia river it is dirt cheap at \$100 per acre. It will be worth three times that in three years. Terms, \$100 cash, balance in three years. Don't let this slip if you are looking for a home.

White Salmon Land Co. White Salmon, Wash.

by their grandmothers, backed by Boschee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children. Trial size bottle, 25c; regular size, 75c. For sale by C. N. Clarke.

Some More Hood River Yells. Mrs. H. F. Davidson submits the following yell for Hood River day at the exposition: Hood River, Hood River, who are we? Up the Columbia, come and see. Strawberries, apples to perfection grow. When the people are never slow, And its a cold day when we get left.

Take Kodol After Eating. After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for indigestion, dyspepsia, gas on the stomach, weak heart, sour risings, bad breath and all stomach troubles. Sold by C. N. Clarke.

William M. Davis, president of the Missouri society of Oregon, has issued a letter urging all former Missourians and descendants of Missourians in Oregon and Washington to make every effort to be present at the Lewis and Clark exposition on the 14th of September, which is to be Missouri day. Governor Joseph W. Folk will be present; he will be tendered a reception, and will make a speech. There are more than 20,000 natives of Missouri living in Oregon alone, and it is expected that Missouri day will bring one of the largest crowds yet seen at the fair, as everybody seems eager to meet the famous young governor of Missouri. Governor Folk is only 35 years of age, but is already a national political figure.

Pleasantly Effective. Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. These famous little pills are a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tonic and strengthen the liver. Cure Jaundice. Sold by G. E. Williams.
